Quidel Corporation
Notes to Consolidated Financial Statements
(Unaudited)

Note 1. Basis of Presentation

The accompanying unaudited consolidated financial statements of Quidel Corporation and its subsidiaries (the Company) have been prepared in accordance with generally accepted accounting principles in the U.S. for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the U.S. for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation (consisting of normal recurring accruals) have been included. The information at March 31, 2010, and for the three months ended March 31, 2010 and 2009, is unaudited. Operating results for the three months ended March 31, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010. For further information, refer to the consolidated financial statements and footnotes thereto for the year ended December 31, 2009 included in the Company's 2009 Annual Report on Form 10-K. Subsequent events have been evaluated up to and including the date these financial statements were issued.

For 2010 and 2009, the Company's fiscal year will or has ended on January 2, 2011 and January 3, 2010, respectively. For 2010 and 2009, the Company's first quarter ended on April 4, 2010 and March 29, 2009, respectively. For ease of reference, the calendar quarter end dates are used herein. The three month periods ended March 31, 2010 and 2009 both included 13 weeks.

Note 2. Acquisition

On February 19, 2010, the Company acquired Diagnostic Hybrids, Inc. (DHI) a privately-held, *in vitro* diagnostics (IVD) company, based in Athens, Ohio, that is a market leader in the manufacturing and commercialization of FDA-cleared direct fluorescent IVD assays used in hospital and reference laboratories for a variety of diseases, including viral respiratory infections, herpes, Chlamydia and other viral infections, and thyroid diseases. DHI's direct sales force serves over 700 North American customers, and its products are sold via distributors outside the United States. DHI's products are offered under various brand names including, among others, ELVIS, R-Mix, Mixed Fresh Cells, FreshCells, ReadyCells and Thyretain. The Company paid approximately \$131.2 million in cash to acquire DHI. The Company paid for the acquisition of DHI using cash and cash equivalents on hand and borrowing \$75.0 million under the Senior Credit Facility (as defined below). Included in the consolidated statements of operations for the three months ended March 31, 2010 is revenue and net income of \$4.7 million and \$22,000, respectively, related to the operations of DHI since acquisition. Net income of \$22,000 includes the amortization of acquired intangibles and interest expense on the borrowing under the Company's Senior Credit Facility.

The purchase price of DHI is allocated to the underlying net assets acquired and liabilities assumed based on their respective fair values as of February 19, 2010 with any excess purchase price allocated to goodwill. The Company's preliminary allocation of the purchase price to the net tangible and intangible assets acquired and liabilities assumed as of the February 19, 2010 acquisition date was as follows:

(in thousands)

Total cash consideration	\$ 131,212
Allocated to:	
Current assets	26,934
Property, plant and equipment	7,799
Other non-current assets	82
In-process research and development	2,110
Intangible assets	53,410
Current liabilities (excluding current portion of note payable)	(4,172)

Note payable to state agency	(1,882)
Other non-current liabilities	(17,534)
Goodwill	64,465
Net assets acquired	\$ 131,212

Table of Contents

Quidel Corporation
Notes to Consolidated Financial Statements (Continued)
(Unaudited)

Note 2. Acquisition (Continued)

Included in the goodwill amount is \$16.8 million related to deferred tax liabilities recorded as a result of the inability to deduct intangible amortization expense associated with the acquisition of DHI. The Company's cost basis in the intangible assets is zero requiring an adjustment to the deferred tax liability to properly capture the Company's ongoing tax rate. The remainder of the goodwill balance reflects the complementary strategic fit that the acquisition of DHI brought to the Company.

The following table presents the preliminary results of the amounts assigned to the identifiable intangible assets acquired. The amount of intangible assets is subject to change and may result in a change to the fair value assigned to the intangible assets acquired and the related amortization periods as the review and evaluation is finalized. Intangible assets (except for in-process research and development) are amortized on a straight-line basis over the weighted-average amortization periods noted below for each type. In-process research and development is not amortized, but assessed at least annually for impairment, or more frequently when events or changes in circumstances indicate that the asset might be impaired.

