Depositary Shares Offering

Depositary shares offered:	20,000,000 depositary shares, each of which represents a 1/40 th interest in a share of the Issuer's 7.25% Mandatory Convertible Preferred Stock, Series F (mandatory convertible preferred stock). At the consummation of the depositary shares offering, the Issuer will issue 500,000 shares of mandatory convertible preferred stock, subject to the underwriters' option to purchase additional depositary shares.
Option for underwriters to purchase additional depositary shares:	3,000,000 additional depositary shares (corresponding to 75,000 additional shares of the mandatory convertible preferred stock).
Public offering price:	\$25 per depositary share / \$500,000,000 million total, subject to the underwriters' option to purchase additional depositary shares.
Underwriting discount:	\$0.75 per depositary share / \$15 million total, subject to the underwriters' option to purchase additional depositary shares.

Proceeds, before expenses, to the Issuer: \$24.25 per depositary share / \$485,000,000 million total, subject to the underwriters' option to purchase additional depositary shares.

Dividends: 7.25% on the liquidation amount of \$1,000 for each share of mandatory convertible preferred stock per year (equivalent to \$72.50 per annum per share of mandatory convertible preferred stock, corresponding to

\$1.8125 per annum per depositary share). The dividend payable on the first dividend payment date, if declared, is expected to be \$19.7361 per share of mandatory convertible preferred stock and on each subsequent dividend payment date, if declared, is expected to be \$18.1250 per share of mandatory convertible preferred stock (equivalent to \$0.4934 and \$0.4531, respectively, per depositary share).

On the final dividend payment date or any earlier conversion date, the Issuer may pay dividends in cash, shares of the common stock or a combination thereof, at its election and subject to the share cap. The share cap is an amount per share equal to the product of (i) 2 and (ii) the maximum conversion rate, subject to adjustment as described in the depositary shares preliminary prospectus supplement. If the Issuer elects not to pay any dividends prior to the mandatory conversion date, and to pay accrued and unpaid dividends on the mandatory conversion date solely in shares of the common stock, and if the average VWAP of the common stock for the relevant measurement period is less than \$6.27, the shares of the common stock that a holder of depositary shares will receive will have a value that is less than the amount of such accrued and unpaid dividends.

Dividend payment dates: If declared, January 1, April 1, July 1 and October 1 of each year, commencing on July 1, 2010 and ending on April 1, 2013.

Mandatory conversion date: April 1, 2013.

Initial price: \$27.75.

Threshold appreciation price: \$33.857, which represents an appreciation of approximately 22% over the initial price.

Conversion rate per share of mandatory convertible preferred stock: The conversion rate for each share of mandatory convertible preferred stock will not be more than 36.036 shares of the common stock and not less than 29.536 shares of the common stock (respectively, the **maximum conversion rate** and **minimum conversion rate**) (and, correspondingly, the conversion rate for each depositary share will not be more than 0.9009 shares of the common stock and not less than 0.7384 shares of the common stock).

The following table illustrates the conversion rate per share of the mandatory convertible preferred stock, subject to adjustment as described in the depositary shares preliminary prospectus supplement, based on the applicable market value of the common stock on the mandatory conversion date:

Applicable Market Value on the Mandatory Conversion Date	Conversion Rate per Share of Mandatory Convertible Preferred Stock
Less than or equal to \$27.75	36.036 shares of common stock

Greater than \$27.75 and less than
\$33.857

\$1,000, divided by the applicable
market value

Equal to or greater than the
threshold appreciation price, or
\$33.857

29.536 shares of common stock

If the applicable market value of the common stock exceeds the threshold appreciation price, the value of the common stock received by the holder of a depositary share upon conversion will be approximately 81.96% of the value of the common stock that could be purchased with \$25 in the concurrent common stock offering.

The following table illustrates the conversion rate per depositary share, subject to adjustment as described in the depositary shares preliminary prospectus supplement, based on the applicable market value of the common stock on the mandatory conversion date:

Applicable Market Value on the Mandatory Conversion Date	Conversion Rate per Depositary Share
Less than or equal to \$27.75	0.9009 shares of common stock
Greater than \$27.75 and less than \$33.857	\$25, <i>divided by</i> the applicable market value
Equal to or greater than the threshold appreciation price, or \$33.857	0.7384 shares of common stock

Optional conversion:

At any time prior to March 15, 2013, other than during the fundamental change conversion period, a holder of mandatory convertible preferred stock may elect to convert such holder's shares of mandatory convertible preferred stock at the minimum conversion rate of 29.536 shares of the common stock per share of mandatory convertible preferred stock (equivalent to 0.7384 shares of the common stock per depositary share), subject to adjustment as described in the depositary shares preliminary prospectus supplement. Because each depositary share represents a 1/40th fractional interest in a share of mandatory convertible preferred stock, a holder of depositary shares may only convert its depositary shares in lots of 40 depositary shares.

Common stock to be outstanding after the depositary shares offering and the common stock offering:

436,380,790 shares (based on the number of shares of the common stock outstanding as of February 15, 2010, and excluding, among other things, shares reserved for issuance under certain compensation plans and certain outstanding contracts, and including the 52,252,252 shares offered in the common stock offering, assuming no exercise of the underwriters' option to purchase additional shares in the common stock offering). See "Capitalization" in the depositary shares preliminary prospectus supplement.

The exact stock price and effective date may not be set forth on the table, in which case:

if the stock price is between two stock price amounts on the table or the effective date is between two dates on the table, the fundamental change conversion rate will be determined by straight-line interpolation between the fundamental change conversion rates set forth for the higher and lower stock price amounts and the two dates, as applicable, based on a 365-day year;

if the stock price is in excess of \$100.00 per share (subject to adjustment as described in the depositary shares preliminary prospectus supplement), then the fundamental change conversion rate will be the minimum conversion rate, subject to adjustment as described in the depositary shares preliminary prospectus supplement; and

if the stock price is less than \$5.00 per share (subject to adjustment as described in the depositary shares preliminary prospectus supplement) (the **minimum stock price**), then the fundamental change conversion rate will be determined (a) as if the stock price equaled the minimum stock price and (b) if the effective date is between two dates on the table, using straight-line interpolation, as described in the depositary shares preliminary prospectus supplement, subject to adjustment.

The following table sets forth the fundamental change conversion rate per depositary share based on the effective date of the fundamental change and the stock price in the fundamental change:
