SPDR® Gold Shares

Edgar Filing: SPDR GOLD TRUST - Form FWP

What are SPDR® Gold Shares? Launched in November 2004, SPDR® Gold Shares (ticker: GLD) was the first US listed commodity ETF. SPDR® Gold Shares was the first US listed gold ETF physically backed by gold and one of the fastest growing ETFs in history, reaching more than \$1 billion in assets in its first three trading days. SPDR Gold Shares (GLD) features a strong combination of partners: GLD is sponsored by The World Gold Trust Services LLC, a subsidiary of the World Gold Council. State Street Global Advisors helped launch the ETF industry in 1993. State Street Global Markets is the marketing agent for the SPDR Gold Trust. The Bank of New York Mellon is the trustee. HSBC Bank USA serves as custodian.

What are SPDR® Gold Shares? Each share represents a fractional, undivided interest in a trust, the primary asset of which is allocated (or secured) gold. Designed to track the price of gold, net of Trust expenses. The Trust's assets consist primarily of allocated London Good Delivery 400oz bars. Custody provided by HSBC Bank USA. The global parent of HSBC Bank USA is HSBC Holdings plc, one of the largest banking and financial services organizations in the world.

SPDR® Gold Shares The Leader in Gold ETFs A Leader in Assets GLD is the second largest ETF in the world, with over \$58 billion in assets* as of 12/31/2010 GLD has had net flows of \$5.8 billion in 2010 A Leader in Liquidity*** GLD is the most liquid gold ETF in terms of trading volume, trading \$1.9 billion in average daily dollar volume** * Source: www.spdrgoldshares.com as of 12/31/2010 ** Average dollar volume for the month of December 2010. Important Disclosures FOR INVESTMENT PROFESSIONAL USE ONLY. Not for use with the public. ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above and below the ETFs net asset value. Brokerage commissions and GLD expenses will reduce returns. Investing in gold, commodities or other precious metals is a speculative activity and entails risk. Prices are affected by factors such as cyclical economic conditions, political events, trading activity of speculators and arbitrageurs in the underlying commodities and monetary policies of various countries. Gold, commodities and other precious metals are also subject to governmental action for political reasons. Markets, therefore, may be volatile and there may be sharp fluctuations in process. There can be no assurance that gold will maintain its long-term value in purchasing power in the future or that gold will continue to exhibit low correlation with other asset classes. You could lose money by investing in gold. Although shares of GLD have historically been readily tradable on securities exchanges, there can be no assurance that an active trading market will be maintained. Important Information Relating to SPDR® Gold Trust: The SPDR® Gold Trust (GLD) has filed a registration statement (including a prospectus) with the Securities and Exchange Commission (SEC) for the offering to which this communication relates. Before you invest, you should read the prospectus in that registration statement and other documents GLD has filed with the SEC for more complete information about GLD and this offering. You may get these documents for free by visiting EDGAR on the SEC website at www.sec.gov or by visiting www.spdrgoldshares.com. Alternatively, the Trust or any authorized participant will arrange to send you the prospectus if you request it by calling 1-866-320-4053. GLD is not an investment company registered under the Investment Company Act of 1940 (the 1940 Act) and is not subject to regulation under the Commodity Exchange Act of 1936 (the CEA). As a result, shareholders of the Trust do not have the protections associated with ownership of shares in an investment company registered under the 1940 Act or the protections afforded by the CEA. GLD shares trade like stocks, are subject to investment risk and will fluctuate in market value. The value of GLD shares relates directly to the value of the gold held by GLD (less its expenses), and fluctuations in the price of gold could materially and adversely affect an investment in the shares. The price received upon the sale of the shares, which trade at market price, may be more or less than the value of the gold represented by them. GLD does not generate any income, and as GLD regularly sells gold to pay for its ongoing expenses, the amount of gold represented by each Share will decline over time. Investing involves risk, and you could lose money on an investment in GLD. Please see the GLD prospectus for a detailed discussion of the risks of investing in GLD shares.