(in thousands)	Fair value	Weighted-average amortization period (years)
Customer relationships	\$ 5,450	8.0
Purchased technology	46,570	9.0
Patents and trademarks	1,390	15.0
In-process research and development	2,110	N/A
Total	\$ 55,520	

The following unaudited pro forma financial information shows the combined results of operations of the Company, including DHI, as if the acquisition had occurred as of the beginning of the periods presented. The unaudited pro forma financial information is not intended to represent or be indicative of the Company's consolidated financial results of operations that would have been reported had the acquisition been completed as of the beginning of the periods presented and should not be taken as indicative of the Company's future consolidated results of operations.

(in thousands, except per share data)	2010	2009
Pro forma total revenues	\$ 34,084	\$ 27,449
Pro forma net loss	\$ (5,235)	\$ (2,339)
Pro forma basic and diluted net loss per share(1)	\$ (0.18)	\$ (0.08)

(1) Included in the
pro forma \$0.18

net loss per
share for the
three months
ended
March 31, 2010
is \$5.3 million
of transactional
expenses
relating to the
acquisition of
DHI, which
contributed
\$0.11 to the pro
forma net loss
per share.

Note 3. Comprehensive Loss

Net loss is equal to comprehensive loss for the three months ended March 31, 2010 and 2009, respectively.

Note 4. Computation of Loss Per Share

Basic loss per share was computed by dividing net loss by the weighted-average number of common shares outstanding, including vested restricted stock awards, during the period. Diluted earnings per share reflects the potential dilution that would occur if net earnings were divided by the weighted-average number of common shares and potentially dilutive common shares from outstanding stock options as well as unvested, time-based restricted stock awards. Potentially

Table of Contents

Quidel Corporation
Notes to Consolidated Financial Statements (Continued)
(Unaudited)

Note 4. Computation of Loss Per Share (Continued)

dilutive common shares were calculated using the treasury stock method and represent incremental shares issuable upon exercise of the Company's outstanding stock options and unvested, time-based restricted stock awards. The Company has awarded restricted stock with both time-based as well as performance-based vesting provisions. Stock awards based on only performance conditions are not included in the calculation of basic or diluted earnings per share until the performance criteria are met. For periods in which the Company incurs losses, potentially dilutive shares are not considered in the calculation of net loss per share, as their impact would be anti-dilutive. For periods in which the Company has earnings, out-of-the-money stock options (*i.e.*, the average stock price during the period is below the exercise price of the stock option) are not included in diluted earnings per share as their effect is anti-dilutive.

The following table reconciles the weighted-average shares used in computing basic and diluted loss per share in the respective periods (in thousands; unaudited):

	Three months ended March 31,	
	2010	2009
Shares used in basic loss per share (weighted-average common shares outstanding)	28,505	31,053
Effect of dilutive stock options and restricted stock awards		
Shares used in diluted loss per share calculation	28,505	31,053

Note 5. Inventories

Inventories are recorded at the lower of cost (first-in, first-out) or market and consist of the following (in thousands):

	March 31, 2010	December 31, 2009
Raw materials	\$ 7,866	\$ 5,307
Work-in-process (materials, labor and overhead)	5,052	3,711
Finished goods (materials, labor and overhead)	7,602	6,020
	\$ 20,520	\$ 15,038

Note 6. Other Current Liabilities

Other current liabilities consisted of the following (in thousands):

	March 31, 2010	December 31, 2009
Volume discounts	\$ 3,682	\$ 4,824
Stock repurchases not settled as of December 31, 2009		1,234
Accrued liability for technology license	761	
Accrued professional fees	370	345
Current portion of note payable to state agency	207	
Accrued interest on line of credit	151	

Other	999	824
	\$ 6,170	\$ 7,227

Table of Contents

Quidel Corporation
Notes to Consolidated Financial Statements (Continued)
(Unaudited)

Note 7. Income Taxes

The Company's effective tax rate for the three months ended March 31, 2010 and 2009 was 37.8% and 39.0%, respectively. The Company recognized a tax benefit of \$1.5 million and \$1.8 million for the three months ended March 31, 2010 and 2009, respectively. For the three months ended March 31, 2010, the income tax benefit includes a \$0.3 million charge related to the re-valuation of the Company's deferred tax assets due to a change in the statutory state tax rate. For the year ended December 31, 2010, the annual effective tax rate is expected to be 47%, which is impacted by; the deferred tax asset re-valuation discussed above; certain acquisition related non-deductible transaction costs; and the exclusion of the federal research and development tax credit.

The Company is subject to periodic audits by domestic and foreign tax authorities. The Company's federal tax years for 1995 and forward are subject to examination by the U.S. authorities due to the carry forward of unutilized net operating losses and research and development credits.

