**PERMIAN BASIN ROYALTY TRUST**  
**PART I FINANCIAL INFORMATION**

**Item 1. Financial Statements**

The condensed financial statements included herein have been prepared by Bank of America, N.A. as Trustee for the Permian Basin Royalty Trust, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual financial statements have been condensed or omitted pursuant to such rules and regulations, although the Trustee believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these condensed financial statements be read in conjunction with the financial statements and the notes thereto included in the Trust's latest annual report on Form 10-K. In the opinion of the Trustee, all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the assets, liabilities and trust corpus of the Permian Basin Royalty Trust at March 31, 2006, and the distributable income and changes in trust corpus for the three-month periods ended March 31, 2006 and 2005 have been included. The distributable income for such interim periods is not necessarily indicative of the distributable income for the full year.

Deloitte & Touche LLP, an independent registered public accounting firm, has made a limited review of the condensed financial statements as of March 31, 2006 and for the three-month periods ended March 31, 2006 and 2005 as stated in their report included herein.

**Table of Contents**

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Unit Holders of Permian Basin Royalty Trust and  
Bank of America, N.A., Trustee

We have reviewed the accompanying condensed statement of assets, liabilities and trust corpus of Permian Basin Royalty Trust as of March 31, 2006, and the related condensed statements of distributable income for the three-month periods ended March 31, 2006 and 2005 and changes in trust corpus for the three-month periods ended March 31, 2006 and 2005. These condensed financial statements are the responsibility of the Trustee.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole.

Accordingly, we do not express such an opinion.

As described in Note 1 to the condensed financial statements, these condensed financial statements have been prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed financial statements for them to be in conformity with the basis of accounting described in Note 1.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of assets, liabilities and trust corpus of Permian Basin Royalty Trust as of December 31, 2005, and the related statements of distributable income and changes in trust corpus for the year then ended (not presented herein); and in our report dated March 14, 2006, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying condensed statement of assets, liabilities and trust corpus as of December 31, 2005, is fairly stated, in all material respects, in relation to the statement of assets, liabilities and trust corpus from which it has been derived.

/s/ Deloitte & Touche LLP

Dallas, Texas

May 8, 2006

**Table of Contents**

**PERMIAN BASIN ROYALTY TRUST  
NOTES TO CONDENSED FINANCIAL STATEMENTS (UNAUDITED)**

**1. BASIS OF ACCOUNTING**

The Permian Basin Royalty Trust ( Trust ) was established as of November 1, 1980. The net overriding royalties conveyed to the Trust include: (1) a 75% net overriding royalty carved out of Southland Royalty Company's fee mineral interests in the Waddell Ranch in Crane County, Texas (the Waddell Ranch properties ); and (2) a 95% net overriding royalty carved out of Southland Royalty Company's major producing royalty interests in Texas (the Texas Royalty properties ). The net overriding royalty for the Texas Royalty properties is subject to the provisions of the lease agreements under which such royalties were created. The financial statements of the Trust are prepared on the following basis:

Royalty income recorded for a month is the amount computed and paid to Bank of America, N.A. ( Trustee ) as Trustee for the Trust by the interest owners: Burlington Resources Oil & Gas Company LP ( BROG ), a subsidiary of Burlington Resources Inc. ( BRI ), for the Waddell Ranch properties and Riverhill Energy Corporation ( Riverhill Energy ), formerly a wholly owned subsidiary of Riverhill Capital Corporation ( Riverhill Capital ) and formerly an affiliate of Coastal Management Corporation ( CMC ), for the Texas Royalty properties. Schlumberger Technology Corporation ( STC ) conducts all field, technical and accounting operations on behalf of BROG with regard to the Waddell Ranch properties. Riverhill Energy currently conducts the accounting operations for the Texas Royalty properties. Royalty income consists of the amounts received by the owners of the interest burdened by the net overriding royalty interests ( Royalties ) from the sale of production less accrued production costs, development and drilling costs, applicable taxes, operating charges, and other costs and deductions multiplied by 75% in the case of the Waddell Ranch properties and 95% in the case of the Texas Royalty properties.

