PROXY STATEMENT FOR 2010 ANNUAL MEETING

The Board of Directors (the **Board**) of Pinnacle Financial Partners, Inc. (the **Company**) is furnishing this proxy statement in connection with its solicitation of proxies for use at the 2010 Annual Meeting of Shareholders (the **Meeting**) to be held at 11:00 a.m. CDT on Tuesday, April 20, 2010 in our offices on the eighth floor of the Pinnacle at Symphony Place at 150 Third Avenue South, Nashville, Tennessee 37201, and at any adjournments of the Meeting. The enclosed proxy is solicited by the Board of Directors of the Company.

The purposes of the Meeting are to elect five Class I directors and one Class III director, to ratify the appointment of the Company's independent registered public accounting firm, to approve the compensation of the Company's named executive officers as disclosed in this proxy statement as required pursuant to the requirements of Section 111(e)(1) of the Emergency Economic Stabilization Act of 2008 (the **EESA**), and to transact such other business as may properly be brought before the Meeting or any adjournment thereof.

The close of business on February 26, 2010 is the record date for the determination of shareholders entitled to notice of, and to vote at, the Meeting. We first mailed this proxy statement and the accompanying proxy card to shareholders on March 10, 2010.

As of the close of business on the record date, the Company had 90,000,000 shares of Common Stock, \$1.00 par value per share (the **Common Stock**), authorized, of which 33,305,432 shares were issued and outstanding, and 10,000,000 shares of preferred stock, no par value per share (the **Preferred Stock**), authorized, of which 95,000 shares of Fixed Rate Cumulative Perpetual Preferred Stock, Series A (the **Series A Preferred Stock**) were issued and outstanding. Each issued and outstanding share of Common Stock is entitled to one vote on all matters presented at the meeting. Pursuant to the Company's Amended and Restated Charter, none of the issued and outstanding shares of the Series A Preferred Stock entitle a holder thereof to a vote upon any of the matters to be presented at the Meeting.

Table of Contents

In the best judgment of the persons appointed as proxies as to all other matters properly brought before the Meeting.

If any nominee for election to the Board of Directors named in this proxy statement becomes unavailable for election for any reason, the proxy will be voted FOR a substitute nominee selected by the Board of Directors.

You may also vote in person by attending the meeting to be held at 11:00 a.m. CDT on Tuesday, April 20, 2010 in our offices on the eighth floor of the Pinnacle at Symphony Place located at 150 Third Avenue South, Nashville, Tennessee 37201.

Internet Availability of Proxy Materials

This proxy statement, proxy card and accompanying proxy materials are also available at <http://www.cfpproxy.com/5013>

Revocability of Proxies

You can revoke your proxy at any time before it is voted by delivering to Mr. Hugh M. Queener, Corporate Secretary, Pinnacle Financial Partners, Inc., 150 Third Avenue South, Suite 900, Nashville, Tennessee 37201, either a written revocation of the proxy or a duly executed proxy bearing a later date. You may also revoke your proxy by attending the Meeting and voting in person.

Shareholder Approval Requirements

A quorum will be present at the meeting if at least 16,652,717 shares of Common Stock are represented in person or by valid proxy at the Meeting, which is a majority of the Company's outstanding shares of Common Stock as of the record date. According to Tennessee law and the Company's Amended and Restated Charter and Bylaws, the aggregate number of votes entitled to be cast by all shareholders present in person or represented by proxy at the Meeting, whether those shareholders vote for, against or abstain from voting, together with all broker non-votes will be counted for purposes of determining whether a quorum is present.

Broker Proxies. Proxies that are returned to us where brokers have received instructions to vote on one or more proposals but do not vote on other proposal(s) are referred to as broker non-votes with respect to the proposal(s) not voted upon. Broker non-votes are included in determining the presence of a quorum. Unlike prior annual meetings, as a result of recent changes in the rules of the New York Stock Exchange (the NYSE), if your broker does not receive instructions from you, your broker will not be able to vote your shares in the election of directors, resulting in a broker non-vote. In addition, without instructions, your broker will not be able to vote your shares with respect to the proposal to approve the compensation of the Company's named executive officers as disclosed in this proxy statement as required pursuant to the requirements of Section 111(e)(1) of the EESA. Therefore, it is very important that you instruct your broker how you wish your shares to be voted on both of these matters.

Vote Required to Elect Directors. Under Tennessee law, directors are elected by a plurality of the total number of votes cast, which means the nominees who receive the largest number of properly cast votes will be elected as directors. A vote to withhold authority for the election of one or more director nominees will be counted for quorum purposes, but because the vote required to elect directors is a plurality vote, a vote to withhold authority will not affect the outcome of the election under Tennessee law. However, as explained

Table of Contents

more fully below, a vote to withhold authority will be counted for purposes of determining whether a director nominee received the affirmative vote of holders of a majority of the shares voted. So long as a quorum is present, a broker non-vote will have no effect on the approval of the nominees to the Company's board of directors.

The Company's Board of Directors has adopted Corporate Governance Guidelines, as described in more detail below, which provide that, should an incumbent director receive more withhold authority votes than For votes, that director shall tender his or her resignation to the Chairman of the Board following the shareholder vote. Subsequently, the Company's Nominating and Corporate Governance Committee shall consider the relevant facts and circumstances, including the factors that may have given rise to the resulting shareholder vote and the service and qualifications of the impacted director(s), and recommend to the Board within ninety days of the shareholder vote as to whether to accept or reject the resignation of the impacted director(s). The Board shall also consider the relevant facts and circumstances as to whether to accept or reject the Nominating and Corporate Governance Committee's recommendation. Subsequently, the Company shall describe a full explanation of the above process and the decisions reached in a Form 8-K filing with the Securities and Exchange Commission. Any director who tenders his resignation pursuant to this provision shall not participate in any discussion or recommendation related to the above process.

Vote Required to Approve the Compensation of the Company's Named Executive Officers as Described in this Proxy Statement, and Ratification of the Appointment of KPMG LLP. The approval of the compensation of the Company's named executive officers as described in this proxy statement as required pursuant to the requirements of Section 111(e)(1) of the EESA and ratification of the appointment of KPMG LLP as the Company's independent registered public accounting firm for the 2010 fiscal year and any matter other than that enumerated above that properly comes before the Meeting will be approved if the number of shares of Common Stock voted in favor of the proposal exceeds the number of shares of Common Stock voted against it. A properly executed proxy marked

ABSTAIN with respect to a proposal will not be voted on that proposal, although it will be counted in determining whether there is a quorum. Therefore, abstentions and broker non-votes on the approval of the compensation of the Company's named executive officers as described in this proxy statement as required pursuant to the requirements of Section 111(e)(1) of the EESA or ratification of the appointment of KPMG LLP as the Company's independent registered public accounting firm and any other proposal that properly comes before the Meeting will have no effect on whether the proposals are approved so long as a quorum is present.

Proxy Solicitation

Although the Company does not currently plan to engage a proxy solicitation firm, the Company will pay the cost of proxy solicitation. Our directors, officers and employees may, without additional compensation, solicit proxies by personal interview, telephone, fax, or otherwise. We will direct brokerage firms or other custodians, nominees or fiduciaries to forward our proxy solicitation material to the beneficial owners of Common Stock held of record by these institutions and will reimburse them for the reasonable out-of-pocket expenses they incur in connection with this process.

Shareholder Proposals for Next Year's Meeting

In order for shareholder proposals for the 2011 Annual Meeting of Shareholders to be eligible for inclusion in the Company's 2011 Proxy Statement, all such proposals must be mailed to Hugh M. Queener, Corporate Secretary, Pinnacle Financial Partners, Inc., 150 Third Avenue South, Suite 900, Nashville, Tennessee 37201, and must be received no later than the close of business on November 10, 2010. After this date, a shareholder who intends to raise a proposal to be acted upon at the 2011 Annual Meeting of Shareholders, but who does not desire to include the proposal in the Company's 2011 Proxy Statement, must inform the Company in writing no later January 24, 2011. If notice is not provided by that date, such notice will be considered untimely and the

Table of Contents

Board may exclude such proposals from being acted upon at the 2011 Annual Meeting of Shareholders. Further, if the Board elects not to exclude the proposal from consideration at the meeting (although not included in the Proxy Statement), the persons named as proxies in the Company's proxy for the 2011 Annual Meeting of Shareholders may exercise their discretionary authority to act upon any such proposal.

CORPORATE GOVERNANCE

The Company has developed sound corporate governance principles which it believes are essential to running the Company's business efficiently and to maintaining the Company's integrity in the marketplace.

Corporate Governance Guidelines

The Company's Board has established a set of Corporate Governance Guidelines which address such matters as director qualifications, director nominations, board composition, director meetings, board committees and other matters. The Board believes such guidelines to be appropriate for the Company in its effort to maintain best practices as to corporate governance. You may access a copy of the Company's Corporate Governance Guidelines on the Corporate Governance section of the Company's website at www.pnfp.com.

Director Independence

The Board has determined that each of the following directors is an independent director within the meaning of NASDAQ Listing Rule 5605(a)(2):

Harold Gordon Bone;	Gregory L. Burns;
Colleen Conway-Welch;	James C. Cope;
William H. Huddleston,	Clay T. Jackson; and
IV;	
Hal N. Pennington;	Dale W. Polley.
Dr. Wayne J. Riley;	

Messrs. Turner and McCabe are executive officers. Under NASDAQ Listing Rule 5605(a)(2) Messrs. Loughry, Major and Scott are each retired officers of the Company who cannot be considered as an independent director until after the third anniversary of their retirement. The Board determined that Ms. Sue G. Atkinson did not meet the definition of an independent director within the meaning of NASDAQ Listing Rule 5605(a)(2) due to the relationship the Company has with her public relations firm and the services her firm provides the Company on an ongoing basis.

When considering the independence of Mr. Jackson, the Nominating and Corporate Governance Committee of the Board considered those transactions described below under Certain Relationships and Related Transactions. When considering the independence of Mr. Cope, the Nominating and Corporate Governance Committee and the Board considered the services provided to the Company by the law firm of which Mr. Cope is a partner. When considering the independence of Mr. Huddleston, the Nominating and Corporate Governance Committee and the Board considered the engineering work performed for the Company by the engineering firm of which Mr. Huddleston is the President.