With few exceptions, the Company's tax years for 1999 and forward are subject to examination by state and foreign tax authorities. The Company believes it has appropriate support for the income tax positions taken on its tax returns and that its accruals for tax liabilities are adequate for all open years based on an assessment of many factors, including past experience and interpretations of tax law applied to the facts of each matter.

Note 8. Line of Credit

The Company currently has a \$120.0 million senior secured syndicated credit facility (the "Senior Credit Facility"), which matures on October 8, 2013. The Senior Credit Facility bears interest at a rate ranging from 0.50% to 1.75% plus the lender's prime rate or, at the Company's option, a rate ranging from 1.50% to 2.75% plus the London InterBank Offering Rate. The agreement governing the Senior Credit Facility is subject to certain customary limitations, including among others: limitation on liens; limitation on mergers, consolidations and sales of assets; limitation on debt; limitation on dividends, stock redemptions and the redemption and/or prepayment of other debt; limitation on investments (including loans and advances) and acquisitions; limitation on transactions with affiliates; and limitation on annual capital expenditures. The Company is also subject to financial covenants which include a funded debt to earnings before, among others, interest, taxes, depreciation and amortization (adjusted EBITDA, as defined in the Senior Credit Facility) ratio, and an interest coverage ratio. The Senior Credit Facility is secured by substantially all present and future assets and properties of the Company. As of March 31, 2010, the Company had \$45.0 million available under the Senior Credit Facility, which can fluctuate from time to time due to, among other factors, the Company's funded debt to adjusted EBITDA ratio. At March 31, 2010, the Company had \$75.0 million outstanding under the Senior Credit Facility which was borrowed in connection with the acquisition of DHI. At March 31, 2010, the Company was in compliance with all covenants.

During the first quarter of 2010, the Senior Credit Facility was amended for various matters, including amending the credit and security agreement to (i) permit the acquisition of all capital stock of DHI, (ii) allow certain indebtedness and liens related to the DHI acquisition to remain outstanding after the close of the acquisition and (iii) to amend the Senior Credit Facility to increase the aggregate amount of permitted stock repurchases thereunder.

Note 9. Stockholders' Equity

During the three months ended March 31, 2010, 161,903 shares of restricted stock were awarded, 79,559 shares of restricted stock were cancelled, 101,934 shares of common stock were issued due to the exercise of stock options and 12,530 shares of common stock were issued in connection with the Company's employee stock purchase plan (the "ESPP"), resulting in net proceeds to the Company of approximately \$0.8 million. Additionally, during the three months ended March 31, 2010, 340,977 shares of outstanding common stock were repurchased for approximately \$4.7 million, which primarily included shares repurchased under the Company's previously announced share repurchase program, but also included 27,677 shares repurchased in connection with payment of minimum tax withholding obligations for certain employees relating to the lapse of restrictions on certain restricted stock awards during the three months ended March 31, 2010.

Table of Contents

Quidel Corporation
Notes to Consolidated Financial Statements (Continued)
(Unaudited)

Note 10. Stock-Based Compensation

The compensation expense related to the Company's stock-based compensation plans included in the accompanying Consolidated Statements of Operations for the three months ended March 31, 2010 and 2009 was as follows (in millions):

	Three months ended March 31,	
	2010	2009
Cost of sales	\$ 0.1	\$ 0.1
Research and development	0.2	0.1
Sales and marketing	0.1	0.1
General and administrative	0.8	0.7
Restructuring charges		(0.2)
	\$ 1.2	\$ 0.8

Total compensation expense recognized for the three months ended March 31, 2010 and 2009 includes \$0.9 million and \$0.6 million related to stock options and \$0.3 million and \$0.2 million related to restricted stock, respectively. As of March 31, 2010, total unrecognized compensation expense related to nonvested stock options was \$6.8 million, which is expected to be recognized over a weighted-average period of approximately 2.9 years. As of March 31, 2010, total unrecognized compensation expense related to nonvested restricted stock was \$2.6 million, which is expected to be recognized over a weighted-average period of approximately 3.1 years. Compensation expense capitalized to inventory and compensation expense related to the Company's ESPP were not material for the three months ended March 31, 2010 and 2009.

The estimated fair value of each stock option award was determined on the date of grant using the Black-Scholes option valuation model with the following weighted-average assumptions for the option grants.