As was previously reported, in February 1997, BROG sold its interest in the Texas Royalty properties to Riverhill Energy.

The Trustee has been advised that in the first quarter of 1998, STC acquired all of the shares of stock of Riverhill Capital. Prior to such acquisition by STC, CMC and Riverhill Energy were wholly-owned subsidiaries of Riverhill Capital. The Trustee has further been advised that in connection with STC's acquisition of Riverhill Capital, the shareholders of Riverhill Capital acquired ownership of all of the shares of stock of Riverhill Energy. Thus, the ownership in the Texas Royalty properties referenced above remained in Riverhill Energy, the stock ownership of which was acquired by the former shareholders of Riverhill Capital.

On March 31, 2006, ConocoPhillips announced that it had completed an acquisition of BRI.

**Table of Contents**

Trust expenses recorded are based on liabilities paid and cash reserves established out of cash received or borrowed funds for liabilities and contingencies.

Distributions to Unit holders are recorded when declared by the Trustee.

Royalty income is computed separately for each of the conveyances under which the Royalties were conveyed to the Trust. If monthly costs exceed revenues for any conveyance ( excess costs ), such excess cannot reduce royalty income from other conveyances, but is carried forward with accrued interest to be recovered from future net proceeds of that conveyance.

The financial statements of the Trust differ from financial statements prepared in accordance with accounting principles generally accepted in the United States of America ( GAAP ) because revenues are not accrued in the month of production and certain cash reserves may be established for contingencies which would not be accrued in financial statements. Amortization of the Royalties calculated on a unit-of-production basis is charged directly to trust corpus. This comprehensive basis of accounting other than GAAP corresponds to the accounting permitted for royalty trusts by the U.S. Securities and Exchange Commission as specified by Staff Accounting Bulletin Topic 12:E, Financial Statements of Royalty Trusts.

**New Accounting Pronouncements**

In February 2006, the FASB amended issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments an amendment of FASB Statements No. 133 Accounting for Derivative Instruments and No. 140 Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. This statement resolves issues addressed in Statement 133 Implementation Issue No. D1, Application of Statement 133 to Beneficial interests in Securitized Financial Assets. This statement is effective for all financial instruments acquired or issued after the beginning of an entity s first fiscal year that begins after September 15, 2006. The Trust has no financial instruments and accordingly, the impact of this new Standard will not impact the financial statements of the Trust.

In March 2006, the FASB amended issued SFAS No. 156, Accounting for Servicing of Financial Assets an amendment of FASB Statements No. 140 Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. This statement requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in certain situations. This statement is effective as of the beginning of an entity s first fiscal year that begins after September 15, 2006. The Trust does not believe the adoption of this statement will have a material effect on its financial statements.

**2. FEDERAL INCOME TAXES**

For Federal income tax purposes, the Trust constitutes a fixed investment trust which is taxed as a grantor trust. A grantor trust is not subject to tax at the trust level. The Unit holders are considered to own the Trust s income and principal as though no trust were in existence. The income of the Trust is deemed to have been received or accrued by each

**Table of Contents**

Unit holder at the time such income is received or accrued by the Trust and not when distributed by the Trust. The Royalties constitute economic interests in oil and gas properties for Federal income tax purposes. Unit holders must report their share of the revenues from the Royalties as ordinary income from oil and gas royalties and are entitled to claim depletion with respect to such income.

The Trust has on file technical advice memoranda confirming the tax treatment described above.

The classification of the Trust's income for purposes of the passive loss rules may be important to a Unit holder.

Royalty income generally is treated as portfolio income and does not offset passive losses.

Unit holders should consult their tax advisors for further information.

**3. SUBSEQUENT EVENTS**

Subsequent to March 31, 2006, the Trust declared a distribution on April 18, 2006 of \$.095194 payable on May 12, 2006, to Unit holders of record on April 28, 2006.