In January and June of 2009, the independent directors held four meetings at which only independent directors were present. For both meetings, the independent directors elected Hal N. Pennington to be the chairperson. For 2010, the independent directors have determined that the chairman of the Company's Nominating and Corporate Governance Committee, Hal N. Pennington, will serve as lead independent director and preside as chairman at such meetings.

Table of Contents

Director Qualifications

The Company's Corporate Governance Guidelines contain certain criteria that apply to nominees for a position on the Company's Board. The Company's Board and its Nominating and Corporate Governance Committee have also adopted procedures for the evaluation of director candidates (the "Nominee Procedures") that contain certain minimum qualifications for candidates, including those identified by the Company's shareholders. The Company's Corporate Governance Guidelines provide that the Nominating and Corporate Governance Committee will annually review with the Board the composition of the Board as a whole and will consider with the Board the current composition of the Board in an effort to ensure that the members of the Board have a diversity of age, skills and experience in the context of the needs of the Board. Beyond the Nominee Procedures, the Board has not adopted a formal, written diversity policy. The Board, however, does seek to include directors who, when taken with the other nominees and continuing directors, will create a Board that offers a diversity of education levels, professional experience, background, age, gender, race, perspective, viewpoints and skills that match the diversity of the communities served by Pinnacle National Bank (the "Bank").

The Nominee Procedures provide that the Nominating and Corporate Governance Committee may consider whatever factors it deems appropriate in its assessment of a candidate for board membership and that candidates nominated to serve as directors will, at a minimum, in the Committee's judgment:

be able to represent the interests of the Company and all of its shareholders and not be disposed by affiliation or interest to favor any individual, group or class of shareholders or other constituency;

meet the minimum qualifications for directors set forth in the Corporate Governance Guidelines and fulfill the needs of the Board at that time in terms of diversity of age, gender, race, experience and expertise; and

possess the background and demonstrated ability to contribute to the performance by the Board of its collective responsibilities, through senior executive management experience, relevant professional or academic distinction, and/or a record of relevant civic and community leadership.

In addition to these minimum qualifications, the Nominating and Corporate Governance Committee may also consider whether the candidate:

is of the highest ethical character and shares the core values of the Company as reflected in the Company's Corporate Governance Guidelines and the Company's Code of Conduct;

has a reputation, both personal and professional, consistent with the image and reputation of the Company;

is highly accomplished in the candidate's field;

has expertise and experience that would complement the expertise and experience of other members of the Board;

has the ability to exercise sound business judgment; and

is independent as such term is defined by the NASDAQ Marketplace rules and the applicable provisions of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

Table of Contents

The Nominating and Corporate Governance Committee does not assign specific weights to particular criteria and no particular criterion is necessarily applicable to all prospective nominees. In addition to the criteria set forth above, the Nominating and Corporate Governance Committee considers how the skills and attributes of each individual candidate or incumbent director work together to create a board that is collegial, engaged and effective in performing its duties. Moreover, the Nominating and Corporate Governance Committee believes that the background and qualifications of the directors, considered as a group, should provide a significant mix of experience, knowledge and abilities that will allow the Board to fulfill its responsibilities. For a discussion of the specific backgrounds and qualifications of our current directors, see Proposal # 1: Election of Directors Nominees for Election to the Board on page 9 of this proxy statement.

Service Limitations for other Public Company Boards of Directors

The Company's Corporate Governance Guidelines limit the number of public company boards of directors on which the Company's directors may serve. Generally, non-employee directors may serve on the Company's board of directors and no more than three other public company boards, unless the non-employee director is the chief executive officer of a public company, in which case the limitation is reduced to two other public company boards. Employee directors are limited to the Company's board of directors plus two other public company boards.

Stock Ownership Guidelines

All of the Company's directors are encouraged to maintain a meaningful personal ownership of Common Stock in excess of minimum guidelines established by the Nominating and Corporate Governance Committee. Generally, the guidelines require that directors own shares with a value of approximately three times the average annual compensation paid a board member, provided that until such level is reached, the minimum level may be satisfied by the retention of ownership of all restricted shares granted that have vested, if any. All of the Company's directors are in compliance with the minimum guidelines.

Process for Identifying Candidates

The Nominating and Corporate Governance Committee seeks to identify potential candidates for membership on the Company's Board through conversations with members of the Board, senior management and other members of the communities served by the Company.

The Nominating and Corporate Governance Committee also considers nominees proposed by the Company's shareholders in accordance with the provisions contained in the Company's Bylaws. The Nominating and Corporate Governance Committee considers candidates recommended by the Company's shareholders within the context of the criteria and procedures described in the Nominee Procedures and under the Director Qualifications and Evaluation of Candidate sections of this proxy statement. Under the Company's Bylaws, any shareholder may nominate a person for election to the Company's Board at the Meeting, provided that the nomination is received by the Secretary of the Company no later than March 21, 2010. Each nomination submitted in this manner shall include the name and address of the nominee(s) and all other information with respect to the nominee as required to be disclosed in the proxy statement for the election of directors under applicable rules of the Securities and Exchange Commission, including the nominee's consent to being named as a nominee and to serving as a director, if elected. Additionally, the nominating shareholder must provide his or her name and address as it appears in the stock records of the Company and the number of shares of Common Stock beneficially owned by the shareholder.

Table of Contents

Evaluation of Candidates

The Nominating and Corporate Governance Committee will consider all candidates nominated through the processes described above. The chair of the Nominating and Corporate Governance Committee will preliminarily assess a candidate's qualifications and suitability, working with staff support and seeking input from the Board, and report such assessment as promptly as practicable to the Nominating and Corporate Governance Committee members. When feasible, the chair of the Nominating and Corporate Governance Committee will interview candidates whom the chair believes are likely to meet the criteria for board membership as part of the preliminary assessment process. The report may be made to the Nominating and Corporate Governance Committee at a meeting of the committee or informally to each committee member between meetings.

If it is the consensus of the Nominating and Corporate Governance Committee that a candidate is likely to meet the criteria for Board membership, the chair of the Nominating and Corporate Governance Committee will advise the candidate of the committee's preliminary interest and, if the candidate expresses sufficient interest, with the assistance of the Company's corporate secretary's office, will arrange interviews of the candidate with one or more members of the Nominating and Corporate Governance Committee and senior management of the Company, and request such additional information from the candidate as the committee deems appropriate. The Nominating and Corporate Governance Committee of the Company will consider the candidate's qualifications, including the individual's background, skills and abilities, and whether such characteristics are consistent with the Company's Corporate Governance Guidelines and the qualifications set forth in the Nominee Procedures and whether the candidate's qualifications and characteristics fulfill the needs of the Board at that time. The Nominating and Corporate Governance Committee will then confer and reach a collective assessment as to the qualifications and suitability of the candidate for membership on the Company's Board. On the basis of its assessment, the Nominating and Corporate Governance Committee will formally consider whether to recommend the candidate's nomination for election to the Board.

Board Leadership Structure

In accordance with the Company's Bylaws, the Board of Directors elects the Company's Chief Executive Officer and its Chairman, and each of these positions may be held by the same person or may be held by two persons. Neither the Corporate Governance Guidelines nor any policy of the Board requires that the role of the Chairman and Chief Executive Officer be separate. Robert A. McCabe, Jr., who is also an employee of the Company, is the Chairman of the Board and has been the Chairman of the Board since the Company's inception. M. Terry Turner currently serves as a director and as the Company's President and Chief Executive Officer and has also held these positions since the Company's formation. Additionally, pursuant to the Company's Corporate Governance Guidelines, the Board elects a Lead Director who shall preside over periodic meetings of all independent directors. Currently, Hal N. Pennington serves as the Lead Director of the Company. The Lead Director's responsibilities include, among other things, supporting the Chairman of the Board in developing the agenda for each Board meeting and in serving as a conduit for information flow between management and the non-employee members of the Board.

The Company's Board of Directors is currently comprised of 15 directors, of which nine directors are considered independent under the NASDAQ Listing Rules and the rules of the SEC. Messrs. Loughry, Major and Scott are each retired officers of the Company who cannot be considered as an independent director until after the third anniversary of their retirement. The Board currently has six committees, which are the Executive Committee, the Director's Loan Committee, the Audit Committee, the Community Affairs Committee, the Human Resources and Compensation Committee and the Nominating and Corporate Governance Committee, all of which are discussed in more detail below.

Table of Contents

The Audit Committee, the Human Resources and Compensation Committee and the Nominating and Corporate Governance Committee are composed entirely of independent directors within the meaning of that term in the NASDAQ Listing Rules.

The Company believes that its current leadership structure is appropriate for the Company in that it provides an efficient decision making process with proper independent oversight. The Company's Chairman is highly involved in the day to day operations of the Company. His responsibilities include but are not limited to:

Direct responsibility for the strategic direction of the various fee business of the firm, including wealth management, investment services, trust and insurance services.

Lead business development officer for commercial clients and affluent consumers.

Chairman of the firm's asset liability management committee.

Likewise, the Company's President and Chief Executive Officer is also charged with the day to day operations of the Company. His responsibilities include but are not limited to:

Direct responsibility for the overall strategic direction of the firm.

Provides leadership to the firm's various communication channels both internal and external, including media and investor relations.

Chairman of the firm's Leadership Team and Senior Management Committee.

Although the main leadership of the Company is instilled in people actively employed by the Company, their actions are still subject to the oversight of the Board and its committees. Pursuant to our Corporate Governance Guidelines, our independent directors are required to meet at least twice a year under the leadership of the Lead Director. Additionally, the Executive Committee, 50% of which is composed of independent directors, meets frequently throughout the year. Finally, a majority of the Board is independent and given the independence of the Audit, Human Resources and Compensation Committee and Nominating and Corporate Governance Committee, the Company believes that its leadership structure encourages a strong leadership platform with an appropriate amount of independent oversight.