	Three months ended March 31,	
	2010	2009
Expected option life (in years)	4.89	4.57
Volatility rate	0.52	0.51
Risk-free interest rate	2.42%	1.76%
Forfeiture rate	15.5%	15.5%
Dividend rate	0%	0%

The weighted-average grant date fair value of stock options granted during the three months ended March 31, 2010 and 2009 was \$6.99 and \$5.34, respectively. The grant date fair value of restricted stock is determined based on the closing market price of the Company's common stock on the grant date.

Note 11. Industry and Geographic Information

The Company operates in one reportable segment. Sales to customers outside the U.S. represented \$6.9 million (24%) and \$3.0 million (18%) of total revenue for the three months ended March 31, 2010 and 2009, respectively. As of March 31, 2010 and December 31, 2009, balances due from foreign customers were \$3.2 million and \$7.2 million, respectively.

Table of Contents

Quidel Corporation
Notes to Consolidated Financial Statements (Continued)
(Unaudited)

Note 11. Industry and Geographic Information (Continued)

The Company had sales to individual customers in excess of 10% of total revenue, as follows:

	Three months ended March 31,	
	2010	2009
Customer:		
A	12%	15%
B	11%	3%
C	7%	13%
D	5%	17%
	35%	48%

As of March 31, 2010, accounts receivable from customers with balances due in excess of 10% of total accounts receivable totaled \$3.0 million while, at December 31, 2009, accounts receivable from customers with balances due in excess of 10% of total accounts receivable totaled \$6.8 million.

Note 12. Lease Obligation

During 1999, the Company completed a sale and leaseback transaction of its approximately 78,000 square-foot executive, administrative, manufacturing and research and development facility in San Diego. The facility was sold for \$15.0 million, of which \$3.8 million was capital contributed by the Company. The sale was an all cash transaction, netting the Company approximately \$7.0 million. The Company is a 25% limited partner in the partnership that acquired the facility. The transaction was deemed a financing transaction under the guidance in ASC Topic 840-40, Accounting for Sales of Real Estate. The assets sold remain on the books of the Company and will continue to be depreciated over the estimated useful life. The Company's lease was initially for 15 years, with options to extend the lease for up to two additional five-year periods.

In December 2009, the Company amended the terms of its lease agreement which had no significant impact on the Company's financial statements. The amended terms include a new ten-year lease term through December 2019, with options to extend the lease for up to three additional five-year periods. The Company will amortize the lease obligation over this new term. The amount of the monthly rental payments remain the same under the amendment. In addition, the Company has the option to purchase the general partner's interest in the partnership in January 2015 for a fixed price. The Company has determined that the partnership is a variable interest entity (VIE). The Company is not, however, the primary beneficiary of the VIE as it does not absorb the majority of the partnership's expected losses or receive a majority of the partnership's residual returns. The Company made lease payments to the partnership in connection with the San Diego facility of approximately \$0.3 million and \$0.4 million for the three months ended March 31, 2010 and 2009, respectively.

Note 13. Fair Value Measurement

The Company's valuation techniques are based on observable and unobservable inputs. Observable inputs reflect readily obtainable data from independent sources, while unobservable inputs are generally developed internally, utilizing management's estimates, assumptions and specific knowledge of the assets/liabilities and related market assumptions. The fair value of our cash equivalents are determined based on Level 1 inputs, which consist of quoted prices in active markets for identical assets.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

In this quarterly report, all references to we, our and us refer to Quidel Corporation and its subsidiaries.

