**CHICAGO RIVET & MACHINE CO.**

(Exact Name of Registrant as Specified in Its Charter)

**Illinois**

(State or Other Jurisdiction  
of Incorporation or Organization)

**36-0904920**

(I.R.S. Employer  
Identification No.)

**901 Frontenac Road, Naperville, Illinois**

(Address of Principal Executive Offices)

**60563**

(Zip Code)

Registrant's Telephone Number, Including Area Code **(630) 357-8500**

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every interactive data file required to be submitted and posted pursuant to Rule 405 of Regulation S-T (section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company   
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).  
Yes  No

As of June 30, 2009, there were 966,132 shares of the registrant's common stock outstanding.

CHICAGO RIVET & MACHINE CO.  
 NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
 (Unaudited)

1. In the opinion of the Company, the accompanying unaudited interim financial statements contain all adjustments necessary to present fairly the financial position of the Company as of June 30, 2009 (unaudited) and December 31, 2008 (audited) and the results of operations and changes in cash flows for the indicated periods. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
2. The results of operations for the three and six-month period ending June 30, 2009 are not necessarily indicative of the results to be expected for the year.
3. The Company extends credit on the basis of terms that are customary within our markets to various companies doing business primarily in the automotive industry. The Company has a concentration of credit risk primarily within the automotive industry and in the Midwestern United States.
4. The Company is, from time to time, involved in litigation, including environmental claims and contract disputes, in the normal course of business. While it is not possible at this time to establish the ultimate amount of liability with respect to contingent liabilities, including those related to legal proceedings, management is of the opinion that the aggregate amount of any such liabilities, for which provision has not been made, will not have a material adverse effect on the Company's financial position.
5. The Company's federal income tax returns for the 2006 and 2007 are currently under examination by the Internal Revenue Service ( IRS ). The 2008 return is also subject to examination. While it may be possible that a reduction could occur with respect to the Company's unrecognized tax benefits as an outcome of an IRS examination, management does not anticipate any adjustments that would result in a material change to the results of operations or financial condition of the Company. No statutes have been extended on any of the Company's federal income tax filings. The statute of limitations on the Company's 2006, 2007 and 2008 federal income tax returns will expire on September 15, 2010, 2011 and 2012, respectively. The Company's state income tax returns for the 2006 through 2008 tax years remain subject to examination by various state authorities with the latest closing period on October 31, 2012. The Company is currently not under examination by any state authority for income tax purposes and no statutes for state income tax filings have been extended.
6. Inventories are stated at the lower of cost or net realizable value, cost being determined by the first-in, first-out method. A summary of inventories is as follows:

	June 30, 2009	December 31, 2008
Raw material	\$ 1,335,643	\$ 1,600,001
Work-in-process	1,511,327	1,628,664
Finished goods	1,817,926	2,399,967
	4,664,896	5,628,632
Valuation reserves	(578,000)	(580,000)
	\$ 4,086,896	\$ 5,048,632

 (Unaudited)

7. Segment Information The Company operates in two business segments as determined by its products. The fastener segment includes rivets, cold-formed fasteners and screw machine products. The assembly equipment segment includes automatic rivet setting machines, parts and tools for such machines and the leasing of automatic rivet setting machines. Information by segment is as follows:

	Fastener	Assembly Equipment	Other	Consolidated
Three Months Ended June 30, 2009:				
Net sales	\$ 4,105,171	\$ 574,652		\$ 4,679,823

## CHICAGO RIVET &amp; MACHINE CO.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Results for the second quarter of 2009, as well as those of the current year to date, continued to be negatively impacted by weak economic conditions and the dramatic reduction in domestic vehicle sales compared to a year earlier. Net sales for the second quarter this year totaled \$4,679,823, a decline of \$3,367,189, or 41.8%, compared to the year earlier quarter. As of June 30, 2009, year to date sales totaled \$9,439,113, bringing the current year sales decline to \$7,022,225, or 42.7%. Although we continued our progress in reducing expenses during the quarter, cost reductions were not sufficient to offset the effects of the decline in sales. The result was a net loss of \$439,458, or \$0.45 per share, in the second quarter of 2009 compared to net loss of \$19,412, or \$0.02 per share, in the second quarter of 2008. For the first half of the year, the net loss was \$1,063,318, or \$1.10 per share, compared to net income of \$8,251, or \$0.01 per share, in 2008.

Fastener segment revenues improved in the second quarter of 2009 to \$4,105,171, from \$3,629,430 in the first quarter, but trailed revenues in the second quarter of 2008 by \$2,934,385, or 41.7%. For the first six months of the year, fastener segment revenues have declined by \$6,631,082, or 46.2%, from \$14,365,683 to \$7,734,601. The decline in sales for the fastener segment is primarily due to the reduction in domestic automotive production, which declined over 50% in the first half of the year. With the majority of our revenue in this segment coming from the automotive sector, we have been particularly vulnerable to the problems in that sector in recent years, which have resulted in two of the former Big 3 filing for bankruptcy protection earlier this year. During the recent quarter, many automotive companies experienced lengthy production shut-downs in an effort to bring inventories in line with reduced global demand. The current recession has resulted in reduced demand among our non-automotive customers as well. In response to the drop in demand, we have adjusted our operations accordingly. Even though we reduced all major categories of manufacturing costs, these savings did not fully offset the decline in sales volume, resulting in a \$514,000 reduction in fastener segment gross margin in the second quarter and a \$1,496,000 reduction in the year to date amount, compared to the year earlier periods.