Risk Oversight

The Board is responsible for providing oversight of the Company's risk management processes. In accordance with SEC and NASDAQ requirements, the Executive Committee is primarily responsible for overseeing the risk management function of the Company on behalf of the Board. In carrying out its responsibilities, the Executive Committee works closely with the Company's Senior Risk Officer and other members of the Company's senior risk management team. The Executive Committee meets at least quarterly with the Senior Risk Officer and other members of management and receives a comprehensive report on risk management, including management's assessment of risk exposures (including risks related to liquidity, credit, operations and regulatory compliance, among others), and the processes in place to monitor and control such exposures. The Executive Committee also receives updates between meetings from the Senior Risk Officer, the Chief Executive Officer, the Chief Financial Officer and other members of management relating to risk oversight matters. The Executive Committee provides a report on risk management to the full Board on at least a quarterly basis. In addition, at least annually, the Chief Risk Officer and members of the risk staff make a presentation on enterprise-wide risk management to the full Board.

In addition to the Executive Committee, the other committees of the Board consider the risks within their areas of responsibility. For example, the Human Resources and Compensation Committee considers the risks that may be implicated by our executive compensation programs. For a discussion of the Compensation Committee's review of the Company's senior executive officer compensation plans and employee

Table of Contents

compensation plans and the risks associated with these plans, see Executive Compensation Human Resources and Compensation Committee Report on page 38 of this proxy statement.

Code of Conduct

The Company has a code of conduct that applies to the Company's associates and directors. Compensation decisions for the Company's Named Executive Officers are made by the Human Resources and Compensation Committee. Since 2006, the Human Resources and Compensation Committee has retained Mercer to provide information, analyses, and advice regarding executive and director compensation. The Mercer consultant who performs these services reports directly to the Human Resources and Compensation Committee chair. The Human Resources and Compensation Committee has established procedures that it considers adequate to ensure that Mercer's advice to the Human Resources and Compensation Committee remains objective and is not influenced by the Company's management. These procedures include: a direct reporting relationship of the Mercer consultant to the Human Resources and Compensation Committee; provisions in the Human Resources and Compensation Committee's engagement letter with Mercer specifying the information, data, and recommendations that can and cannot be shared with management; an annual update to the Human Resources and Compensation Committee on Mercer's financial relationship with the Company, including a summary of the work performed for the Human Resources and Compensation Committee during the preceding 12 months; and written assurances from Mercer that, within the Mercer organization, the Mercer consultant who performs services for the Human Resources and Compensation Committee has a reporting relationship and compensation determined separately from any other Mercer line of business. Mercer also assists the Human Resources and Compensation Committee in establishing compensation for the independent directors of the Board.

The agenda for meetings of the Human Resources and Compensation Committee is determined by its Chairman with the assistance of the Company's Chief Executive Officer, Chief Financial Officer and Chief Human Resources Officer. Human Resources and

All members of the Nominating and Corporate Governance Committee are independent in accordance with the Nominating and Corporate Governance Committee Charter. The Nominating and Corporate Governance Committee is also responsible for recommending individuals to the Board for nomination to fill expired or otherwise vacant seats on the Board. the one year anniversary date of the award (or, in the case of Mr. Smith on his resignation date) as all directors to whom awards were granted attended at least 75% of their assigned board and committee meetings between March 1, 2009 and the vesting date.

For 2010, the Board adopted the same compensation schedule for all non-employee directors as was adopted for 2009. In 2010, the Board of Directors also created a Director Loan Committee, the members of which are David Major, James C. Cope, Robert A. McCabe, Jr., M. Terry Turner, and Gary L. Scott. As Chairman of this committee, Mr. Major will receive an annual fee of \$5,000. The committee members will receive \$1,500 per meeting. The restricted stock award of Company Common Stock for 2010 was based on the February 26, 2010 closing price of \$15.11. As a result each non-employee director has the opportunity to earn 1,323 shares of Company Common Stock should the restrictions lapse on these awards. The restrictions on these shares will lapse on February 28, 2011 should the director attend at least 75% of their assigned board and committee meetings between March 1, 2010 and February 28, 2011. Should the director attend at least 50% of the assigned meetings but less than 75%, the restrictions will lapse on 662 shares with the remaining share awards cancelled. Should the director attend less than 50% of the assigned meetings, no restrictions will lapse and all share awards will be cancelled.

In addition to their compensation for attending Board and committee meetings, their cash retainers and their equity awards, Messrs. Loughry and Cope also received payments totaling \$66,800 and \$30,000, respectively, in 2009 pursuant to the terms of nonqualified, noncontributory supplemental retirement agreements between the director and Cavalry (the Cavalry SRAs) that were assumed by the Company in connection with its acquisition of Cavalry. Pursuant to the Cavalry SRAs, Mr. Cope and Mr. Loughry are entitled to receive equal installment payments over a period of 15 years following retirement or having achieved retirement age equal to the value of the accumulated gains on single premium life insurance policies on the life of each director that are owned by the Company and for which the Company is the beneficiary. Each of Mr. Cope and Mr. Loughry is also entitled to receive any annual gains that accrue to the Company on these policies after his retirement.

In addition to their compensation for attending Board and committee meetings, their cash retainers and their equity awards, Messrs. Major and Scott also received payments of \$120,000 each in 2009 pursuant to the terms of business protection agreements that each director had entered into with Mid-America prior to its merger with the Company. Under the terms of these agreements, which were assumed by the Company in connection with its merger with Mid-America, each of Messrs. Major and Scott has agreed that he will not actively participate or engage directly or indirectly in a competing business in the Nashville-Davidson-Murfreesboro-Franklin metropolitan statistical area (the Nashville MSA) and the counties contiguous to the Nashville MSA until the earlier of (1) his voluntary retirement after reaching age 65; (2) a transaction in which the Company is acquired; (3) August 31, 2011; or (4) the date that the Company terminates the agreement. In exchange for this agreement not to compete, Messrs. Major and Scott are each entitled to receive monthly payments equal to \$10,000 until the occurrence of one of these termination events.

Directors of the Company who are employees of the Company and/or the Bank receive no additional compensation for being a director of the Company or the Bank or for serving on a committee of the Board. Additionally, directors do not receive separate compensation for serving on the Bank's Board.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The duties and responsibilities of the Human Resources and Compensation Committee (the Committee) include, among other things, overseeing the Company's overall executive compensation philosophy; measuring performance with respect to established goals and objectives; designing the components for all executive compensation; reviewing the Company's executive compensation plans and the risks these plans pose to the Company and establishing compensation for the Company's executive officers. The Committee is currently composed of three independent directors.

The Company's executive officers are its President and Chief Executive Officer, Chairman, Chief Administrative Officer, Chief Financial Officer and Chief Credit Officer. The individuals who served as the Company's executive officers during fiscal 2009 are included in the Summary Compensation Table and are sometimes referred to as the Named Executive Officers. Additionally, during 2009, Mr. Harvey White joined the firm in June of 2009 and was appointed Chief Credit Officer in September 1, 2009 succeeding Mr. McMahan. Mr. McMahan remains a senior credit officer of the Company and is a member of the firm's Leadership Team. The Company has established a Leadership Team which is composed of the Named Executive Officers and other members of senior management of the Company.

Compensation Philosophy - The attraction and retention of experienced and high-achieving senior executives that can enhance the Company's performance and shareholder returns is an essential element of the Company's long term strategy. This strategy has resulted in the Company's growth from a start up institution to the second largest banking organization headquartered in Tennessee in less than ten years, despite intensifying competition for experienced bankers in the Company's markets. The Committee believes that consistent with the Company's need to continue to retain executives who can drive high performance by the organization, it should provide significantly above peer overall compensation if the Company's performance is significantly above that of peer financial institutions. Thus, the Company's compensation system has historically been designed to reward executive officers for superior performance. Conversely, overall compensation levels have historically been reduced if high performance financial and strategic objectives as compared to peer financial institutions or budgeted expectations are not met.

The Committee makes all compensation decisions for the Company's executive officers, including establishing the framework for how these executives are compensated, and approves recommendations regarding equity awards to all associates, not just the executives, of the Company. The Committee receives

Table of Contents

recommendations concerning these decisions from the Chief Executive Officer for all associates other than the Chief Executive Officer.

Decisions regarding the non-equity compensation of members of the Leadership Team who are not executive officers are made by the Chief Executive Officer in consultation with each Leadership Team member's supervisor. For these officers, the Chief Executive Officer is responsible for establishing the framework on how these individuals are compensated. These decisions, including salary adjustments and annual equity and non-equity incentive plan award amounts, are ultimately presented to the Committee for review. As is the case with the executive officers, the Committee can exercise its discretion in modifying any recommended adjustments or awards to these individuals.

Components of Executive Compensation - The Committee has determined that it can typically accomplish its executive compensation objectives by utilizing three primary elements of executive compensation:

Base Salary

Annual Cash Incentive; and

Long-term Equity Compensation.

Base Salary Base salary is designed to provide appropriate levels of fixed compensation to the executive. Salaries for the Company's executive officers are reviewed annually and are based on:

Job scope and responsibilities;

Competitive salaries for similar positions at peer institutions; and

Other factors, including corporate and individual performance.

Annual Cash Incentive Plan In general, all non-commissioned associates of the Company are eligible for participation in the Company's annual cash incentive plan which is administered by the Committee and provides targeted cash incentive plan payments to the participants at various levels. In recent years prior to 2010, the targeted cash award for the Company's executive officers has ranged from 70% to 100% of the executive officer's base salary. For the other Leadership Team members, the targeted annual cash award has ranged from 30% to 50% of the Leadership Team member's base salary. Awards are based on achievement of performance goals established by the Committee, with all participants typically receiving the same percentage of their targeted cash award based on the Company's actual results when compared to the performance goals. The Company believes that a single plan for both executives and all other associates promotes a strong sense of teamwork within the firm. Furthermore, the annual cash incentive plan utilizes a combination of performance goals which the Committee believes creates sufficient balance in the plan such that future performance is not sacrificed for the benefit of current period results.

The 2009 Annual Cash Incentive Plan was approved in the first quarter of 2009 and was structured such that the Committee could increase payouts if the Company's actual performance for the calendar year exceeded pre-established performance targets or decrease or eliminate payouts if performance was less than the pre-established performance targets. Additionally, all participants must have satisfactorily met their individual goals and objectives in their annual performance reviews to receive any payouts under the 2009 Annual Cash Incentive Plan. The Chief Executive Officer also had discretionary authority to increase or decrease any participant's award, other than an award for an executive officer, by specified percentages.