Future Uncertainties and Forward-Looking Statements

This Report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws that involve material risks, assumptions and uncertainties. Many possible events or factors could affect our future financial results and performance, such that our actual results and performance may differ materially from those that may be described or implied in the forward-looking statements. As such, no forward-looking statement can be guaranteed. Differences in actual results and performance may arise as a result of a number of factors including, without limitation, seasonality, the timing of onset, length and severity of cold and flu seasons, the level of success in executing on our strategic initiatives, our reliance on sales of our influenza diagnostic tests, uncertainty surrounding the detection of novel influenza viruses involving human specimens, our ability to develop new products and technology, adverse changes in the competitive and economic conditions in domestic and international markets, our reliance on and actions of our major distributors, technological changes and uncertainty with research and technology development, including any future molecular-based technology, the medical reimbursement system currently in place and future changes to that system, manufacturing and production delays or difficulties, adverse regulatory actions or delays in product reviews by the U.S. Food and Drug Administration (the FDA), compliance with FDA and environmental regulations, our ability to meet unexpected increases in demand for our products, our ability to execute our growth strategy, including the integration of new companies or technologies, disruptions in the global capital and credit markets, our ability to hire key personnel; intellectual property, product liability, environmental or other litigation, potential required patent license fee payments not currently reflected in our costs, potential inadequacy of booked reserves and possible impairment of goodwill, and lower than anticipated acceptance, sales or market penetration of our new products. Forward-looking statements typically are identified by the use of terms such as may, will, should, might, expect, anticipate, estimate and similar words, although some forward-looking statements are expressed differently. Forward-looking statements in this Quarterly Report include, among others, statements concerning: our outlook for the fiscal year, including projections about our revenue, gross margins and expenses, projected capital expenditures for the fiscal year and our source of funds for such expenditures; the sufficiency of our liquidity and capital resources; the expected outcome of legal proceedings we are involved in; our levels of future warranty expenses, research and development expenses and sales and marketing activities; the future impact of deferred tax assets or liabilities; the expected vesting periods of unrecognized compensation expense; and our intention to continue to evaluate technology and Company acquisition opportunities. The risks described under Risk Factors in Item 1A of this Report on Form 10-Q and our Annual Report on Form 10-K for the year ended December 31, 2009, and elsewhere herein and in reports and registration statements that we file with the Securities and Exchange Commission (the SEC) from time to time, should be carefully considered. You are cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis only as of the date of this Quarterly Report. The following should be read in conjunction with the Consolidated Financial Statements and notes thereto beginning on page 3 of this Quarterly Report. We undertake no obligation to publicly release the results of any revision or update of these forward-looking statements, except as required by law.

Overview

We have a leadership position in the development, manufacturing and marketing of rapid diagnostic testing solutions. These diagnostic testing solutions primarily include applications in infectious diseases, women's health and gastrointestinal diseases. We sell our products directly to end users and distributors, in each case, for professional use in physician offices, hospitals, clinical laboratories, reference laboratories, leading universities, retail clinics and wellness screening centers. We market our products in the U.S. through a network of national and regional distributors, and a direct sales force. Internationally, we sell and market primarily in Japan, Europe and the Middle East through distributor arrangements.

Recent Developments

On February 19, 2010, we acquired Diagnostic Hybrids, Inc. (DHI) a privately-held, *in vitro* diagnostics (IVD) company, based in Athens, Ohio, that is a market leader in the manufacturing and commercialization of FDA-cleared direct fluorescent IVD assays used in hospital and reference laboratories for a variety of diseases, including viral

respiratory infections, herpes, Chlamydia and other viral infections, and thyroid diseases. DHI's direct sales force serves over 700 North American customers, and its products are sold via distributors outside the United States. Their products are offered under various brand names including, among others, ELVIS®, R-Mix, Mixed Fresh Cells, FreshCells, ReadyCells and Thyretain. We paid approximately \$131.2 million in cash to acquire DHI. We paid for the acquisition of DHI using cash and cash equivalents on hand and borrowing \$75.0 million under our Senior Credit Facility (as defined below).

Table of Contents**Outlook**

We do not plan for or expect the influenza pandemic of 2009 to recur in 2010. Accordingly, we expect a significant decrease in our influenza test sales, related earnings and cash flows during 2010. Additionally, we anticipate gross margins will trend lower for the remainder of the year as a result of the product mix shift from 2009's high level of influenza sales. Nonetheless, the acquisition of DHI builds upon and diversifies our revenue base and we expect the acquisition to lessen the effect of seasonality on our business quarter to quarter. We will continue our focus on prudently managing our business and delivering solid financial results while at the same time continuing to introduce new products to the market and maintaining our emphasis on research and development investments for longer term growth. Finally, we will continue to evaluate opportunities to acquire new product lines and technologies, as well as, company acquisitions.

