PROXY STATEMENT
FOR
ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD ON MAY 13, 2002

This Proxy Statement is being mailed on or about April 12, 2002 to the stockholders of Trinity Industries, Inc. ("Trinity" or the "Company") in connection with the solicitation of proxies by the Board of Directors of the Company to be voted at the Annual Meeting of Stockholders of the Company to be held at the offices of the Company, 2525 Stemmons Freeway, Dallas, Texas, on Monday, May 13, 2002, at 9:30 a.m., Central Daylight Saving Time (the "2002 Annual Meeting"), or at any adjournment thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. Last year the Company changed its March 31 fiscal year end to a December 31 fiscal year end. As a result, this year's Annual Meeting will be held earlier in the year than in the past. The Company's mailing address is P.O. Box 568887, Dallas, Texas, 75356-8887.

The enclosed proxy may be revoked at any time before it is exercised by filing with the Company a written revocation, by executing a proxy bearing a later date or by attending the 2002 Annual Meeting and voting in person. Unless the persons named in the proxy are prevented from acting by circumstances beyond their control, the proxy will be voted at the 2002 Annual Meeting and at any adjournment thereof in the manner specified therein, or if not specified, the proxy will be voted FOR the election of the nine (9) nominees for Directors as listed below and FOR the approval of Ernst & Young as independent auditors for the fiscal year ending December 31, 2002.

The enclosed proxy is solicited by and on behalf of the Board of Directors of the Company. The expense of the solicitation of proxies for the

Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

2002 Annual Meeting, including the cost of mailing, will be borne by the Company. To the extent necessary to assure sufficient representation at the 2002 Annual Meeting, officers and regular employees of the Company, at no additional compensation, may request the return of proxies personally, by telephone, facsimile, mail, or other method. Stockholders are urged to send in their proxies without delay. The Company has retained Georgeson Shareholder Communications Inc. to assist with the solicitation of proxies for a fee of \$8,500, plus reimbursement for out-of-pocket expenses. The Company will supply brokers, nominees, fiduciaries and other custodians with proxy materials to forward to beneficial owners of shares in connection with this solicitation, and the Company will reimburse such brokers, nominees, fiduciaries and other custodians for their expenses in making such distribution. Management has no knowledge or information that any other person will specially engage any persons to solicit proxies.

The presence, in person or by proxy, of the holders of record of a majority of the outstanding shares of Common Stock entitled to vote is necessary to constitute a quorum for the transaction of business at the 2002 Annual Meeting, but if a quorum should not be present, the meeting may be adjourned from time to time until a quorum is obtained. A holder of Common Stock will be entitled to one vote per share on each matter properly brought before the meeting. Cumulative voting is not permitted in the election of directors.

The proxy card provides space for a stockholder to withhold voting for any or all nominees for the Board of Directors. The election of directors requires a plurality of the votes cast at the meeting. Ratification of the independent auditors requires the affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the meeting. Shares of a stockholder who abstains from voting on any or all proposals will be included for the purpose of determining the presence of a quorum. However, an abstention with respect to the election of the Company's directors will not be counted either in favor of or against the election of the nominees. In the case of the other proposal which is being submitted for stockholder approval, an abstention will effectively count as a vote cast against such proposal. Broker non-votes on any matter, as to which the broker has indicated on the proxy that it does not have discretionary authority to vote, will be treated as shares not entitled to vote with

respect to that matter. However, such shares will be considered present and entitled to vote for quorum purposes so long as they are entitled to vote on other matters.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The outstanding voting securities of the Company consist entirely of shares of Common Stock, \$1.00 par value per share, each share of which entitles the holder thereof to one vote. The record date for the determination of the stockholders entitled to notice of and to vote at the 2002 Annual Meeting, or any adjournment thereof, has been established by the Board of Directors as of the close of business on March 29, 2002. At that date, there were outstanding and entitled to vote 45,897,525 shares of Common Stock.

The following table provides certain information as of March 15, 2002, as to the beneficial ownership of the Common Stock of the Company for (a) each director and nominee, (b) each executive officer named in the Summary Compensation Table below, (c) the directors and executive officers of the Company as a group and (d) any person owning more than 5% of the Common Stock.

