TELEFÓNICA GROUP

Financial Highlights

Sequential revenue growth acceleration, reflecting the success of the Company's strategy, focused on capturing the growth opportunities in its markets:

Reported revenue increased 1.7% year-on-year (-2.1% in full year 2009) to 13,932 million euros, despite the devaluation of the Venezuelan bolivar and the lower contribution of the Spanish business, reflecting the **value of the high diversification of the Group**.

In organic terms, revenue grew 0.9% year-on-year (+0.2% in full year 2009). Excluding the impact of regulatory measures, revenue growth reached 2.4%.

First quarter results are in line with the Company's expectations and allow to reiterate all the financial targets for 2010. Additionally, the Group confirms its guidance through 2012, including dividend targets.

Telefónica's commercial activity rose sharply in the quarter, setting the basis for future additional revenue growth:

The Company manages around 273 million accesses across its markets, 6.1% more than in March 2009 in organic terms, ramping up 1.0 percentage points on the year-end 2009 figure. In reported terms, the Group accesses rose 4.6% year-on-year.

Total gross adds increased by 16.9% year-on-year and the churn rate improved to reach 2.2% (-0.1 percentage points year-on-year).

Mobile net adds in the first quarter of 2010 were 2.5 times higher than in the same period of last year in organic terms, to total 4.4 million, with a growing focus on the contract segment (53% of the total net adds vs. 44% in the first quarter of 2009).

Total broadband accesses surpassed the 35 million mark, driven by robust customer growth in both retail fixed broadband (+8.7% year-on-year in organic terms; +25.2% reported) and mobile broadband (+97.5%) accesses.

The Company continued to post an outstanding profitability and a high cash flow generation profile, with a consolidated OIBDA margin of 36.7% in the first quarter of the year:

OIBDA amounted to 5,114 million euros (-3.4% year-on-year in organic terms; -4.1% year-on-year reported), reflecting the higher commercial activity and negatively impacted by regulatory measures and non-recurrent effects, which account for 2.6 percentage points of the organic year-on-year decline.

Operating cash flow (OIBDA-CapEx) totalled 3,923 million euros in the quarter (-4.3% in organic terms).

Net income reached 1,656 million euros in the first three months of the year (+2.0% year-on-year).

The ratio of Net Debt + Commitments to OIBDA stood at 2.3 times at the end of March, reflecting the Company's financial strength.

Telefónica España's commercial activity ramped up substantially year-on-year, while the gradual recovery in revenue continued, with the year-on-year decline slowing to 3.9% in comparable terms.

Telefónica Latinoamérica strengthened its position in the region, registering 3.7 million net adds in the quarter (3x year-on-year) while maintaining solid organic growth rates in revenue (+5.4%) and OIBDA (+3.4%).

Revenue growth at Telefónica Europa ramped up to reach 5.4% in organic terms and excluding regulatory effects, posting healthy growth rates in the UK and German markets, driven by the increasing contribution from the mobile internet business.

Organic growth: in financial terms, it assumes constant exchange rates as of Q1 09 (average fx), excludes changes in the consolidation perimeter and impacts from hyperinflationary accounting. In terms of accesses it excludes changes in the consolidation perimeter.

Growth ex-regulatory impacts: the impact from MTRs cuts is excluded.

Revenue growth in comparable terms in Spain: excludes the impact from the Universal Service Obligation and revenue from Telyco Morocco in 2009.