Results of Operations**Three months ended March 31, 2010 compared to the three months ended March 31, 2009****Total Revenues**

During the first quarter of 2010, in connection with the acquisition of DHI, we changed our disease state classifications within our one reportable segment to better reflect current business activities and taking into account the products sold by DHI. The information for all prior periods presented has been restated to conform to the current presentation. The following table compares total revenues for the three months ended March 31, 2010 and 2009 (in thousands, except percentages):

	For the three months ended March 31,		Increase (Decrease)	
	2010	2009	\$	%
Infectious disease net product sales	\$ 17,392	\$ 7,817	\$ 9,575	122%
Women's health net product sales	7,637	5,770	1,867	32%
Gastrointestinal disease net product sales	1,061	848	213	25%
Other net product sales	1,891	2,183	(292)	(13)%
Royalty, license fees and grant revenue	398	272	126	46%
Total revenues	\$ 28,379	\$ 16,890	\$ 11,489	68%

The increase in total revenues was primarily due to an increase in sales as a result of the acquisition of DHI which contributed \$4.7 million; \$3.9 million in infectious disease, \$0.5 million in women's health, \$0.2 million in gastrointestinal disease and \$0.1 million in grant revenue. We also experienced an increase in sales of our influenza products compared to the first quarter of 2009, although the 2008/2009 and 2009/2010 influenza seasons were both mild first quarter periods compared to previous seasons. In addition, contributing to the increase in total revenues is an increase in our core non-seasonal products as a result of inventory levels normalizing at our distributors during 2009. In the first quarter of 2010, sales of our core non-seasonal products more closely matched distributor sales to our end-use customers.

The revenue from our royalty, license fees and grant revenue category for all periods primarily relate to royalty payments earned on our patented technologies utilized by third parties.

Cost of Sales

Cost of sales increased 59% to \$13.4 million, or 47% of total revenues for the three months ended March 31, 2010, compared to \$8.4 million, or 50% of total revenues for the three months ended March 31, 2009. The absolute dollar increase in cost of sales is primarily related to the variable nature of direct costs (material and labor) associated with the 68% increase in total revenues. The decrease in cost of sales as a percentage of total revenue was primarily related to a more favorable product mix, partially offset by the amortization of an inventory fair value adjustment associated with the acquisition of DHI.

Table of Contents**Operating Expenses**

The following table compares operating expenses for the three months ended March 31, 2010 and 2009 (in thousands, except percentages):

	For the three months ended March 31,		2009		Increase (Decrease)	
	2010	As a % of	2009	As a % of		
	Operating expenses	total revenues	Operating expenses	total revenues	\$	%
Research and development	\$ 6,275	22%	\$ 2,896	17%	\$ 3,379	117%
Sales and marketing	5,999	21%	4,735	28%	1,264	27%
General and administrative	4,241	15%	4,120	24%	121	3%
Amortization of intangible assets from acquired businesses	652	2%			652	N/A
Amortization of intangible assets from licensed technology	324	1%	348	2%	(24)	(7)%
Business acquisition and integration costs, and restructuring charges	1,350	5%	953	6%	397	42%

Research and Development Expense

Research and development expense increased \$1.3 million as a result of the acquisition of DHI. In addition, increases in costs for clinical studies and costs associated with the development of potential new technologies and with products under development.

Sales and Marketing Expense

Sales and marketing expense increased \$0.5 million as a result of the acquisition of DHI. In addition, increases in employee compensation and incentive compensation and higher sales commissions and product shipment costs associated with a higher sales volume for 2010 compared to 2009. Other key components of this expense relate to continued investment in assessing future product extensions and enhancements and market research.

General and Administrative Expense

The increase in general and administrative expense is primarily related to an increase of \$0.3 million from the acquisition of DHI and an increase in employee incentive compensation as a result of retaining key DHI personnel. These increases in general and administrative expenses are partially offset by a decrease in transition costs incurred in the first quarter of 2009 relating to the hiring of our new Chief Executive Officer.

Amortization of Intangible Assets from Acquired Businesses

Amortization of intangible assets from acquired businesses consists of customer relationships, purchased technology and patents and trademarks acquired in connection with the acquisition of DHI.

Amortization of Intangible Assets from Licensed Technology

Amortization of intangible assets from licensed technology consists primarily of expense associated with purchased technology.

Business Acquisition and Integration Costs, and Restructuring Charges

We incurred \$1.4 million in expenses in the first quarter of 2010 relating to the acquisition and integration of DHI. The expenses primarily related to professional fees. We recorded a restructuring charge of \$1.0 million in the first quarter of 2009, primarily comprised of severance costs, which was net of a \$0.2 million stock-based compensation expense reversal for certain terminated employees.