COMPENSATION OF DIRECTORS

Directors are compensated at the rate of \$1,250 for each board or committee meeting attended plus reimbursement for reasonable out-of-pocket expenses. In addition, each director who is not a compensated officer or employee of the Company or its subsidiaries receives a fee of \$40,000 per year for serving as a director, and the Chairman of each of the committees receives an additional \$3,500 per year. Directors may elect, pursuant to a Deferred Plan for Director Fees, to defer the receipt of all or a specified portion of the fees to be paid to him or her. Deferred amounts are credited to an account on the books of the Company and treated as if invested either at the annual LIBOR rate plus 6 points or, at the director's prior election, in units of the Company's Common Stock at the closing price on the New York Stock Exchange on the date that a payment is credited to the director's account. Such stock units are credited with amounts equivalent to dividends paid on the Company's Common Stock. Upon ceasing

6

to serve as a director, the value of the account will be paid to the director in annual installments not exceeding ten (10) years according to the director's prior election.

Annually, each director who is not also an executive officer of the Company is granted an option to purchase 5,000 shares of the Company's Common Stock at the fair market value of the Company's Common Stock on the date of grant.

The Company has a Directors' Retirement Plan that is an unfunded arrangement whereby members of the Board of Directors who are not employees of the Company will receive monthly payments for a ten (10) year period upon retirement, disability or death. The amount of each monthly payment will be equal to one-twelfth (1/12) of a percentage of the annual retainer paid to such

Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

director in the year of his retirement, disability or death while serving as a director. The applicable percentage is dependent upon the number of years of service as a member of the Board of Directors. If the director has less than five (5) years of service, the applicable percentage is zero. If the director has five (5) years of service, the applicable percentage is fifty percent (50%). The applicable percentage increases at the rate of ten percent (10%) for each year of service thereafter and reaches one hundred percent (100%) after ten (10) years of service as a director. However, notwithstanding the number of years of service, a director's applicable percentage will be one hundred percent (100%) in the event of a change in control of the Company (as defined).

Commencing January 1, 1999, Mr. W. Ray Wallace was employed by the Company as a consultant pursuant to an agreement at a monthly rate of \$10,000. The agreement provides for the performance of services as may be required by the Chief Executive Officer or the Board of Directors and his continuation as a director as long as he is eligible. He is provided an office, administrative assistant, limited use of Company aircraft and reimbursement of expenses. In addition, the Company will provide medical coverage for the remainder of his life.

SUBMISSION OF FUTURE STOCKHOLDER PROPOSALS

Stockholders' proposals to be presented at the 2003 Annual Meeting of Stockholders, for inclusion in the Company's Proxy Statement and form of proxy relating to the meeting, must be received by the Company at its offices in Dallas, Texas, addressed to the Secretary of the Company, no later than December 13, 2002. Upon timely receipt of any such proposal, the Company will determine whether or not to include such proposal in the proxy statement and proxy in accordance with applicable regulations and provisions governing the solicitation of proxies.

Under the Bylaws of the Company, certain procedures are provided which a stockholder must follow to nominate persons for election as directors or to introduce an item of business at an annual meeting of stockholders. These procedures provide, generally, that stockholders desiring to make nominations for directors, and/or bring a proper subject of business before the meeting, must do so by a written notice timely received (on or before March 14, 2003, but no earlier than February 11, 2003, for the 2003 Annual Meeting) to the Secretary of the Company containing the name and address of the stockholder, the number of shares of the Company beneficially owned by the stockholder, and a representation that the stockholder intends to appear in person or by proxy at the meeting. If the notice relates to a nomination for director, it must also set forth the name and address of any nominee(s), all arrangements or understandings between the stockholder and each nominee and any other person or person(s) (including their names) pursuant to which the nomination(s) are to be made, such other information regarding each nominee as would have been required to be included in a proxy statement filed pursuant to the proxy rules of the Securities and Exchange Commission had each nominee been nominated by the Board, and the consent of each nominee to serve. The Company may require any proposed nominee to furnish such other information as may reasonably be required by the Company to determine the eligibility of such proposed nominee to serve as director. Notice of an item of business shall include a brief description of the proposed business and any material interest of the stockholder in such business.

