The Company's bylaws provide that the nominees who receive a plurality of the votes cast by stockholders present or represented by proxy at an Annual Meeting, and entitled to vote on the election of directors, will be elected as directors of the Company. Thus, any abstentions or broker non-votes will have no effect on the election of directors.

As indicated in the table under the heading "Election of Directors," the directors and executive officers of the Company beneficially owned more than 50% of the outstanding shares of the Company's Common Stock as of the record date and therefore collectively have the ability to control the outcome of the vote on the election of a director at the Annual Meeting.

ELECTION OF DIRECTORS

The Restated and Amended Certificate of Incorporation of the Company provides that there shall be eight directors, subject to change in accordance with the bylaws, classified into three classes, and that members of the three classes shall be elected to staggered terms of three years each. In accordance with the bylaws, the number of directors constituting the entire Board has been decreased to seven. The Board of Directors presently consists of seven persons.

The current term of office of the two Class III directors will expire at the 2001 Annual Meeting and two directors have been nominated for re-election at the meeting for a term expiring at the 2004 Annual Meeting:

Proxies may not be voted at the 2001 Annual Meeting of Stockholders for more than two nominees for election as directors. Each of the nominees has consented to serve if elected and, if elected, will serve until the 2004 Annual Meeting of Stockholders and until his successor is duly elected and qualified.

EXECUTIVE COMPENSATION

REPORT OF COMPENSATION COMMITTEE ON ANNUAL COMPENSATION

The following paragraphs constitute the report of the Compensation Committee of the Board of Directors (the "Committee") on executive compensation policies for fiscal year 2000. In accordance with Securities and Exchange Commission rules, this report shall not be deemed to be incorporated by reference into any statements or reports filed by the Company with the Commission that do not specifically incorporate this report by reference, notwithstanding the incorporation of this Proxy Statement into any such reports.

The Committee administers the compensation program for executive officers and other management level employees of the Company and makes all related decisions, except that decisions as to the grant of options are made by the Stock Option Committee.

The principal elements of the compensation program for executive officers are base salary, performance-based annual incentives and options granted under the Company's Employee Stock Option Plan (the "Option Plan"). The goals of the program are to give the executive officers incentives to work toward the improved financial performance of the Company and to reward them for their contributions to the Company's success. The program is also designed to retain the Company's key executives, each of whom plays an important role in enabling the Company to maintain its commitment to premium service to its customers and its high standards of efficiency, productivity and safety. For a summary of 2000 compensation, see the Summary Compensation Table under the heading "Executive Compensation Tables" below.

Edgar Filing: USA TRUCK INC - Form DEF 14A

Annual salaries for the Company's executive officers, including the CEO, are generally reviewed in October of each year based on a number of factors, both objective and subjective. Objective factors considered include increases in the cost of living, the Company's current performance and, to a lesser extent, the Company's overall historical performance, although no specific formulas based on such factors are used to determine salaries. Salary decisions are based primarily on the Committee's subjective analysis of the factors contributing to the Company's long-term success and of the executives' individual contributions to such success.

Cash incentives based on the Company's performance are awarded to the executive officers under an incentive compensation plan. Under this plan, a specified percentage of the Company's pre-tax profit for the year is distributed annually to the executive officers in proportion to their base salaries. Thus, whether the executive officers' total pay is comparable to the compensation of executives with similar responsibilities at comparable companies may vary from year to year depending upon the Company's performance. For 2000, pre-tax profit decreased by approximately 98.9% from 1999. Accordingly, no performance-based incentives were paid for 2000. These performance-based incentives represented approximately 63% of total salary and incentive earned by the executive officers in 1999.