Table of Contents

Other Income (Expense)

The increase in interest income is primarily related to an increase in the average interest rate, partially offset by a decrease in our average cash balance during the three months ended March 31, 2010 as compared to the three months ended March 31, 2009. Interest expense primarily relates to interest paid on borrowings under the Senior Credit Facility and interest paid on our lease obligation associated with our San Diego facility.

Income Taxes

The effective tax rate for the three months ended March 31, 2010 and 2009 was 37.8% and 39.0%, respectively. We recognized a tax benefit of \$1.5 million and \$1.8 million for the three months ended March 31, 2010 and 2009, respectively. For the three months ended March 31, 2010, the income tax benefit includes a \$0.3 million charge related to the re-valuation of our deferred tax assets due to a change in the statutory state tax rate. For the year ended December 31, 2010, the annual effective tax rate is expected to be 47%, which is impacted by; the deferred tax asset re-valuation discussed above; certain acquisition related non-deductible transaction costs; and the exclusion of the federal research and development tax credit.

Liquidity and Capital Resources

As of March 31, 2010, our principal sources of liquidity consisted of \$20.3 million in cash and cash equivalents, as well as \$45.0 million available to us under our senior secured syndicated credit facility (the Senior Credit Facility), which can fluctuate from time to time due to, among other factors, our funded debt to adjusted EBITDA ratio. Our working capital as of March 31, 2010 was \$56.9 million.

Cash used for our operating activities was \$14.0 million during the three months ended March 31, 2010. We had a net loss of \$2.5 million, including non-cash charges of \$2.2 million of depreciation and amortization of intangible assets and property and equipment. Other changes in operating assets and liabilities included a decrease in income taxes payable of \$6.2 million relating to tax payments made during the first quarter of 2010 as a result of higher taxable earnings in 2009. In addition, decreases in accounts payable and accrued royalties of \$2.5 million and \$3.4 million, respectively, due to the decrease in revenue during the first quarter of 2010.

Our investing activities used \$125.5 million during the three months ended March 31, 2010 primarily related to the purchase of DHI. In addition, we used approximately \$1.0 million for the acquisition of production and scientific equipment and building improvements. These uses of cash were partially offset by proceeds of \$4.0 million related to the sale of our marketable securities in the first quarter of 2010.

We are planning approximately \$6.0 million in capital expenditures for the remainder of 2010. The primary purpose for our capital expenditures is to acquire manufacturing equipment, implement facility improvements, and for information technology. We plan to fund these capital expenditures with cash flow from operations. We have \$0.9 million in firm purchase commitments with respect to such planned capital expenditures as of the date of filing this report.

Our financing activities generated approximately \$70.8 million of cash during the three months ended March 31, 2010. This was primarily related to the borrowing of \$75.0 million under the Senior Credit Facility in connection with the acquisition of DHI, which was partially offset by the repurchase of 340,977 shares of our common stock at a cost of approximately \$4.7 million.

Our \$120.0 million Senior Credit Facility matures on October 8, 2013. The Senior Credit Facility bears interest at a rate ranging from 0.50% to 1.75% plus the lender's prime rate or, at our option, a rate ranging from 1.50% to 2.75% plus the London InterBank Offering Rate. The agreement governing the Senior Credit Facility is subject to certain customary limitations, including among others: limitation on liens; limitation on mergers, consolidations and sales of assets; limitation on debt; limitation on dividends, stock redemptions and the redemption and/or prepayment of other debt; limitation on investments (including loans and advances) and acquisitions; limitation on transactions with affiliates; and limitation on annual capital expenditures. The terms of the Senior Credit Facility require us to comply with certain financial covenants which include a funded debt to earnings before, among others, interest, taxes, depreciation and amortization (adjusted EBITDA, as defined in the Senior Credit Facility) ratio, and an interest coverage ratio. The Senior Credit Facility is secured by substantially all present and future assets and properties of the Company. As of March 31, 2010, we had \$45.0 million available under the Senior Credit Facility. At March 31, 2010, we had \$75.0 million outstanding under the Senior Credit Facility which was borrowed in connection with the

acquisition of DHI. At March 31, 2010, we were in compliance with all covenants.

Table of Contents

During the first quarter of 2010, the Senior Credit Facility was amended for various matters, including amending the credit and security agreement to (i) permit the acquisition of all capital stock of DHI, (ii) allow certain indebtedness and liens related to the DHI acquisition to remain outstanding after the close of the acquisition and (iii) to amend the Senior Credit Facility to increase the aggregate amount of permitted stock repurchases thereunder.

