**CGGVeritas Announces First Quarter 2010 Results**  
**Group Operating Margin at 5%**  
**Market Progressively Strengthening on Increasing Demand**  
**First Signs of Recovery in Sercel**

**PARIS, France May 9 2010** CGGVeritas (ISIN: 0000120164 NYSE: CGV) announced today its non-audited first quarter 2010 consolidated results. All comparisons are made on a year-on-year basis unless stated otherwise. All 2009 results are reported before restructuring and impairment.

**Services results reflect lower priced backlog, Sercel results strengthening**

Group revenue was \$696m, down 18% year-on-year and 7% sequentially as a seasonal decline in multi-client sales masked robust Sercel sales and the noticeable increase in revenue from other Services segments this quarter

Group operating margin was 5%, with sequentially stronger Sercel performance, above 22% operating margin, and increased margins across all Services activities offset by the lower contribution from multi-client sales

Net income was \$1m

Net debt to equity ratio maintained at 35%

Backlog as of April 1<sup>st</sup> was relatively stable at \$1.5 billion, strengthening at Sercel

**First Quarter 2010 key figures**

**Table of Contents****CGGVeritas Chairman & CEO, Robert Brunck commented:**

*As anticipated, our results in general reflected the weakened commercial conditions that prevailed in the second half of 2009. Sequentially, Services performance was relatively stable as lower multi-client sales were compensated by improved fleet utilization, strong activity in land and a sustained high-level of interest for our advanced processing and imaging technologies. Sercel financial performance increased sequentially, benefiting from the early impact of increasing demand in both volume and technology intensity leading to operational margins strengthening from 18% to 22%.*

*Looking forward, we anticipate the typical second quarter seasonality with increased vessel transits and demobilization of our Arctic crews. There is also growing confirmation that increasing levels of exploration and production spending will drive a progressive recovery of the seismic market in 2010. We expect improving market conditions to continue to first impact Sercel, while in marine, prices will only strengthen when the growth in demand balances new capacity entering the market, which is expected later in the year.*

*In this context, our objectives remain focused on reinforcing our technology portfolio in the high-end market, improving our operational performance, managing our costs and generating healthy free cash flow.*

**First Quarter 2010 Financial Results****Group Revenue**

Group Revenue was down 18% in \$ and 23% in year-on-year, reflecting the lower priced backlog secured in the second half of 2009. Group Revenue was down 7% sequentially in \$.

**Table of Contents****Sercel**

Year-on-year, revenue was up 10% in \$ and 3% in . Sequentially, revenue was up 3% in \$ and operating margin increased 4 points to 22% as a result of increasing demand and take up of new and higher-end technology. As in land, recent marine system configurations are increasing in technology intensity with higher streamer counts and longer streamers per vessel.

Internal sales represented 17% of revenue.

**Services**

Year-on-year, revenue was down 26% in \$ and 30% in . Sequentially revenue was down 9% in \$ and operating income was relatively stable as increased margins across all activities were offset by a lower contribution from multi-client.

Marine contract revenue was down 46% year-on-year in \$ and 49% in . Sequentially, revenue was up 17% in \$, with both an improving vessel availability rate<sup>1</sup> of 90% and production rate<sup>2</sup> of 92%. 79% of the 3D fleet operated on contracts. Our high-end fleet refocusing plan is on track with the last of the 9 vessels planned for decommissioning to be removed by July of 2010. We are continuing to upgrade our fleet with the highly successful Nautilus streamer control and acoustic positioning system.

Land contract revenue was down 14% year-on-year in \$ and 19% in . Sequentially revenue was up 40% in \$ supported by the typical seasonal effects. We operated a total of 18 crews this quarter with continued strong demand in the Middle East, growing interest for shallow water and OBC operations, and the full impact of winter activity in N. America.

Processing & Imaging revenue was down 8% year-on-year in \$ and 13% in . Sequentially revenue was down 10% in \$. By contrast, margins strengthened reflecting the success of our unique high-end innovative imaging products. During the quarter we continued deployment of our new *geovation* platform and opened a new technology center in Brazil.