The performance targets for the 2009 Annual Cash Incentive Plan adopted by the Committee in January 2009 consisted of a soundness threshold - criticized/classified assets as a percentage of the Company's Total risk-based capital - which had to be achieved in order for any awards to be payable, and earnings per share amounts which if achieved would result in payment of varying percentages (ranging from 25% to 125%) of an

Table of Contents

individual s targeted cash incentives. Under the soundness threshold, in order for any incentive payments to be made, criticized and classified assets (those which have been risk rated as 7 or higher pursuant to the Company s internal risk rating system) at December 31, 2009, should not exceed 45% of the Company s Total risk-based capital at that date. The minimum earnings per share amount for payment of 100% of target incentives was \$1.53 with lower amounts for payments of 75%, 50% or 25% of individual target incentives. The 2009 Annual Cash Incentive Plan also had an additional component which provided that should the Company perform at predetermined levels compared to its peer group, then incentives could be paid at 75% and 50% levels even if the plan s minimum earnings per share targets were not achieved. The Committee also had the discretion to amend performance goals after adoption to reflect exceptional circumstances.

Long-term Equity Compensation Incentive Plans. Under the terms of the Company s 2004 Equity Incentive Plan, as amended (the 2004 Plan), the Company s associates are eligible to receive equity-based incentive awards including stock options, stock appreciation awards, restricted shares of the Company s common stock, restricted stock units, performance shares or units and performance-based cash incentive compensation.

The Committee believes that equity-based, long-term compensation programs link the interests of senior management, both individually and as a team, to the long-term interests of the Company s stockholders. The Committee has traditionally made annual grants of stock options and/or shares of restricted stock, including shares which vest over time and shares which vest upon satisfaction of certain performance conditions established in connection with the long-term Board-approved strategic framework as well as the annual budget process.

Impact of Participation in the Capital Purchase Program On December 12, 2008, the Company issued 95,000 shares of Series A preferred stock to the Treasury under the capital purchase program (the CPP) of the Treasury s Troubled Assets Relief Program (the TARP). Under regulations in effect at the time of the issuance of the Series A preferred stock, the Company was:

- (i) required to ensure that its incentive plans did not encourage excessive or unnecessary risk;
- (ii) required to impose clawbacks on incentive compensation to the Named Executive Officers on the basis of inaccurate financial statements or any other materially inaccurate financial measures;
- (iii) prohibited from making certain golden parachute payments upon termination of employment; and
- (iv) significantly limited in its ability to deduct employee compensation above \$500,000 per individual per year through utilization of performance-based compensation.

The above regulations were in effect during the time period when the Committee was making decisions concerning the 2009 compensation of the Company s executive officers.

On February 17, 2009, the President signed into law the American Recovery and Reinvestment Act (the ARRA), which amended the EESA, which authorized the TARP. The ARRA imposed significant retroactive additional limitations on the executive compensation of companies which were participants in the CPP for the period of time that the preferred stock issued under the CPP was outstanding (the TARP Period). These included, in the case of the Company,

- (i) prohibition of payment or accrual of any bonus payment during the TARP Period to the five most highly compensated employees, subject to limited exceptions;
- (ii) extension of the required clawback of incentive compensation to the twenty most highly compensated employees of the Company (in addition to the Company s Named Executive Officers); and

Table of Contents

- (iii) broadening the golden parachute prohibition to include any payments made upon a change of control or departure for any reason, and to include the next five most highly compensated employees after the Named Executive Officers within the prohibition.

Although the law was signed into effect on February 17, 2009, much of the new statute's application was dependent upon regulations issued by the Treasury in the form of an interim final rule on June 15, 2009 (the June 2009 IFR).

Review of Committee's 2009 Executive Compensation Process

The Committee's process for determining the compensation of M. Terry Turner, the Company's CEO, and the Company's four other continuing executive officers other than Mr. White who was not employed by the Company when the Committee was making its 2009 compensation decisions, involved several steps and included such items as the establishment of an appropriate basis for benchmarking; benchmarking bank performance relative to peers on key measures including those that are highly correlated to share price performance; making qualitative and quantitative judgments regarding the market equity of the executive officers versus benchmark ranges; profiling targeted compensation and developing a change plan to implement the results of the process, if necessary. Since 2005, the Committee has engaged Mercer to assist in the process and review executive officer compensation.

In order to establish the executive officers' (other than Mr. White's) compensation in 2009, the Company used a peer group established by Mercer as the basis for determining executive compensation. The Committee believes that Mercer produced relevant and reliable information in order to assess the competitive landscape for bank executives with comparable job scope. The 2009 Mercer study was presented to the Committee in November 2008.

For 2009 executive compensation, the Committee determined, based on discussions with Mercer, that compensation for a select peer group of banking organizations with assets of \$2.2 billion to \$9.0 billion was an appropriate benchmark for the Company. The peer group was comprised of the following 20 organizations:

Prosperity Bancshares, Inc.	Houston, TX
CVB Financial Corp.	Ontario, CA
Boston Private Financial Holdings	Boston, MA
Amcore Financial, Inc.	Rockford, IL
Western Alliance Bancorp	Las Vegas, NV
1 st Source Corporation	South Bend, IN
PrivateBancorp, Inc.	Chicago, IL
Sterling Bancshares	Houston, TX
Texas Capital Bancshares	Dallas, TX
First State Bancorporation	Albuquerque, NM
Taylor Capital Group, Inc.	Rosemont, IL
Midwest Banc Holdings, Inc.	Melrose Park, IL
Green Bankshares, Inc.	Greeneville, TN
Bank of the Ozarks, Inc.	Little Rock, AR
Cobiz Financial Inc.	Denver, CO
Seacoast Banking Corporation	Stuart, FL
Southwest Bancorp, Inc.	Stillwater, OK
Virginia Commerce Bancorp, Inc.	Arlington, VA
Umpqua Holdings Corp.	Portland, OR
First Midwest Bancorp, Inc.	Itasca, IL

Table of Contents

Mercer provided the Committee with comparisons of the Company's results to the peer group's results for year-to-date 2008 and the three years prior to 2008, for the following measurements:

Fully diluted EPS growth
 Return on average equity
 Revenue per share growth
 Net charge-off ratios
 Total shareholder return
 Book value per share growth
 Net income growth
 Return on average assets
 Asset growth
 Nonperforming asset ratios
 Market value to book value ratio

Mercer noted that the Company's performance for the above measures on an unweighted basis resulted in the Company performing at the 79th percentile for the one-year performance period and the 83th percentile over the three-year performance period thru the date of the November 2008 study. The Company performed in the top quartile for the profitability, growth and total shareholder return measurements. In its November 2008 study, Mercer also noted that the Company's 2008 total executive compensation approximated the 75th percentile of the peer group and that base salary compensation approximated the 60th percentile.

In developing its peer comparisons, Mercer compared the Company's executive officers' compensation to those of comparable associates in firms within the peer group. Mercer also utilized data covering a broader group of financial services companies from its own surveys as well as Watson Wyatt's Survey Report on Top Management Compensation. The following details how the Company's positions were matched to those of the peer group and the compensation survey data:

Named Executive Officer	Position	Proxy Data Match	Market Survey Match
M. Terry Turner	President and CEO	CEO	President and CEO
Robert McCabe, Jr.	Chairman	2 nd highest paid executive	Non CEO Chairman
Hugh M. Queener	Chief Admin. Officer	3 rd highest paid executive	Chief Admin. Officer (*)
Harold R. Carpenter	Chief Financial Officer	CFO	CFO
Charles B. McMahan	Chief Credit Officer	5 th highest paid executive	Blend of top lending and credit executive (*)

(*) A 10% premium was included in the compensation of the CAO and Chief Credit Officer based on job responsibilities.

Mercer provided several recommendations and observations to the Committee including:

- Base salaries for the Company's executive officers, in the aggregate, approximated the 60th percentile, while the executive officers' target total compensation and target total direct compensation approximated the 75th percentile of peers. Mercer indicated that surveys forecasted market median salary increases of 3.8%, but that actual increases were likely to be lower given the changing environment.

- The Company's historic business performance and executive compensation were aligned relative to peers.
- To ensure targeting pay at the 75th percentile does not result in pay outpacing performance in future years, the Company must continue to set aggressive performance goals.
- The Company's targeted compensation levels should also be reviewed in the context of the CPP.

In addition to the Mercer study, the Committee considered other relevant matters such as competitor efforts to hire Company executives, the degree of difficulty in attaining the annual and long-range performance targets, affordability, recent economic conditions, a review of the Company's incentive plans by the Company's Senior Risk Officer, the then existing regulations governing executive compensation of CPP participants, and other matters the Committee deemed important. The Chief Executive Officer provided input

Table of Contents

on these matters to the Committee and suggested certain changes in Mercer's recommendations to align compensation at the 75th percentile for total compensation (consistent with historic Company performance) and to reduce the risk associated with performance leverage. In establishing the executive officers' (other than Mr. White) compensation for 2009, the Committee noted that based on comparisons to peer financial institutions the executives had led the Company to outstanding levels of performance in soundness, profitability, and growth on both an annual and long-term basis, and that shareholders had directly benefited from their leadership.

Target Compensation for the Named Executive Officers for 2009 As a result, the Committee in January 2009 established benchmarks for 2009 compensation of the Company's executive officers (other than Mr. White). The Committee reviewed Mercer's and the Chief Executive Officer's base salary and total compensation recommendations for executive officer compensation for 2009 and determined to increase base salaries of executive officers by approximately 7.5%, and to establish total target compensation at the 75th percentile of the peer group. The base salary levels were above those recommended by Mercer but below the levels recommended by the CEO, while the total compensation levels were consistent with those recommended by the CEO and slightly above, but consistent with, the 75th percentile of the market data provided by Mercer. The Committee noted that due to Mr. McCabe's significant role and responsibilities, his compensation should remain at approximately 95% of Mr. Turner's compensation. Cash incentive target awards were consistent with those for 2008 and consistent with Mercer's recommendation to better correlate total cash compensation with the Company's significant historical EPS growth. Equity compensation was calculated based on the difference between total targeted compensation and targeted cash compensation.