**Item 2. Trustee's Discussion and Analysis**

**Forward Looking Information**

Certain information included in this report contains, and other materials filed or to be filed by the Trust with the Securities and Exchange Commission (as well as information included in oral statements or other written statements made or to be made by the Trust) may contain or include, forward looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. Such forward looking statements may be or may concern, among other things, capital expenditures, drilling activity, development activities, production efforts and volumes, hydrocarbon prices and the results thereof, and regulatory matters. Although the Trustee believes that the expectations reflected in such forward-looking statements are reasonable, such expectations are subject to numerous risks and uncertainties and the Trustee can give no assurance that they will prove correct. There are many factors, none of which is within the Trustee's control, that may cause such expectations not to be realized, including, among other things, factors such as actual oil and gas prices and the recoverability of reserves, capital expenditures, general economic conditions, actions and policies of petroleum-producing nations and other changes in the domestic and international energy markets. Such forward looking statements generally are accompanied by words such as estimate, expect, predict, anticipate, goal, show, assume, believe, or other words that convey the uncertainty of future events or outcomes.

**Three Months Ended March 31, 2006 Compared to Three Months Ended March 31, 2005**

For the quarter ended March 31, 2006, royalty income received by the Trust amounted to \$18,917,927 compared to royalty income of \$13,531,071 during the first quarter of 2005. The

**Table of Contents**

increase in royalty income is primarily attributable to significant increases in both oil and gas prices. Interest income for the quarter ended March 31, 2006, was \$35,513 compared to \$11,475 during the first quarter of 2005. The increase in interest income is primarily attributable to higher interest rates and more funds available for investment. General and administrative expenses during the first quarter of 2006 amounted to \$300,467 compared to \$298,693 during the first quarter of 2005. The increase in general and administrative expenses can be primarily attributed to increased costs associated with Sarbanes-Oxley compliance.

These transactions resulted in distributable income for the quarter ended March 31, 2006 of \$18,652,973 or \$.40 per Unit of beneficial interest. Distributions of \$.142168, \$.123749 and \$.134437 per Unit were made to Unit holders of record as of January 31, 2006, February 28, 2006 and March 31, 2006, respectively. For the first quarter of 2005, distributable income was \$13,243,853, or \$.28 per Unit of beneficial interest.

Royalty income for the Trust for the first quarter of the calendar year is associated with actual oil and gas production for the period of November and December 2005 and January 2006 from the properties from which the Trust's net overriding royalty interests ( Royalties ) were carved. Oil and gas sales attributable to the Royalties and the properties from which the Royalties were carved are as follows:

	<b>First Quarter</b>	
	<b>2006</b>	<b>2005</b>
<b>Royalties:</b>		
Oil sales (Bbls)	205,912	208,024
Gas sales (Mcf)	895,338	913,669
<b>Product Sales From Which The Royalties Were Carved:</b>		
<b>Oil:</b>		
Total oil sales (Bbls)	302,938	308,892
Average per day (Bbls)	3,293	3,358
Average price per Bbl	\$ 54.79	\$ 40.17
<b>Gas:</b>		
Total gas sales (Mcf)	1,421,963	1,501,946
Average per day (Mcf)	15,456	16,326
Average price per Mcf	\$ 9.56	\$ 6.36

The posted price of oil increased to an average price per barrel of \$54.79 per Bbl in the first quarter of 2006, compared to \$40.17 per Bbl in the first quarter of 2005. The Trustee has been advised by BROG that for the period August 1, 1993, through March 31, 2006, the oil from the Waddell Ranch properties was being sold under a competitive bid to a third party. The average price of gas increased from \$6.36 per Mcf in the first quarter of 2005 to \$9.56 per Mcf in the first quarter of 2006. This increase is primarily attributable to a significant increase in gas prices during the year of 2006.

**Table of Contents**

Since the oil and gas sales attributable to the Royalties are based on an allocation formula that is dependent on such factors as price and cost (including capital expenditures), the production amounts in the Royalties section of the above table do not provide a meaningful comparison. Oil and gas volumes from the Underlying Properties (as defined in the Trust's Annual Report on Form 10-K for the year ended December 31, 2005) increased for the applicable period in 2006 compared to 2005.