RETIREMENT PLANS

The Trinity Industries, Inc. Standard Pension Plan is a noncontributory defined benefit retirement and death benefit plan which is available to all eligible employees who have completed specified periods of employment. Funds are contributed periodically to a trust that invests the Company's contributions and earnings thereon in order to pay the benefits to the employees. The plan provides for the payment of monthly retirement benefits determined under a calculation based on credited years of service and a participant's highest

Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

compensation over five consecutive years in the last ten years of employment. Retirement benefits are paid to participants upon normal retirement at the age of 65 or later, or upon early retirement. The plan also provides for the payment of certain disability and death benefits. Covered compensation includes salary and bonus as shown in the Summary Compensation Table. Other elements of compensation in the Summary Compensation Table are not included in covered compensation.

The Company has also adopted a Supplemental Retirement Plan that permits the payment of supplemental benefits to certain employees who have been determined by the Plan Committee to be participants and whose annual benefits under the foregoing retirement plan would exceed those permitted by the Internal Revenue Code of 1986, as amended (the "Code"). The compensation that may be covered by a qualified plan is limited under the Code to \$200,000 adjusted for cost of living increases in accordance with the Code. The Supplemental Retirement Plan provides that if at any time the amount of the annual retirement benefit which would otherwise be payable under the Company's pension plan is or becomes limited by reason of compliance with the Code, such person shall be entitled to receive a supplemental pension benefit equal to the difference between the benefit that such person receives under the Company's pension plan and the benefit that such person would have received if such limitation had not been in effect. The benefits are payable from the general assets of the Company. Timothy R. Wallace is the only named executive officer who is a participant in the Supplemental Retirement Plan.

The following table reflects the estimated aggregate annual benefits, computed on the basis of a monthly benefit payable for ten (10) years certain and life thereafter, payable under such plans to a fully vested participant of the Company upon retirement at age 65 after 10, 20, 30 and 40 credited years of service at the annual remuneration levels set forth in the table and without regard to any limitations on the amount of benefits by the Code.

The annual benefits shown are not subject to any deduction for Social Security benefits or other offset amounts. At December 31, 2001, Mr. Timothy R. Wallace has 26 credited years of service under the plans under which he is covered; Messrs. Adams, Stiles, Ivy and Fortado have 3 years, 10 years, 4 years and 4 years, respectively.

The Company maintains a Section 401(k) plan that permits employees to elect to set aside up to fourteen percent (14%) of their compensation (subject to the maximum limit on the amount of compensation permitted by the Code to be deferred for this purpose) in a trust to pay future retirement benefits. Depending upon years of service, the Company may match from twenty-five (25%) to fifty percent (50%) of up to six percent (6%) of the employee's compensation set aside for this purpose. The Company also maintains a Supplemental Profit Sharing Plan ("Supplemental Plan") for certain of its "highly compensated employees", as defined in the Code. The highly compensated employees are not limited as to the percentage of their compensation which may be contributed to the Supplemental Plan. The first six percent (6%) of a Participant's base salary and bonus contributed to the Supplemental Plan, less any compensation matched under the 401(k) plan, may be matched from twenty-five percent (25%) to fifty percent (50%) by the Company. The Company's match vests 20% per year. An additional seventeen and one-half percent (17-1/2%) match may be made on up to twenty-five percent (25%) of a Participant's base salary and bonus deferrals directed into stock units. The additional match for stock units vests two plan years after the end of the plan year for which the match is made. The additional match does not apply to stock units acquired by transfer from existing account balances. All matches in the Supplemental Plan are made in stock units. Stock units may not be transferred into other investment accounts and may only be paid out in Common Stock.

CHANGE IN CONTROL AGREEMENTS

Each named executive officer has executed a change in control agreement with the Company that provides certain benefits in the event his or her employment is terminated subsequent to a change in control of the Company (as defined in the agreements). The agreements are for continuous two-year terms until terminated by the Company upon specified notice and continue for two years following a change in control. The agreements provide that if there is a change in control of the Company and if the Company terminates the executive's employment other than as a result of the executive's death, disability or retirement, or for cause (as defined in the

agreements), or if the executive terminates his or her employment for good reason (as defined in the agreements), then the Company will pay to such executive a lump sum equal to three (3) times the amount of the executive's base salary and the higher of the average bonus earned over the previous three years or the target bonus for the fiscal year in which the change in control occurs.