The following is a summary of the significant elements of executive officer compensation for 2009 and 2008:

Named Executive Officer	Base Salary		Cash Incentive Target Award as a % of Base Salary (*)	Equity Compensation		Total Target Compensation	
	2009	2008		2009	2008	2009	2008
M. Terry Turner	\$ 691,000	\$ 643,000	100%	\$ 485,000	\$ 440,000	\$ 1,867,000	\$ 1,726,000
Robert McCabe, Jr.	656,000	610,000	100%	463,000	418,000	1,774,000	1,638,000
Hugh M. Queener	323,000	300,000	85%	258,000	300,000	855,000	855,000
Harold R. Carpenter	323,000	300,000	70%	212,000	250,000	760,000	760,000
Charles B. McMahan	215,000	200,000	70%	130,000	120,000	496,000	460,000

(*): Targeted cash incentive awards did not change between 2009 and 2008.

For the above equity compensation awards, the Committee determined that 100% of the award should be in the form of restricted shares with 75% of the restricted share awards vesting over a ten-year period or ratably annually from the grant date to the executive's 65th birthday, if shorter than ten years from grant. Included in the time-vested restricted share award was a requirement that the Company be profitable in the fiscal year prior to the applicable vesting date for the relevant portion of the award to vest. The remaining 25% of the restricted share awards were in the form of performance-based awards vesting in equal increments over the next three years provided that the Company achieves certain soundness and profitability targets for 2009, 2010, 2011, or alternatively, the three-year period ended December 31, 2011 described in more detail below.

In establishing the components for the CEO's 2009 compensation, the Committee believed that a significant portion of the compensation should be at risk and based on the achievement of soundness and performance targets. The Committee determined that if soundness and performance targets were met, then compensation would be enhanced for meeting those goals and objectives. If soundness and performance targets were not met, compensation would be negatively impacted. The Committee also determined that

Pinnacle Financial Partners, Inc.

Page 33

Table of Contents

outstanding results as compared to peer financial institutions should provide for significantly enhanced compensation.

The Committee concluded that approximately 63% of the CEO's compensation for 2009 was considered at risk with approximately 37% in the form of base salary (consistent with his 2008 compensation). This mix of fixed versus at-risk compensation was considered appropriate by the Committee. Furthermore, the Committee concluded that approximately 59% of the CEO's at-risk compensation for 2009 was in the form of cash incentives and 41% was in the form of equity compensation incentives. The Committee took into account that the Company performance (as compared to stock price performance) element of the equity compensation at risk was somewhat lessened by increasing the portion of restricted stock that was primarily time-vested (although still subject to a minimum profitability component) to 75%, as opposed to 2008, in which 50% of the restricted shares granted were time-vested. As to the other Named Executive Officers, Mr. McCabe's compensation was also approximately 63% at risk, while Mr. Queener's was 63% at risk; Mr. Carpenter's was 58% at risk and Mr. McMahan's was 52% at risk. The Committee concluded that such a mix of at-risk compensation was consistent with the Mercer recommendations noted above and appropriate given each executive officer's role and responsibilities.

Additionally, although other banking organizations use additional forms of compensation, particularly pensions and deferred compensation, it is the view of the Committee and management that total compensation and wealth accumulation for the Company's CEO and the other executive officers should be largely comprised of 1) direct cash compensation (salary and cash incentive) and 2) equity-based compensation including performance based awards consisting of stock options and restricted shares which reward achievement of the Company's goals and objectives and the creation of long-term shareholder value.

Mr. White became a senior credit officer of the Company on June 15, 2009 at which time his starting salary was determined based on his experience in the industry and compensation paid to other senior credit officers both within our Company and to our competitors. The Company also entered into a loan and bonus agreement with Mr. White in connection with his hiring, pursuant to which the Company awarded Mr. White a \$50,000 bonus, which bonus Mr. White will be required to repay in one-third increments if his employment with the Company terminates prior to the third anniversary of his start date with the Company. In September of 2009, Mr. White assumed the role of Chief Credit Officer. Subsequently, in November of 2009, Mr. White was included in the various compensation studies conducted by Mercer with his compensation for 2010 ultimately determined by the Committee as noted below.

Status of 2009 At Risk Compensation as of February 26, 2010. On January 15, 2010, the Committee determined that the Company did not meet its soundness threshold or its earnings per share targets for the 2009 Annual Cash Incentive Plan. The soundness threshold of the 2009 Annual Cash Incentive Plan required that criticized and classified assets be less than 45% of Total risk-based capital at December 31, 2009. At December 31, 2009, this ratio was more than the 45% threshold. The annual earnings per share target for 2009 which would have resulted in a 100% target payout was \$1.53 per fully diluted share. For 2009, the Company's reported a fully-diluted loss per share of \$1.46 per share. Accordingly, the executive officers did not earn any cash incentive award for 2009 performance.

As to equity compensation, on January 14, 2009, the Committee determined that 100% of the executive officer's long-term equity compensation for 2009 should be in the form of restricted share awards. The Committee determined to grant 75% of these awards in the form of time-vested restricted share awards in order to reduce the performance leverage in total compensation to its executives. These shares vest in equal amounts over 10 years, with the exception of Mr. McCabe's and Mr. McMahan's awards which vest in equal amounts over 6 years and 2 years, respectively, which represents the period from grant until Mr. McCabe's and Mr. McMahan's 6th birthdays, respectively. The time-vested awards granted in 2009 did require the

Table of Contents

Company to be profitable in the fiscal year immediately preceding the vesting date in order for the applicable shares to vest.

The remaining 25% of the restricted share awards granted were in the form of performance-based awards. On January 14, 2009, the Committee established the performance criteria for the first year of the performance-based restricted share award as substantially the same criteria as that in the 2009 Annual Cash Incentive Plan (criticized and classified assets of less than 45% of Total risk-based capital and an earnings target of \$1.55 per fully-diluted share). In accordance with the January 14, 2009 approval, the vesting criteria for the second and third years of the performance period were set at the Committee's meeting following the full Board's approval of the 2009 strategic plan in October 2009. The performance targets for the 2010 and 2011 tranches were based upon soundness thresholds and earnings per share targets for fiscal years 2010 and 2011 adopted at the October meeting. The restrictions associated with the restricted shares awarded to the executive officers and other Leadership Team members in 2009 lapse in 33.3% increments upon the achievement of the performance targets (soundness and profitability) for each fiscal year in the three-year performance period or for the entire three-year period in the event the one year targets are not met but the targets established for the three-year period are met on a cumulative basis.

The following represents a summary of the restricted share awards granted as of January 14, 2009 to Messrs. Turner, McCabe, Queener, Carpenter and McMahan:

Named Executive Officer	Time-Vested Awards		Performance-Vested Awards		Total Equity Compensation	
	No. of Shares (*)	Value	No. of Shares (*)	Value	No. of Shares (*)	Value
M. Terry Turner	18,089	\$ 364,000	6,030	\$ 121,000	24,119	\$ 485,000
Robert McCabe, Jr.	17,265	347,000	5,756	116,000	23,021	463,000
Hugh M. Queener	9,645	194,000	3,216	64,000	12,861	258,000
Harold R. Carpenter	7,905	159,000	2,635	53,000	10,540	212,000
Charles B. McMahan	4,854	98,000	1,617	32,000	6,471	130,000

(*) No. of Shares was calculated as of January 20, 2009 (the award date) when the closing market price of the Company's common stock was \$20.09 per share. On February 26, 2010, the closing market price of the Company's Common Stock was \$15.11 per share.

Since the Company was not profitable in 2009, 10% of the time vested awards granted in January 2009 to Messrs. Turner, Queener and Carpenter, 16.6% of those granted to Mr. McCabe and 50% of those granted to Mr. McMahan were forfeited upon the first anniversary of their grant. As a result, and in accordance with the 2004 Plan provisions, 8,870 shares related to the above issuance to the executive officers have been returned to the 2004 Plan and are available for future issuance to the Company's associates and directors. Additionally, similar time vested awards were issued to the other members of the Company's Leadership Team. Accordingly, since the Company was not profitable in 2009, 3,805 shares related to restricted shares issued to the other members of the Company's Leadership Team have also been returned to the 2004 Plan and are available for future issuance to the Company's associates and directors.

The following is a discussion of the status of the 2009 performance (i.e., soundness threshold and fully diluted earnings per share) targets for restricted share awards issued over the last three years:

- § **2009 Award** - The soundness threshold of less than 45% criticized and classified assets in relation to Total risk-based capital was not achieved, nor was the 2009 threshold earnings target of \$1.55 per fully diluted share. Accordingly, the restrictions associated with the 2009 tranche of the 2009 award have not lapsed.

- § **2008 Award** - The soundness threshold of less than 25% criticized and classified assets in relation to Tier 1 capital was not achieved, nor was the 2009 threshold earnings target of \$1.89

Table of Contents

per fully diluted share, excluding merger related expenses. Accordingly, the restrictions associated with the 2009 tranche of the 2008 award have not lapsed.

§ **2007 Award** - The soundness threshold of less than 25% criticized and classified assets in relation to Tier 1 capital was not achieved, nor was the 2009 threshold earnings target associated with the 2007 award of \$2.10 per fully diluted share. Accordingly, the restrictions associated with the 2009 tranche of the 2007 award have not lapsed. The Committee determined that the Company's three-year cumulative threshold target for the three-year period ended December 31, 2009 was not met. The 2008 and 2007 tranches of the 2007 award did not meet their single year or cumulative profitability targets. Since none of the performance targets for the 2007 award have been met, the executive officers have forfeited these performance-based shares and, in accordance with the 2004 Plan provisions, 12,650 shares have been returned to the 2004 Plan and are available for future issuance to the Company's associates and directors. Additionally, similar performance based awards were issued to the other members of the Company's Leadership Team. Accordingly, since the Company did not achieve its performance targets for the 2007 issuance, 11,744 shares related to restricted shares issued to the other members of the Company's Leadership Team have also been returned to the 2004 Plan and are available for future issuance to the Company's associates and directors.

Summary of 2009 performance related compensation. The result of the Company's 2009 performance resulted in total compensation for the executive officers that was substantially less than the total target compensation approved by the Committee in January, 2009 and in previous years. The executives did not receive any of their targeted cash incentive award pursuant to the 2009 Annual Cash Incentive Plan, the profitability restriction associated with the 2009 time-vested award resulted in the forfeiture of a pro rata percentage of those shares, and the restrictions associated with the 2009 tranches of the performance-based restricted shares awards awarded during the past three years did not lapse due to the Company not meeting the required performance targets.