Capital expenditures for drilling, remedial and maintenance activities on the Waddell Ranch properties during the first quarter of 2006 totaled \$598,857 as compared to \$798,225 for the first quarter of 2005. BROG has informed the Trustee that the 2006 capital expenditures budget has been revised to \$30.1 million for the Waddell Ranch properties. The total amount of capital expenditures for 2005 was \$14.3 million. Through the first quarter of 2006, capital expenditures of \$3.9 million have been expended.

The Trustee has been advised that there were 20 workover wells completed and 2 new wells completed during the three months ended March 31, 2006 as compared to 11 workover wells completed, 5 new wells in progress and 13 workover wells in progress for the three months ended March 31, 2005 on the Waddell Ranch properties.

Lease operating expense and property taxes totaled \$3.7 million for the first quarter of 2006, compared to \$2.9 million in the first quarter of 2005 on the Waddell Ranch properties. This increase is primarily attributable to higher electrical costs on the Waddell Ranch properties.

**Calculation Of Royalty Income**

The Trust's royalty income is computed as a percentage of the net profit from the operation of the properties in which the Trust owns net overriding royalty interests. These percentages of net profits are 75% and 95% in the case of the Waddell Ranch properties and the Texas Royalty properties, respectively. Royalty income received by the Trust for the three months ended March 31, 2006 and 2005, respectively, were computed as shown in the table below:

	<b>THREE MONTHS ENDED MARCH 31,</b>			
	<b>2006</b>		<b>2005</b>	
	<b>WADDELL RANCH PROPERTIES</b>	<b>TEXAS ROYALTY PROPERTIES</b>	<b>WADDELL RANCH PROPERTIES</b>	<b>TEXAS ROYALTY PROPERTIES</b>
Gross proceeds of sales from the Underlying Properties				
Oil proceeds	\$ 11,900,526	\$ 4,697,518	\$ 8,598,425	\$ 3,809,529
Gas proceeds	11,930,222	1,666,686	8,385,450	1,160,016
Total	23,830,748	6,364,204	16,983,875	4,969,545
Less:				
Severance tax:				
Oil	508,771	187,338	344,489	154,611
Gas	726,302	111,920	540,219	77,442
Lease operating expense and property tax:				

**Table of Contents**

	<b>THREE MONTHS ENDED MARCH 31,</b>			
	<b>2006</b>		<b>2005</b>	
	<b>WADDELL RANCH PROPERTIES</b>	<b>TEXAS ROYALTY PROPERTIES</b>	<b>WADDELL RANCH PROPERTIES</b>	<b>TEXAS ROYALTY PROPERTIES</b>
Oil and gas	3,695,189	599,993	2,894,823	288,563
Capital expenditures	598,857		798,225	
Total	5,529,119	899,251	4,577,756	520,616
Net profits	18,301,629	5,464,953	12,406,119	4,448,929
Net overriding royalty interests	75%	95%	75%	95%
Royalty income	\$ 13,726,222	\$ 5,191,705	\$ 9,304,589	\$ 4,226,482

**Critical Accounting Policies and Estimates**

The Trust's financial statements reflect the selection and application of accounting policies that require the Trust to make significant estimates and assumptions. The following are some of the more critical judgment areas in the application of accounting policies that currently affect the Trust's financial condition and results of operations.

**Basis of Accounting**

The financial statements of the Trust are prepared on a modified cash basis and are not intended to present financial positions and results of operations in conformity with accounting principles generally accepted in the United States of America (GAAP). Preparation of the Trust's financial statements on such basis includes the following:

Royalty income and interest income are recorded in the period in which amounts are received by the Trust rather than in the period of production and accrual, respectively.

General and administrative expenses recorded are based on liabilities paid and cash reserves established out of cash received.

Amortization of the royalty interests is calculated on a unit-of-production basis and charged directly to trust corpus when revenues are received.

Distributions to Unit holders are recorded when declared by the Trustee (see Note 1 to the Financial Statements).

The financial statements of the Trust differ from financial statements prepared in accordance with accounting principles generally accepted in the United States of America because royalty income is not accrued in the period of production, general and administrative expenses recorded are based on liabilities paid and cash reserves established rather than on accrual basis, and amortization of the royalty interests is not charged against operating results. This comprehensive basis of accounting other than GAAP corresponds to the accounting permitted for royalty trusts by the U.S. Securities and Exchange Commission as specified by Staff Accounting Bulletin Topic 12:E, Financial Statements of Royalty Trusts.