The severance benefits provided by the agreements also include certain fringe benefits to which each executive would have been entitled if the executive had continued in the employment of the Company for thirty-six (36) months after the executive's termination, a supplemental benefit based on the

Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

Company's retirement plan, and the right to surrender unexercised stock options and receive cash for the net realizable value of the options based on the highest price of the Common Stock within 180 days prior to the date of termination.

The agreements further provide that if any payment to which the executive is entitled would be subject to the excise tax imposed by Section 4999 of the Code, then the Company will pay to the executive an additional amount so that the net amount retained by the executive is equal to the amount that otherwise would be payable to the executive if no such excise tax had been imposed.

REPORT OF THE HUMAN RESOURCES COMMITTEE ON EXECUTIVE COMPENSATION

The Company's executive compensation program is administered by the Human Resources Committee ("the Committee") of the Board of Directors. The Committee, which is composed entirely of outside directors, is responsible for setting and overseeing the administration of policies that govern the compensation of the Company's executives. It establishes base salary, incentive compensation, deferred compensation, stock options, performance units and other stock based awards for each executive officer and certain key operating officers of the Company, except the salary of the Chief Executive Officer is decided by the Board, after recommendation by the Committee. The Committee retains an independent consultant to advise on matters related to executive compensation.

It is the Committee's policy to provide a competitive and comprehensive compensation program to attract, motivate, reward and retain the key executives needed to enhance the profitability of the Company and to create value for its stockholders. The Committee believes that the Company's executive compensation should consist of competitive base salaries and incentive compensation plans that reward both short and long-term performance. The key components of the Company's short-term executive compensation program in the last fiscal year were base salary and incentive compensation. The long-term program consisted of stock options, restricted stock awards, and in some cases deferred compensation. The Committee periodically reviews each component of the Company's executive compensation program to ensure that pay levels and incentive opportunities are competitive, directly linked to performance and aligned with the interest of stockholders. The Committee determines each executive's compensation based upon past and expected future performance, the executive's responsibilities within the Company, and the executive's value to the Company as determined by the Committee.

Base Salary

The Committee each year reviews each executive's performance and establishes each executive's base salary based upon past and expected future performance, and the executive's responsibilities within the Company. In fixing base salaries, the Committee also considers salaries of senior executives of other comparable companies as reflected in a survey provided by an independent outside consultant.

Incentive Compensation

Annual incentive bonuses for the Company's named executive officers are tied to the Company's success in achieving certain financial and specific goals set each year by the Committee at the beginning of the year. Specific targets are tied to short-term goals applicable to the executive's job assignment and, in the case of

Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

Timothy R. Wallace, to the Company's consolidated performance and enhancement of stockholder value. Of the named executive officers, only Mark W. Stiles was awarded short-term incentive compensation for the nine month period ended December 31, 2001.

Stock Options, LTP Units, Restricted Stock Grants and Deferred Compensation

Long-term incentive awards provided by the stockholder-approved stock option and incentive plans are designed to develop and retain strong management through stock ownership, stock options and other stock based incentive awards.

Stock options historically have been a significant portion of long-term incentive grants to executive officers. During the nine month period ended December 31, 2001, 14 executive officers and business group presidents and 159 key employees were granted options to purchase a total of 810,900 shares. An additional 160,000 options were awarded to certain executives of Thrall Car Manufacturing Company as an inducement to join the Company following the merger of a subsidiary of the Company and Thrall. The Committee believes that a significant portion of senior executives' compensation should be dependent on value created for stockholders. Options are an excellent vehicle to accomplish this by tying the executives' interests directly to the stockholders' interests. Options are granted at the fair market value of the Company's Common Stock on the date of grant and vest in annual increments over three years after such date if the optionee is still employed or vest fully at the date of death, disability or normal retirement.

The number of options that the Committee grants to executive officers is based on individual performance and level of responsibility. The number of options currently held by an executive is not a factor in determining individual grants.

During the nine month ended December 31, 2001, the Committee awarded certain key executives shares of restricted stock that vest over a five year period as a retention incentive and shares of restricted stock that vest after three years as special performance awards, including awards to Messrs. Timothy R. Wallace, John L. Adams, Mark W. Stiles, Jim S. Ivy and Michael G. Fortado totaling 82,100, 40,500, 13,000, 30,000, and 7,500 shares, respectively.