During 2000, the Stock Option Committee granted incentive stock options, covering 80,000 shares, under the Employee Stock Option Plan to seven executive officers of the Company. The options covering these shares vest in three increments, and each increment will be exercisable for a period of three years after vesting. Two other executive officers currently hold incentive stock options granted to them following the completion of the Company's initial public offering in March 1992. These options will vest in ten increments, and each increment will be exercisable during a period of two years or less. Two other executive officers currently hold incentive stock options granted to them following their election as executive officers in January 1998. These options will vest in three increments, and each increment will be exercisable during a period of one year. Another executive officer currently hold incentive stock options granted to him following his election as an executive officer in January 1996. These options will vest in five increments, and each increment will be exercisable during a period of two year or less. All of these options, which were granted with exercise prices equal to the market value of the Company's Common Stock at the time of grant, will have value to the officers only to the extent that the market value of the Common Stock exceeds the exercise price at the time of exercise. Thus, the Committee believes that the extended vesting schedules and limited exercise periods of the options will encourage the optionees not only to remain with the Company but also to seek to enhance the value of the Company's stock through improvements in the Company's performance and to sustain such improvements throughout the terms of the options.

Additional elements of the executive officers' compensation, which are not performance-based, are matching contributions by the Company under the Company's 401(k) plan and life insurance premiums paid by the Company on behalf of the executives.

The CEO's salary is determined based on the factors and analysis described above. Specific factors considered by the Committee in establishing the CEO's salary include his current responsibilities with the Company, certain key performance ratios and his continuing contributions to the successful expansion of the Company's operations and its financial growth over recent periods. In order to predicate a larger portion of the compensation of the CEO on performance, and because of existing economic and market conditions, the Committee determined not to change the salary for the CEO for 2000.

COMPENSATION OF DIRECTORS

The Company pays each director who is not an employee of the Company a fee of \$1,500 per quarter plus \$500 per quarter for members of the audit committee and reimburses all directors for reasonable expenses they may incur attending Board or committee meetings.

The Company's 1997 Nonqualified Stock Option Plan for Nonemployee Directors of the Company (the "Directors' Plan") provides for the grant to directors, who are not officers or employees of the Company or its affiliates, of nontransferable, nonqualified options to purchase Common Stock. A maximum of 25,000 shares of Common Stock may be issued under the Directors' Plan, which will terminate ten years after the date of its adoption unless sooner terminated by the Board. The Directors' Plan is administered by a Committee of two or more members of the Board, a majority of which may not be nonemployee directors. The Committee has discretion to interpret the Directors' Plan and to determine the directors to whom options are granted, the date of grant of each option, the number of shares subject thereto and the nature of restrictions, if any, on such shares. The Committee determines the periods during which each option will be exercisable, provided that no option may vest less than six months or more than three years after grant or be exercisable more than five years after grant (or after certain earlier dates following termination of service). The per share exercise price of each option, which must be paid in cash, is also set by the Committee, but may not be less than the fair market value of a share of Common Stock on the date of grant.

On October 11, 2000, options were granted under the Directors' Plan to Jim L. Hanna, Roland S. Boreham, Jr. and Joe D. Powers, the three nonemployee directors of the Company and the only persons eligible to participate in the plan. Mr. Hanna, Mr. Boreham and Mr. Powers were granted options which cover 2,000, 2,000 and 6,000 shares of Common Stock, respectively at an exercise price of \$5.44 per share, which is equal to the market price of the Common Stock on the grant date. The exercise period of each such option will commence on October 11, 2003, and the expiration date of each option is October 10, 2005.

Directors who are employees of the Company are eligible to be granted options under the Company's Employee Stock Option Plan.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

REPORT OF AUDIT COMMITTEE

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. The Audit Committee's actions are governed by a written charter, a copy of which is attached hereto as Exhibit A, which has been adopted by the Board of Directors. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements in the Annual Report with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements. The Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. The Committee held three meetings during the fiscal year 2000.

14

In reliance on the reviews and discussions referred to above, and after receiving and reviewing the written disclosures and the letter from the independent accountants as required by Independent Standards Board Standard No. 1 (Independence Discussions with Audit Committees), the Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2000 for filing with the Securities and Exchange Commission. The Committee and the Board have also appointed the Company's independent auditors for the 2001 calendar year.