2010 Compensation Update

Employment Agreements

The employment agreements that the Company has entered into with each of Messrs. Turner, McCabe, Queener and Carpenter are described in more detail on page 49 of this proxy statement. These agreements automatically renew each year on January 1 unless the Committee or the executive gives notice of non-renewal prior to November 30 of the preceding year, in which case the agreement terminates thirty days later. Upon the adoption of the ARRA, the Company was prohibited from making certain of the severance payments otherwise required to be made under the employment agreements upon termination of the employment of the executive, including termination after a change in control, during the TARP Period. The Company was not prohibited from making such payments if they are required by the death or disability of the executive. In November 2009, the Committee requested, and subsequently received, waivers from Messrs. Turner, McCabe, Queener and Carpenter of the provisions of these agreements which the Company was prohibited from performing during the TARP Period, thereby significantly limiting the benefits available to these executive officers pursuant to these employment agreements. Messrs. Turner, McCabe, Queener and Carpenter received no additional compensation or other benefit as a result of executing these waivers. These waivers automatically terminate once the Company is no longer a participant in the CPP.

In considering the multiples of base salary and bonus that a terminated executive officer would be entitled to receive following his or her termination, either before or after a change of control, the Committee considered the need to be able to competitively recruit and retain talented executive officers who often times seek protection against the possibility that they might be terminated without cause or be forced to resign without cause, particularly following a change of control. When considering the multiples, the Committee

Table of Contents

also sought to provide benefits at a level that it believed would provide appropriate compensation for the executive officer in the event of consummating a transaction that, although possibly detrimental to the individual's employment prospects with the resulting company, would be beneficial to the Company's shareholders.

The Committee believes that, once the waivers required by the Company's participation in the CPP are no longer applicable, the protections afforded in the employment agreements are reasonable and are an important element in retaining the executive officers who are a party to such agreements.

Federal Income Tax Deductibility Limitations

The Committee has traditionally believed it appropriate to take into account the \$1,000,000 limit on the deductibility of executive compensation for federal income tax purposes pursuant to Section 162(m) of the Code, and to seek to qualify the Company's performance-based cash and equity-based compensation for exclusions from Section 162(m) so such compensation will qualify as a tax deductible expense. However, the regulations issued under Section 162(m) were amended on October 20, 2008 after the adoption of the EESA so as to impose additional restrictions on financial institution's participating in the CPP. These regulations, which are applicable to institutions participating in the CPP, eliminated most of the exclusions from Section 162(m) and lowered the limit for deductibility to \$500,000. The effect of the regulation was to limit the deductibility of the compensation previously deductible by the Company because it was either less than the \$1,000,000 cap or was performance-based, and the Company's Board of Directors took the loss of deductibility into account in determining to participate in the CPP. While the Committee continues to consider the impact of Section 162(m) limitations on the deductibility of its executive compensation above \$500,000, the Committee believes the elimination of the exclusions may cause reduced consideration of the former criteria for such exclusion, particularly the exclusion for performance-based compensation, at least during the TARP Period.

The previous discussion primarily addressed our compensation philosophies, processes and results for the fiscal year ended December 31, 2009. The Committee's decisions concerning executive compensation for 2010 have been significantly impacted by the executive compensation limitations of the Treasury regulations issued in the June 2009 IFR because of the Company's participation in the CPP. The Committee again utilized the services of Mercer in making its compensation decisions for 2010. Mercer used the same peer group as was used in 2009 in its analysis of executive compensation for 2010.

With respect to salaries, the Committee increased Mr. White's salary to \$250,000 upon appointment as Chief Credit Officer, which the Committee considered was consistent with his responsibilities and market data. Mr. Queener and Carpenter received 3% salary increases, which was consistent with the salary increases of the other members of the Leadership Team. Messrs. Turner and McCabe did not receive a salary increase. Generally, salaries for the executive officers were believed to be between the 60th and 75% percentile of peer institutions, based on the Mercer data made available to the Committee.

The June 2009 IFR prohibits the Company from making any bonus, incentive or retention payments during the TARP Period, including any cash payments under the 2010 Annual Cash Incentive Plan, to the top five most highly compensated employees of the Company in 2009, except for restricted stock that meets certain limitations and conditions. Since Messrs. Turner, McCabe, Queener and Carpenter were among the five most highly compensated employees in 2009, they are not eligible to participate in the 2010 Annual Cash Incentive Plan, unless and until the Company repurchases the Series A preferred stock. In accordance with the recommendation of the Chief Executive Officer, the Committee determined that Mr. White would be treated in the same fashion as the other four executive officers with respect to ineligibility for the 2010 Annual Cash Incentive Plan even though he was not one of the five most highly compensated employees in 2009.

Table of Contents

As to cash incentives for 2010 for the other associates of the Company, the Committee determined that the 2010 Annual Cash Incentive Plan for all other associates that participate in the cash incentive plan would have a 50% of target payout if the Company met the 2010 earnings per share target in the budget approved by the Board and its 2010 soundness threshold. The 2010 soundness threshold was based on the percentage of 2010 year-end non-performing assets to total loans plus other real estate set forth in the budget approved by the Board. The Committee also determined that 25% of a participant's total incentive award would be determined in reference to individual performance objectives determined by the Leadership Team with an emphasis on enhancing Company performance in a number of areas. The individual performance objectives would be documented in writing, quantitatively measured by an objective process, and would allow for partial awards in the event not fully achieved.

The June 2009 IFR also significantly restricts the type and amount of equity compensation that can be awarded or granted to the five most highly compensated employees of the Company. Generally, with the exception of restricted stock that meets certain minimum conditions, no other forms of equity compensation may be utilized to incent the Company's executive officers for so long as we are a participant in the CPP. For restricted share awards granted during the TARP Period, the minimum conditions include:

- (i) The restricted shares cannot vest earlier than two years from the date of grant;
- (ii) The restricted shares may not be transferred by the executive until repurchase by the Company of all or specified percentages of the Series A preferred stock issued to the Treasury; and
- (iii) The fair value of such restricted stock on the date of grant cannot exceed one third of the executive's total compensation in the year granted.

The Committee determined that Messrs. Turner, McCabe, Queener, Carpenter and White would be granted restricted shares in accordance with the minimum conditions noted above with a grant date fair value equal to 50% of their 2010 salary (i.e., one third of total compensation). Additionally, 75% of the restricted shares would have only the restrictions mandated by the June 2009 IFR, while 25% of the restricted shares, in addition to the restrictions mandated by the June 2009 IFR, would otherwise vest at the rate of one-third of the shares each year, subject to the achievement of performance conditions. The first year's performance requirements would be the 2010 planned earnings per share target and nonperforming loan percentage threshold contained in the 2010 Annual Cash Incentive Plan. The second and third year performance requirements would be based on the same metrics for 2011 and 2012 with the specific targets being those ultimately adopted in the Company's strategic plan which is expected to be adopted during 2010.

The following table compares 2010 total compensation components to 2009 for the Company's current executive officers:

Human Resources and Compensation Committee Report

During the period after September 14, 2009, the Human Resources and Compensation Committee has at least every six months reviewed (i) with the Company's Senior Risk Officer, the Company's senior executive officer (i.e., executive officers) compensation plans to ensure that the senior executive officer compensation

Table of Contents

plans do not encourage the senior executive officers to take unnecessary and excessive risks that threaten the value of the Company, (ii) with the Company's Senior Risk Officer, the Company's employee compensation plans and has made all reasonable efforts to limit any unnecessary risks these plans pose to the Company, and (iii) the Company's employee compensation plans to eliminate any features of these plans that would encourage the manipulation of reported earnings of the Company to enhance the compensation of any employee.

As required under Treasury's initial interim final rule related to the TARP executive compensation limitations issued in October 2008 (the October 2008 IFR), the Company's Senior Risk Officer in January 2009 reviewed with the Committee, the Company's executive incentive compensation plans to ensure that the Company's executive officers were not encouraged to take unnecessary and excessive risks that could threaten the value of the Company. As required by the June 2009 IFR, the Committee engaged in December 2009, with the assistance of the Company's Senior Risk Officer, in a broader review that included all of the Company's compensation plans. This latter review included discussion, evaluation and review of the plans applicable to the Company's senior executive officers to ensure that such plans do not encourage such officers to take unnecessary and excessive risks that threaten the value of the Company; discussion, evaluation and review of all employee plans in light of the risks posed to the Company by such plans and how to limit such risks (including ensuring the plans do not encourage behavior focused on short-term results rather than long-term value creation); and discussion, evaluation and review of all employee plans to ensure the plans do not encourage the manipulation of reported earnings to enhance the compensation of any of the Company's employees.

In meeting with the Company's Senior Risk Officer and other members of executive management, the Committee identified the Company's senior executive officer compensation plans. For 2009, these plans were the 2009 Annual Cash Incentive Plan, the Company's various equity incentive plans, including the 2004 Plan, the 2000 Stock Incentive Plan and the Mid-America Bancshares, Inc. 2006 Omnibus Equity Incentive Plan, and the various employment agreements to which the Company's senior executive officers are a party. The Committee also reviewed the Company's other non-senior executive officer compensation plans as described below.

The Committee's review of the Company's 2009 Annual Cash Incentive Plan concluded with a determination by the Committee that the plan did not encourage unnecessary and excessive risks that threatened the value of the Company and did not encourage manipulation of the Company's reported earnings to enhance the compensation of any of the Company's employees. The 2009 Annual Cash Incentive Plan contained a soundness threshold that conditions any incentive payments to any plan participants on criticized and classified assets not exceeding 45% of Total risk-based capital. The review concluded that the soundness threshold encouraged participants to consider whether particular actions could result in inappropriately higher risk. The review also noted that most of the Company's associates (including all full-time salaried associates) were eligible to participate in the 2009 Annual Cash Incentive Plan, and this broad-based participation restricted the ability of any single associate to manipulate plan results, and encouraged teamwork and cooperation among associates. Furthermore, the plan limits the maximum amount of payout and that the payout derived from the Company's earnings per share, which is subject to the Company's internal financial controls and audit processes, also limited the risk to the Company. In connection with the review in December 2009, it was noted that the Company's executive officers, except for Mr. White, were subject to the cash bonus prohibition of the June 2009 IFR for the TARP period, and thus not eligible to participate in the annual cash incentive plan expected to be established in 2010. The December 2009 review recommended consideration of certain changes, including an individual performance standard for plan participants that could incorporate specific individual performance metrics. The review also concluded that consideration be given to adopting a soundness threshold metric that was publicly reported and derived from the financial statements, which would allow for better peer comparisons. These recommendations were incorporated into the 2010 Annual Cash Incentive Plan approved by the Company on January 19, 2010.