We also intend to continue to evaluate acquisition and technology licensing candidates. As such, we may need to incur additional debt, or issue additional equity, to successfully complete these transactions. Cash requirements fluctuate as a result of numerous factors, such as the extent to which we generate cash from operations, progress in research and development projects, competition and technological developments and the time and expenditures required to obtain governmental approval of our products. Based on our current cash position and the current assessment of future operating results, we believe that our existing sources of liquidity will be adequate to meet operating needs during the next 12 months and the foreseeable future.

Off-Balance Sheet Arrangements

At March 31, 2010, we did not have any other relationships with unconsolidated entities or financial partners, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As such, we are not materially exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in such relationships.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the U.S. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to customer programs and incentives, bad debts, inventories, intangible assets, income taxes, stock-based compensation, restructuring and contingencies and litigation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

There have been no significant changes in critical accounting policies or management estimates since the year ended December 31, 2009. A comprehensive discussion of our critical accounting policies and management estimates is included in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2009.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk*Interest Rate Risk*

The fair market value of our floating interest rate debt is subject to interest rate risk. Generally, the fair market value of floating interest rate debt will vary as interest rates increase or decrease. We had \$75.0 million outstanding under our Senior Credit Facility at March 31, 2010. The weighted average interest rate on these borrowings is currently 1.84%. A hypothetical 100 basis point adverse move in interest rates along the entire interest rate yield curve would increase our annual interest expense by approximately \$750,000. Based on our market risk sensitive instruments outstanding at March 31, 2010 and 2009, we have determined that there was no material market risk exposure to our consolidated financial position, results of operations or cash flows as of such dates.

Our current investment policy with respect to our cash and cash equivalents focuses on maintaining acceptable levels of interest rate risk and liquidity. Although we continually evaluate our placement of investments, as of March 31, 2010, our cash and cash equivalents were placed in money market or overnight funds that are highly liquid and which we believe are not subject to material market fluctuation risk.

Table of Contents

Foreign Currency Exchange Risk

All of our international sales are negotiated for and paid in U.S. dollars. Nonetheless, these sales are subject to currency risks, since changes in the values of foreign currencies relative to the value of the U.S. dollar can render our products comparatively more expensive. These exchange rate fluctuations could negatively impact international sales of our products, as could changes in the general economic conditions in those markets. Continued change in the values of the Euro, the Japanese Yen and other foreign currencies could have a negative impact on our business, financial condition and results of operations. We do not currently hedge against exchange rate fluctuations, which means that we are fully exposed to exchange rate changes.

ITEM 4. Controls and Procedures

Evaluation of disclosure controls and procedures: We have performed an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of our disclosure controls and procedures, as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the Exchange Act). Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of March 31, 2010 to provide reasonable assurance that information required to be disclosed by us in the reports filed or submitted by us under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC 's rules and forms.

Changes in internal control over financial reporting: There was no change in our internal control over financial reporting during the three months ended March 31, 2010 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****ITEM 1. Legal Proceedings**

None.

ITEM 1A. Risk Factors

There has been no material change in our risk factors as previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009. For a detailed description of our risk factors, refer to Item 1A, Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2009.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

The table below sets forth information regarding repurchases of our common stock by us during the three months ended March 31, 2010:

Period		Total number of shares purchased(1)	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under the plans or programs(2)
January 1	January 31, 2010	253,300	\$ 13.72	253,300	\$ 15,624,000
February 1	February 28, 2010	60,000	13.53	60,000	14,812,000
March 1	March 31, 2010	27,677	14.15		14,812,000
Total		340,977	\$ 13.72	313,300	\$ 14,812,000

(1) In addition to our share repurchase program, we repurchased 27,677 shares of common stock in connection with payment of minimum tax withholding obligations relating to the lapse of restrictions on certain restricted stock awards during the three months ended

March 31, 2010.

- (2) From June 2005 to December 2009 our Board of Directors authorized us to repurchase up to \$100.0 million in shares of our common stock under a stock repurchase program under four separate authorizations of \$25.0 million each. Any shares of common stock repurchased under this program will no longer be deemed outstanding upon repurchase and will be returned to the pool of authorized shares. This repurchase program will expire on December 2, 2011 unless extended by our Board of Directors.