**Table of Contents**

**New Accounting Pronouncements**

In February 2006, the FASB amended issued SFAS No. 155, Accounting for Certain Hybrid Financial Instruments an amendment of FASB Statements No. 133 Accounting for Derivative Instruments and No. 140 Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. This statement resolves issues addressed in Statement 133 Implementation Issue No. D1, Application of Statement 133 to Beneficial interests in Securitized Financial Assets. This statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Trust has no financial instruments and accordingly, the impact of this new Standard will not impact the financial statements of the Trust.

In March 2006, the FASB amended issued SFAS No. 156, Accounting for Servicing of Financial Assets an amendment of FASB Statements No. 140 Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. This statement requires an entity to recognize a servicing asset or servicing liability each time it undertakes an obligation to service a financial asset by entering into a servicing contract in certain situations. This statement is effective as of the beginning of an entity's first fiscal year that begins after September 15, 2006. The Trust does not believe the adoption of this statement will have a material effect on its financial statements.

**Revenue Recognition**

Revenues from the royalty interests are recognized in the period in which amounts are received by the Trust. Royalty income received by the Trust in a given calendar year will generally reflect the proceeds, on an entitlement basis, from natural gas produced and sold for the twelve-month period ended October 31st in that calendar year. Royalty income received by the Trust in the first quarter of 2006 generally reflects the proceeds associated with actual oil and gas production for the period of November 2005 through January 2006.

**Reserve Disclosure**

As of January 1, 2006, independent petroleum engineers estimated the net proved reserves attributable to the royalty interests. In accordance with Statement of Financial Standards No. 69, Disclosures About Oil and Gas Producing Activities, estimates of future net revenues from proved reserves have been prepared using year-end contractual gas prices and related costs. Numerous uncertainties are inherent in estimating volumes and the value of proved reserves and in projecting future production rates and the timing of development of non-producing reserves. Such reserve estimates are subject to change as additional information becomes available. The reserves actually recovered and the timing of production may be substantially different from the reserves estimates.

**Contingencies**

Contingencies related to the Underlying Properties that are unfavorably resolved would generally be reflected by the Trust as reductions to future royalty income payments to the Trust with corresponding reductions to cash distributions to Unit holders. The Trustee is aware of no such items as of March 31, 2006.

**Table of Contents**

**Use of Estimates**

The preparation of financial statements in conformity with the basis of accounting described above requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues and expenses as of and for the reporting period. Actual results may differ from such estimates.

**Item 3. Qualitative and Quantitative Disclosures About Market Risk**

There have been no material changes in the Trust's market risk, as disclosed in the Trust's Annual Report on Form 10-K for the fiscal year ended December 31, 2005.

**Item 4. Controls and Procedures**

As of the end of the period covered by this report, the Trustee carried out an evaluation of the effectiveness of the design and operation of the Trust's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the Trustee concluded that the Trust's disclosure control and procedures are effective in timely alerting the Trustee to material information relating to the Trust required to be included in the Trust's periodic filings with the Securities and Exchange Commission. In its evaluation of disclosure controls and procedures, the Trustee has relied, to the extent considered reasonable, on information provided by Burlington Resources Oil & Gas Company LP, the owner of the Waddell Ranch properties, and Riverhill Energy Corporation, the owner of the Texas Royalty properties. There has not been any change in the Trust's internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Trust's internal control over financial reporting.

**Table of Contents**

**PART II OTHER INFORMATION**

**Items 1 through 5.**

Not applicable.

**Item 6. Exhibits**

- 4.1 Permian Basin Royalty Trust Indenture dated November 3, 1980, between Southland Royalty Company (now Burlington Resources Oil & Gas Company LP) and The First National Bank of Fort Worth (now Bank of America, N.A.), as Trustee, heretofore filed as Exhibit (4)(a) to the Trust's Annual Report on Form 10-K to the Securities and Exchange Commission for the fiscal year ended December 31, 1980 is incorporated herein by reference.