Table of Contents

The review of the Company's equity compensation plans concluded with a determination by the Committee that the plans did not encourage unnecessary or excessive risks that threatened the value of the Company or that encouraged the manipulation of the Company's earnings to enhance the compensation of any of the Company's employees. Beginning in 2008, the Company began to reduce the number of stock options issued to the Company's associates, focusing more on restricted stock. The Company transitioned to using solely restricted stock for its executive officers and Leadership Team members in 2009. The change to using solely restricted shares was made, among other reasons because, restricted stock retains value even if stock prices are depressed, so that the equity awards continue to encourage employee retention, and incentives for employees to take unreasonable or inappropriate risks to keep stock prices above option prices is reduced. The vesting period for time-vested restricted shares for most associates is five years or ten years for executive officers (other than Mr. McMahan and Mr. McCabe as described above), which encourages focus on long term performance and shareholder value, as well as facilitating employee retention. Similarly, performance-based restricted shares vest over a three year period, after achievement of performance criteria, thereby aligning the interest of executive officers and other associates receiving such awards with long-term Company performance. The same risk reduction characteristics noted above with respect to the annual cash incentive plan for the soundness threshold and the earnings per share targets are also present in the performance-based restricted share awards which use similar metrics. Furthermore, the Company has established stock ownership guidelines for its five executive officers, which aligns an appropriate portion of their personal wealth with the long-term performance of the Company.

The Committee's review of the Company's employment agreements with each of Company's executive officers and other associates who are parties to an employment agreement concluded with a determination by the Committee that these agreements did not encourage unnecessary or excessive risks that threatened the value of the Company and did not encourage manipulation of the Company's reported earnings to enhance the compensation of any of the Company's employees. The employment agreements do not provide for any guaranteed payments based on Company performance and the change in control provisions are designed to align the executive's interests with those of the Company's shareholders.

As an organization, the Company employs a varied compensation structure. The Company utilizes commission based compensation arrangements for mortgage, insurance and investment lines of business. The Company believes that there are adequate controls and clawback provisions embedded within the plans to mitigate the risk associated with such plans. Employees that are subject to these plans do not participate in the annual cash incentive program. In addition, the Company uses loan/bonus agreements on a case-by-case basis to attract and retain talent. The loan/bonus agreement is paid in advance to an employee and is earned over a pre-determined earn out period. In the event the employee leaves prior to earn out, the employee is obligated to repay the unearned portion to the Company. After its review of these various compensation arrangements, the Committee was able to conclude that none of these arrangements encourage manipulation of the Company's reported earnings to enhance the compensation of any of the Company's employees.

The Human Resources and Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

Furthermore and as noted above, the Human Resources and Compensation Committee met with the Company's Senior Risk Officer to ensure that the Company's compensation arrangements do not encourage the Named Executive Officers to take unnecessary risks that threaten the Company.

Table of Contents*Named Executive Officer Compensation*

The table below summarizes the compensation paid or accrued by the Company during the fiscal year ended December 31, 2009 for (i) the Company's Chief Executive Officer; (ii) the Company's Chief Financial Officer; (iii) the three highest paid executive officers of the Company whose total compensation exceeded \$100,000 for fiscal 2009 and who were employed as executive officers at December 31, 2009; and (4) the Company's former chief credit officer, who although employed by the Company at December 31, 2009, was not serving as an executive officer at that date (collectively, the Named Executive Officers). When setting total compensation for each of the Named Executive Officers, the Compensation Committee reviews tally sheets which show the executive's current compensation, including equity and non-equity based compensation. Each of the Named Executive Officers, other than Mr. White and Mr. McMahan, has entered into an employment agreement with the Company, the terms of which are described below.

The Named Executive Officers were not entitled to receive payments which would be characterized as Bonus payments for the fiscal years ended December 31, 2007, 2008 and 2009. Bonuses for purposes of the table below consist of discretionary amounts not associated with an approved incentive plan, such as a relocation bonus.

Based on the grant date fair value of equity awards granted to Named Executive Officers in fiscal year 2009 and fiscal year 2008 and the base salaries of the Named Executive Officers in both years, total aggregate compensation for the Named Executive Officers decreased by \$891,000 or 19.4% between 2008 and 2009. This was primarily because the Named Executive Officers did not receive any cash incentive payment for 2009 compared to the Named Executive Officers receiving cash incentives for 2008 pursuant to the Company's 2008 Annual Cash Incentive Plan plus special cash incentives in 2008 pursuant to the Company's 2008 Special Cash Incentive Plan for the successful integration of Mid-America. For 2009, 2008 and 2007, respectively, Salary accounted for approximately 62.8%, 44.8%, and 70.9%, respectively, of the total compensation of the Named Executive Officers, Non-equity incentive plan compensation accounted for approximately 0%, 23.8%, and 0%, respectively, of the total compensation of the Named Executive Officers, stock and option awards accounted for approximately 34.5%, 29.2%, and 25.1%, respectively, of the total compensation and all other compensation accounted for approximately 2.6%, 2.2%, and 4.1%, respectively, in all three years of the total compensation of the Named Executive Officers.

Payout of incentive compensation occurs upon achievement of certain soundness and performance thresholds as determined by the Human Resources and Compensation Committee. For the 2008 Annual Cash Incentive Plan, in January 2009, the Human Resources and Compensation Committee approved the payment of cash incentive awards under the Plan at a percentage that was generally higher than that otherwise payable under the terms of the plan. The Company did not meet the performance or soundness threshold during 2008, however, the Human Resources and Compensation Committee determined that it was in the best interests of the shareholders

to award a 25% of target award to all participants in the 2008 Annual Cash Incentive Plan, including the Named Executive Officers. Additionally, in April 2008, certain officers, including the Named Executive Officers received a one-time special cash incentive payment following the integration of the Mid-American bank subsidiaries with the Bank. As to the 2007 Annual Cash Incentive Plan, and in accordance with the Named Executive Officer's request, the Named Executive Officers did not receive any cash incentive payments under the 2007 Annual Cash Incentive Plan. For the 2007 Annual Cash Incentive Plan, the Human Resources and Compensation Committee

approved the payment of cash incentive awards under the Plan at a percentage that was generally higher than that otherwise payable under the terms of the plan, except for the Named Executive Officers. Mr. White did not participate in the 2009 Annual Cash Incentive Plan and was not employed by the Company in 2008 or 2007.

(1) The amounts shown in column (c) reflect the minimum payment level under the Company's 2009 Annual Cash Incentive Plan which is 0% of the target amount shown in column (d). The amount shown in column (e) is 125.4% of such target amount. When the Human Resources and Compensation Committee approved the 2009 Annual Cash Incentive Plan, the June 2009 IFR had not yet been issued and the ARRA had not yet been signed into law. As such, at the date of that plan's approval, the Company's Named Executive Officers, other than Mr. White who was not then employed by the Company, were expected to be participants in the plan. Subsequent to the approval of the plan, the ARRA was enacted and the June 2009 IFR was issued limiting

the ability of the Company's five most highly compensated employees in 2008 to participate in the 2009 Annual Cash Incentive Plan. These amounts are based on the individual's current salary and position.

- (2) Reflects awards of restricted shares under the 2004 Equity Incentive Plan. The amounts shown in column (g) reflect the restricted share award targeted number of shares that can be earned over either a three-year performance-based vesting period or a time-based vesting period. This is also the maximum number of shares that can be earned by the Named Executive Officer over these periods thus it is the same number in column (h). All performance-based awards in column (g) and (h) could be forfeited should the Company not meet the performance and soundness targets for these awards. All time-based restricted share awards in column

(g) and (h) could be forfeited should the Named Executive Officer not be employed on the annual vesting dates for these awards. The restrictions on the performance-based restricted shares (which represent 25% of the total shares awarded to each Named Executive Officer) lapse in 33.3% annual increments upon the achievement of certain soundness and earnings per share diluted thresholds for the fiscal years ending December 31, 2009, 2010 and 2011 or soundness and cumulative performance thresholds for the three year period ended December 31, 2011. The restrictions on the time-based restricted shares (which represent 75% of the total shares awarded to each Named Executive Officer) lapse in equal annual increments over the lesser of the time between January 2009 and the Named Executive Officer's 65th birthday or

date. The Named Executive Officer is entitled to vote these restricted shares and receive any dividends payable with respect to the restricted shares, if any, prior to the lapsing of the forfeiture restrictions thereon. Based on the lack of achievement of the soundness and the earnings per diluted share thresholds for the fiscal year ended December 31, 2009, the restrictions on the performance-based portion of the 2009 award tied to 2009 performance did not lapse in January 2010. Additionally, in February 2010, the restrictions associated with 1,809, 2,878, 965, 791, and 2,427 time-based restricted share awards included in columns (g) and (h) above for Messrs. Turner, McCabe, Queener, Carpenter, and McMahan, respectively, granted in January 2009 did not lapse because

the Company was not profitable in 2009.

Employment Agreements Prior to Capital Purchase Program

The employment agreements that the Company has entered into with each of Messrs. Turner, McCabe, Queener and Carpenter are described in more detail below. Upon the adoption of the ARRA, the Company was prohibited from making certain of the severance payments otherwise required to be made under the employment agreements upon termination of the employment of the executive, including termination after a change in control, during the TARP Period. The Company was not prohibited from making such payments if they are required by the death or disability of the executive. In November 2009, the Committee requested, and subsequently received, waivers from Messrs. Turner, McCabe, Queener and Carpenter of the provisions of these agreements which the Company was prohibited from performing during the TARP Period, thereby significantly limiting the benefits available to these executive officers pursuant to these employment agreements. Messrs. Turner, McCabe, Queener and Carpenter received no additional compensation or other benefit as a result of executing these waivers. These waivers automatically terminate once the Company is no longer a participant in the CPP.