To encourage the retention of certain key and strategically important executives focused on continuous improvement and growth of the Company, the Company has established a deferred compensation plan for certain key officers of the Company including Timothy R. Wallace, John L. Adams, Jim S. Ivy and Mark W. Stiles. Under the deferred compensation plan, an amount equal to ten percent (10%) of each participant's annual base salary and annual incentive compensation is accrued to his deferred account on the books of the Company. All such deferrals bear interest at the annual LIBOR rate plus 6 points.

Chief Executive Officer Compensation

Compensation of the Chief Executive Officer is determined by the Board of Directors after recommendation by the Committee. The Chief Executive Officer's base salary, incentive compensation, stock option grants and stock-based awards are set within the philosophy and policies enunciated above for all other executives of the Company. The Chief Executive Officer's base salary for the nine month period ended December 31, 2001 was unchanged from the previous fiscal year.

In determining the compensation of the Chief Executive Officer, the Committee reviews the performance of the Company, considers the positioning of the Company for future years, assesses his past and ongoing personal performance

Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

in the position of Chief Executive Officer, and considers the report of a nationally recognized consulting firm employed to survey the compensation of chief executive officers of other companies, with particular emphasis on companies comparable to the Company. Based on the Committee's consideration of these matters and after consulting with its outside adviser, in December 2001 the Committee recommended to the

13

Board, and the Board approved, a change in the Chief Executive Officer's base salary to \$900,000 beginning January 1, 2002.

Limitation on Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code denies a publicly held corporation a federal income tax deduction for the compensation of certain executive officers exceeding \$1 million per year. "Performance based" compensation is not subject to the limitation on deductibility and the Committee strives to structure compensation so as to qualify for deductibility. The Committee will continue to monitor future deductibility options. However, the Committee will authorize compensation that may not be deductible when it deems it to be in the best interest of the Company and its stockholders.

Conclusion

The Committee believes that the Company's compensation policies and practices are appropriately designed to attract, retain and motivate key executives to guide the Company in the future and to produce results which will enhance the Company's long-term prospects, thereby enriching shareholder values.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended,

Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

requires the Company's executive officers, directors and persons who own more than ten percent (10%) of the Company's Common Stock to file initial reports of ownership and changes in ownership with the Securities and Exchange Commission ("SEC"). These reports are also filed with the New York Stock Exchange and a copy of each report is furnished to the Company.

Additionally, SEC regulations require that the Company identify any individuals for whom one of the referenced reports was not filed on a timely basis during the most recent fiscal year. To the Company's knowledge, based solely on review of reports furnished to it and written representations that no other reports were required during and with respect to the nine month period ended December 31, 2001, each individual who was required to file such reports complied with the applicable filing requirements.

AUDIT COMMITTEE REPORT

The Audit Committee (the Committee) of the Board of Directors is a standing committee comprised of four independent directors. It operates under a written charter adopted by the Board of Directors. The Committee annually recommends to the Board of Directors the selection of the Company's independent auditors. That recommendation is subject to ratification by the Company's stockholders.

Management is responsible for the Company's internal control and the financial reporting process. The independent auditors are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with auditing standards generally accepted in the United States of America and issuing a report thereon. As provided in its Charter, the Committee's responsibilities include the monitoring and oversight of these processes.

Consistent with its Charter responsibilities, the Committee has met and held discussions with management and the independent auditors. In this context, management represented to the Committee that the Company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America. The Committee has reviewed and discussed the consolidated financial statements with management and the independent auditors and discussed with the independent auditors matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees).

The Company's independent auditors have also provided to the Committee the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Committee discussed with the independent auditors that firm's independence. The Audit Committee has

Edgar Filing: TRINITY INDUSTRIES INC - Form DEF 14A

also considered whether the provision of non-audit services is compatible with maintaining the independent auditors' independence and concluded that such services have not impaired the auditor's independence.

Based upon Committee's discussion with management and the independent auditors and the Committee's review of the representation of management and the report of the independent auditors to the Committee, the Committee recommended that the Board of Directors include the audited consolidated financial statements in the