Multi-client revenue was up 22% year-on-year in \$ and 15% in , mainly driven by after sales. Sequentially, revenue was down 51% in \$ from a high level of sales in the fourth quarter of 2009. Capex was \$87 million ( 62 million). The amortization rate averaged 55%, with 77% in land and 48% in marine. Net Book Value of the library at the end of March was at \$709 million.

*Multi-client marine* revenue was sequentially down 55% in \$. Capex was at \$72 million ( 51 million). Prefunding was \$32 million ( 23 million), a rate of 44%, as some prefunding was postponed. After-sales worldwide were \$42 million ( 30 million).

*Multi-client land* revenue was sequentially down 33% in \$. Capex was at \$15 million ( 11 million). Prefunding was \$17 million ( 12 million), a rate of 115%, reflecting the strong interest in our Haynesville shale gas program. After-sales were \$10 million ( 7 million).

**Group EBITDAs** was \$176 million ( 126 million), a margin of 25%.

<sup>1</sup> The *vessel availability rate*, a metric measuring the structural availability of our vessels to meet demand; this metric is related to the entire fleet, and

corresponds to the total vessel time reduced by the sum of the standby time, the shipyard time and the steaming time (the available time ), all divided by total vessel time;

- 2 The *vessel production rate*, a metric measuring the effective utilization of the vessels once available; this metric is related to the entire fleet, and corresponds to the available time reduced by the operational downtime, all then divided by available time.

**Table of Contents**

In millions	Fourth Quarter 2009 (\$)	First Quarter 2010 (\$)	2009 (\$)	First Quarter 2010 ( )	2009 ( )
<b>Group EBITDAs</b>	<b>248</b>	<b>176</b>	<b>282</b>	<b>126</b>	<b>215</b>
<i>margin</i>	33%	25%	33%	25%	33%
Sercel EBITDAs	51	62	64	44	49
<i>margin</i>	24%	28%	32%	28%	32%
Services EBITDAs	202	137	243	98	185
<i>margin</i>	36%	27%	35%	27%	35%

**Group Operating Income** was \$37 million ( 26 million), a margin of 5% as the strengthening performance of Sercel and increased sequential performance across all Services segments was impacted by lower priced backlog in marine and lower multi-client contributions.

In millions	Fourth Quarter 2009 (\$)	First Quarter 2010 (\$)	2009 (\$)	First Quarter 2010 ( )	2009 ( )
<b>Group Operating Income</b>	<b>55</b>	<b>37</b>	<b>131</b>	<b>26</b>	<b>100</b>
<i>margin</i>	7%	5%	15%	5%	15%

<i>margin</i>	4%	3%	15%	3%	15%

**Financial Charges**

Financial charges were \$34 million ( 25 million)

**Net Income** was \$0.5 million ( 0.4 million), resulting, after the impact of minority interests of \$4 million, in a negative EPS of - 0.02 per ordinary share and -\$0.02 per ADS.

**Cash Flow****Cash Flow from Operations**

Cash flow from operations was \$151 million ( 108 million) up 23% year-on-year.

**Capex**

Global Capex was \$142 million ( 101 million) this quarter, a reduction of 19% year-on-year.

Industrial Capex was \$55 million ( 39 million)

Multi-client Capex was \$87 million ( 62 million) down 5% in \$ with a 56% prefunding rate

In million \$	Fourth Quarter 2009	First Quarter 2010	2009
Capex	116	142	175
Industrial	58	55	84
Multi-client	58	87	91

**Free Cash Flow**

After interest expenses paid during the quarter, free cash flow was \$6 million.

**Balance Sheet****Net Debt to Equity Ratio**

**Table of Contents**

The Group's gross debt was reduced \$130 million to \$1.936 billion ( 1.436 billion) at the end of March 2010. With \$593 million ( 440 million) in available cash, Group net debt was \$1.343 billion ( 996 million) and the net debt to equity ratio was stable at 35%.

\* Starting in 2010, operating income for our Services segment is presented after elimination of amortization expense corresponding to past inter-company capital expenditures between our Equipment segment and

Services segment. These eliminations were previously presented in Eliminations and Adjustments. The segment information related to our Services segment for the three months ended March 31, 2009 and for the three month ended December 31, 2009 was restated to reflect this change in our internal financial reporting.