Revenues within the assembly equipment segment were \$574,652 in the second quarter of 2009, a decline of \$432,804, or 43%, compared to the second quarter of 2008, when revenues were \$1,007,456. This year's second quarter sales were \$555,208 lower than the first quarter, more than offsetting the improvement in fastener segment sales. This decline was due in part to the shipment of certain high dollar orders in the first quarter. Machine sales, which are included in this segment, are particularly sensitive to economic downturns, and we have seen our unit shipments and revenues decline as a result of the current environment. While manufacturing costs were reduced in response to lower demand, these reductions were not sufficient to fully offset the lower revenue, resulting in a \$183,000 decline in gross margin, to \$113,000, compared to the second quarter of 2008. For the first six months of 2009, revenues in this segment amounted to \$1,704,512, a decline of \$391,143, or 18.7%, compared to the first six months of 2008. As with second quarter results, the reduction in production related expenses did not keep pace with the decline in revenues on a year to date basis, resulting in a gross margin of approximately \$390,000 compared to \$632,000 last year.

Selling and administrative expenses for the second quarter of 2009 were approximately \$89,000 lower than during the second quarter of 2008. The second quarter reduction is primarily due to a \$57,000 decline in commissions, caused by lower sales activity in the current year quarter, and reduced payroll related expenses of approximately \$34,000, due to headcount reductions since the second quarter of last year. On a year to date basis, selling and administrative expenses have declined \$158,000 compared to the first six months of 2008. The largest component of the year to date decline is a \$110,000 drop in commissions related to lower sales in the current year. The remainder of the net reduction relates to various items, including travel and office supplies, which are lower as a result of cost control efforts.

Working capital at June 30, 2009 amounted to \$14.4 million, a reduction of \$1 million from the beginning of the year. Most of the net decline relates to the reduction in inventories, related to lower quantities on hand as well as lower prices for raw materials which had increased dramatically in the second half of 2008. Accounts receivable have declined \$.4 million due to the lower sales at the end of the second quarter compared to the end of the year, but this amount is offset by the \$.5 million increase in prepaid income taxes created by tax basis losses. Total current liabilities

increased slightly during the first half of the year, with the decline in unearned revenue of \$.3 million, related to certain large orders that shipped in the first quarter, offset by normal seasonal increases in accounts payable and accrued expenses. The net result of these changes and other cash flow items on cash, cash equivalents and certificates of deposit leaves such total balances relatively unchanged from the beginning of the year at \$7.6 million. Management believes that current cash, cash equivalents and operating cash flow will provide adequate working capital for the foreseeable future.

**Table of Contents**

The decline in revenues in the second quarter and year to date reflects the depressed levels of production activity in our primary markets, caused by the challenges facing the automotive industry and the distressed economic environment. While there are signs that economic conditions have started to stabilize, we are mindful that few predicted the severity or length of the current crisis and remain cautious in the near-term. Our fastener segment sales in the second quarter were down significantly compared to the year earlier period, but improved compared to the first three months of 2009, offering some optimism as this marked the first quarter-to-quarter increase in two years for this segment. While predicting the timing or strength of any recovery is difficult, we believe our sound financial condition leaves us well positioned to take advantage of opportunities that this environment creates. In response to these difficult market conditions, we will continue our efforts to secure new business while making adjustments to our activities where necessary, without sacrificing the quality that our customers expect.

*This discussion contains certain forward-looking statements which are inherently subject to risks and uncertainties that may cause actual events to differ materially from those discussed herein. Factors which may cause such differences in events include, those disclosed under Risk Factors in our Annual Report on Form 10-K and in the other filings we make with the United States Securities and Exchange Commission. These factors, include among other things: conditions in the domestic automotive industry, upon which we rely for sales revenue, the intense competition in our markets, the concentration of our sales to two major customers, the price and availability of raw materials, labor relations issues, losses related to product liability, warranty and recall claims, costs relating to environmental laws and regulations, the loss of the services of our key employees and difficulties in achieving expected cost savings. Many of these factors are beyond our ability to control or predict. Readers are cautioned not to place undue reliance on these forward-looking statements. We undertake no obligation to publish revised forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.*

CHICAGO RIVET & MACHINE CO.

Item 4. Controls and Procedures.

(a) Disclosure Controls and Procedures. The Company's management, with the participation of the Company's Chief Executive Officer and President, Chief Operating Officer and Treasurer (the Company's principal financial officer), has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this report. Based on such evaluation, the Company's Chief Executive Officer and President, Chief Operating Officer and Treasurer have concluded that, as of the end of such period, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act.

(b) Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.