The Company entered into a three-year employment contract with M. Terry Turner, President and Chief Executive Officer, on August 1, 2000. This agreement was amended on January 1, 2008. This amendment eliminated the automatic three year renewable clause in the agreement as well as incorporated the impact of IRS Code Section 409A into the agreement. There were no other significant changes to the terms and conditions of the original agreement as a result of the amendment. The amended agreement automatically renews annually on January 1, unless any of the parties to the agreement gives notice of intent not to renew the agreement prior to November 30 of the preceding year in which case the agreement terminates thirty days later.

The Company entered into a three-year employment contract with Robert A. McCabe, Jr., Chairman of the Board on August 1, 2000. This agreement was amended on January 1, 2008. This amendment eliminated the automatic three year renewable clause in the agreement as well as incorporated the impact of Section 409A of the Code into the

agreement. There were no other changes to the terms and conditions of the original

agreement as a result of the amendment. The amended agreement automatically renews annually on January 1, unless any of the parties to the agreement gives notice of intent not to renew the agreement prior to November 30 of the preceding year in which case the agreement terminates thirty days later.

The Company entered into a three-year employment contract with Hugh M. Queener, Chief Administrative Officer, on December 4, 2000. This agreement was amended on January 1, 2008. This amendment eliminated the automatic three year renewable clause in the agreement as well as incorporated the impact of Section 409A of the Code into the agreement. There were no other changes to the terms and conditions of the original agreement as a result of the amendment. The amended agreement automatically renews annually on January 1, unless any of the parties to the agreement gives notice of intent not to renew the agreement prior to November 30 of the preceding year in which case the agreement terminates thirty days later.

The Company entered into a three-year employment contract with Harold R. Carpenter, Chief Financial Officer, on March 14, 2006. This agreement was amended on January 1, 2008. This amendment eliminated the automatic three year renewable clause in the agreement as well as incorporated the impact of Section 409A of the Code into the agreement. There were no other changes to the terms and conditions of the original agreement as a result of the amendment. The amended agreement automatically renews annually on January 1, unless any of the parties to the agreement gives notice of intent not to renew the agreement prior to November 30 of the preceding year in which case the agreement terminates thirty days later.

The employment agreements described above for Messrs. Turner, McCabe, Queener and Carpenter require the Company to make certain severance payments to the executives in the event that the Company terminates the employment of the executive without cause or the executive terminates his employment for cause. The employment agreements also require the Company to make certain payments to the executives in the event that the executive becomes disabled. Under the terms of the employment agreements, if the Company terminates the executive without cause, it must pay the executive severance equal to three year's base salary. If the executive terminates his employment with the Company for cause, the Company must pay the executive a maximum of up to twelve months of base salary.

The employment agreements also contain provisions that if the executive terminates his employment with the Company for cause within a year following a change of control, the executive shall be entitled to a lump sum severance payment equal to three times the executive's then current salary and target bonus, plus certain retirement benefits plus tax payments. Generally, this change of control provision is typically referred to as a double trigger such that (a) a change of control has to occur as defined in the employment agreements and (b) the executive has to terminate his employment for cause, again as defined in the employment agreement, as follows:

- (a) A change of control generally means the acquisition by a person or group of 40% or more of the voting securities of the Company or the Bank; a change in the majority of the Board over a twelve-month period (unless the new directors were approved by a two-thirds majority of prior directors); a merger, consolidation or reorganization in which the Company's shareholders before the merger own 50% or less of the voting power after the merger; or the sale, transfer or assignment of all or substantially all of the assets of the Company and its subsidiaries to any third party.
- (b) Termination for cause generally means that immediately following the change of control, the executive no longer reports to the same supervisor he reported to prior to the change of control, a change in supervisory authority has occurred such that the associates that reported to the executive prior to the change of control no longer report to the executive, a material modification in the executive's job title or scope of responsibility has occurred, a change in

Table of Contents

office location of more than 25 miles from the executive's current office location or a material change in salary, bonus opportunity or other benefit has occurred.

Also and in the event of a change of control, the executive will receive three years of Company-provided health plan benefits subsequent to his termination. In addition, the executive will be indemnified by the Company for any excise tax due under Section 4999 of the Code of an amount sufficient to place the executive in the same after-tax position as the executive would have been had no excise tax been imposed upon or incurred or paid by the executive. The executive is also entitled to receive assistance from a qualified accounting firm of his choice not to exceed \$2,500 per year for three years.

Furthermore, in the event of a change of control, any unvested restricted share awards, pursuant to the restricted share agreements with the executives noted above, would immediately vest. All unvested stock option grants would only vest pursuant to a change of control with the approval of the Human Resources and Compensation Committee.

Employment Agreements Under the Capital Purchase Program

Following the adoption of the ARRA, and as clarified in the June 2009 IFR, the Company is prohibited from making golden parachute payments during the TARP Period to any of the Company's senior executive officers and any of the five next most highly compensated employees of the Company. Golden parachute payments are defined under the June 2009 IFR to include any payment for an employee's departure from a company for any reason or any payment due to a change in control of a company, except payments for services performed or benefits accrued. Because the payments due to the executives under the employment agreements that are triggered by the Company's terminating the executive without cause or by the executive terminating his employment for cause (either before or within twelve months following a change in control) would constitute golden parachute payments under the June 2009 IFR, the Company is prohibited from making those payments to the executives. The Company would not be prohibited from making such payments to the executives if they are required by the death or disability of the executive.

In November 2009, the Human Resources and Compensation Committee requested, and subsequently received, waivers from Messrs. Turner, McCabe, Queener and Carpenter of the provisions of their respective employment agreements which the Company was prohibited from performing during the TARP Period, thereby significantly limiting the benefits available to these executives pursuant to these employment agreements. Messrs. Turner, McCabe, Queener and Carpenter received no additional compensation or other benefit as a result of executing these waivers. Because a golden parachute payment under the June 2009 IFR includes the acceleration of vesting of an equity award due to the departure of an employee or change in control, the waivers executed by the executives prohibit the acceleration of any equity awards held by the executives upon a departure or change in control. These waivers automatically terminate once the Company is no longer a participant in the CPP.

The following is a tabular presentation of the amounts that would be owed the Named Executive Officers pursuant to the various events detailed above assuming the event occurred on December 31, 2009 and that at that date the Company did not have an outstanding obligation to the U.S. Treasury under the CPP and that accordingly the waivers executed by Messrs. Turner, McCabe, Queener and Carpenter were not then in effect:

the employee for cause in each case, within twelve months following a change in control, the Company has included in the calculation the anticipated value of the immediate vesting of previously unvested restricted share awards and stock option grants in addition to the cash payments and healthcare benefits noted above. As a result, the Company has computed the 20% excise tax obligation owed by Messrs. Turner, McCabe, Queener and Carpenter in the event of a change of control to be \$1,457,000, \$1,380,000, \$634,000 and \$583,000, respectively. As a result, the Company has assumed a personal income tax rate of 45% for each executive and

has included the additional gross up amount in the table above.

The Company has not anticipated such excise tax or gross up payments for other terminating events as payments for such matters would be extended over a period of time such that the executive s compensation would likely not be subject to section 280(G) of the Code.

(3) Mr. McMahan and Mr. White do not have an employment agreement with the Company.

(4) The above amounts do not include benefits owed the Named Executive Officers or their estates pursuant to the Company s broad based group disability insurance policies or group life insurance policy. These benefits would

be paid pursuant to these group policies which are provided to all employees of the Company. Additionally, and also not included in the above amounts, the Named Executive Officers and certain other Leadership Team members also participate in a supplemental group disability policy which provides incremental coverage (i.e., gap coverage) for these individuals over the broad-based group disability coverage maximums.

Ownership Guidelines

The Committee also requires the CEO and all other Named Executive Officers to maintain a meaningful personal ownership in the Company in the form of Common Stock. Periodically, the Committee may establish minimum Common Stock beneficial ownership levels for the CEO and the other Named Executive Officers. In 2006, the Committee established Common Stock beneficial ownership levels for the CEO and the Chairman of the Board of 50,000 shares of Company Common Stock. Additionally, the Committee established stock beneficial ownership levels of 25,000 shares for the Chief Administrative Officer and 10,000 shares for both the Chief Financial Officer and the Chief Credit Officer. All Named Executive Officers currently exceed the applicable minimum level of beneficial ownership.

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and executive officers and persons who own beneficially more than 10% of the Company's outstanding Common Stock to file with the Securities and Exchange Commission initial reports of ownership and reports of changes in their ownership of the Company Common Stock. Directors, executive officers and greater than 10% shareholders are required to furnish the Company with copies of the forms they file. To our knowledge, based solely on a review of the copies of these reports furnished to the Company during the year ended December 31, 2009, or on written representations from certain reporting persons that no Forms 5 were required for those persons, all of the persons who were directors or executive officers of the Company during 2009, complied with all applicable Section 16(a) filing requirements during 2009.

Certain Relationships and Related Transactions

The Company and the Bank have banking and other business transactions in the ordinary course of business with directors and officers of the Company and the Bank and their affiliates, including members of their families, corporations, partnerships or other organizations in which the directors and officers have a controlling interest. These transactions were entered into on substantially the same terms (including price, interest rate and collateral) as those prevailing at the same time for comparable transactions with unrelated parties and these transactions did not involve more than the normal risk of collectability or present other unfavorable features to the Company or the Bank.

For the year ended December 31, 2009, the Company incurred approximately \$282,000 in expenses for services rendered by this public relations company. Also, Mr. Jackson is an officer in an insurance firm that serves as an agent in securing insurance in such areas as Pinnacle Financial's employee bond and other insurance policies. The amount this agency receives in commissions or fees on such insurance services is immaterial.

Pursuant to the Audit Committee Charter, the Audit Committee of the Board of Directors is responsible for reviewing and approving any transaction required to be described in this Proxy Statement pursuant to the rules and regulations of the Securities and Exchange Commission. The Audit Committee has ratified the approval of the above-described transactions in which Ms. Atkinson and Mr. Jackson had an interest, which transactions had previously been approved by the full Board.
