NOTES TO SCHEDULE OF INVESTMENTS

Note: Market values for securities denominated in foreign currencies are shown in U.S. dollars.

- (a) 144A securities are those that are exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities are generally issued to qualified institutional buyers ("QIBs"), such as the Fund. Any resale of these securities must generally be effected through a sale that is exempt from registration (e.g. a sale to another QIB), or the security must be registered for public sale. At April 30, 2004, the market value of 144A securities that cannot currently be exchanged to the registered form is \$167,173,028 or 7.7% of net assets of the Fund.
- (b) Non-income producing security.

^{*} The Fund commenced operations on March 26, 2004.

See accompanying Notes to Financial Statements.

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION - CALAMOS Strategic Total Return Fund (the "Fund") was organized as a Delaware statutory trust on December 31, 2003 and is registered under the Investment Company Act of 1940 as a diversified, closed-end management investment company. The Fund commenced operations on March 26, 2004.

The Fund's investment objective is to provide total return through a combination of capital appreciation and current income.

PORTFOLIO VALUATION - In computing the net asset value of the Fund, portfolio securities, including options, that are traded on a national securities exchange are valued at the last reported sales price. Securities quoted on the NASDAQ National Market System are valued at the Nasdaq Official Closing Price ("NOCP"), as determined by Nasdaq, or lacking an NOCP, the last current reported sale price as of the time of valuation. Securities traded in the over-the counter

market and listed securities for which no sales were reported are valued at the mean of the most recently quoted bid and asked prices. Short-term securities with maturities of 60 days or less are valued at amortized cost which approximates market value.

When market quotations are not readily available or when the valuation methods mentioned above are not reflective of the fair value of the security, the security is valued at a fair value following procedures approved by the Board of Trustees or a committee thereof. These procedures may utilize valuations furnished by pricing services approved by the Board of Trustees or a committee thereof, which may be based on market transactions for comparable securities and various relationships between securities that are generally recognized by institutional traders, a computerized matrix system, or appraisals derived from information concerning the securities or similar securities received from recognized dealers in those securities.

Securities that are principally traded in a foreign market are valued as of the close of the appropriate exchange or other designated time. Trading in securities on European and Far Eastern securities exchanges and over-the-counter markets is normally completed at various times before the close of business on each day on which the New York Stock Exchange ("NYSE") is open. Trading of these securities may not take place on every NYSE business day. In addition, trading may take place in various foreign markets on Saturdays or on other days when the NYSE is not open and on which the Fund's net asset value is not calculated. Therefore, such calculation does not take place contemporaneously with the determination of the prices of many of the portfolio securities used in such calculation and the value of the Fund's portfolio may be significantly affected on days when shares of the Fund may not be purchased or redeemed. As stated above, if the market price is not readily available or is not reflective of the fair value of the security, the security will be valued at a fair value following procedures approved by the Board of Trustees or a committee thereof.

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME - Short term investment transactions are recorded on a trade date basis. Long term investment transactions are recorded on a trade date plus one basis, except for April 30th and October 31st, which are recorded on trade date. Realized gains and losses from investment transactions are reported on an identified cost basis. Interest income is recognized using the accrual method and includes accretion of original issue and market discount and amortization of premium. Dividend income is recognized on the ex-dividend date, except that certain dividends from foreign securities are recorded as soon as the information becomes available.

FOREIGN CURRENCY TRANSLATION - Values of investments denominated in foreign currencies are converted into U.S. dollars using the spot market rate of exchange. Purchases and sales of investments and dividend and interest income are translated into U.S. dollars using the spot market rate of exchange prevailing on the respective dates of such transaction.

FEDERAL INCOME TAXES - No provision has been made for Federal income taxes since the Fund is taxed as a "regulated investment company" under Subchapter M of the Internal Revenue Code of 1986.

DIVIDENDS - Dividends payable to shareholders are recorded by the Fund on the ex-dividend date. Income and capital gain dividends are determined in accordance with income tax regulations, which may differ from accounting principles generally

10

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

accepted in the United States. These differences are primarily due to differing treatments for foreign currency transaction and contingent payment debt instruments.

USE OF ESTIMATES - The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 - INVESTMENT ADVISER AND TRANSACTIONS WITH AFFILIATES OR CERTAIN OTHER PARTIES

Pursuant to an investment advisory agreement with CALAMOS ASSET MANAGEMENT, INC. ("CAM"), the Fund pays an annual fee, payable monthly, equal to 1.00% based on the average weekly managed assets. "Managed Assets" means the total assets of the Fund (including any assets attributable to any leverage that may be outstanding) minus the sum of total liabilities (other than debt representing financial leverage).

Effective April 1, 2004, CAM receives a fee payable monthly at the annual rate of 0.0175% on the first \$1 billion of Combined Assets (Calamos Investment Trust, Calamos Advisor Trust, Calamos Convertible and High Income Fund and Calamos Strategic Total Return Fund); 0.0150% on the next \$1 billion of Combined Assets; and 0.0110% on Combined Assets above \$2 billion for financial accounting services. The Fund will pay its pro rata share of the financial accounting service fee payable to CAM based on relative managed assets of the Fund.

Certain portfolio transactions for the Fund may be executed through CALAMOS FINANCIAL SERVICES, INC. ("CFS") as broker, consistent with the Fund's policy of obtaining best price and execution. During the period ended April 30, 2004, the Fund paid no brokerage commissions to CFS on purchases or sales of Fund securities.

Certain officers and trustees of the Fund are also officers and directors of CFS and CAM. All officers and affiliated trustees serve without direct compensation from the Fund.

The Fund has adopted a deferred compensation plan (the "Plan"). Under the Plan, a Trustee who is not an "interested person" of CAM and has elected to participate in the Plan (a "participating trustee") may defer receipt of all or a portion of his compensation from the Fund. The deferred compensation payable to the participating trustee is credited to the trustee's deferral account as of the business day such compensation would have been paid to the trustee. The value of a trustee's deferred compensation account at any time is equal to what would be the value if the amounts credited to the account had instead been invested in shares of one or more of the Funds of the Calamos Investment Trust as designated by the trustee. Thus, the value of the account increases with contributions to the account or with increases in the value of the measuring shares, and the value of the account decreases with withdrawals from the account or with declines in the value of the measuring shares. If a participating trustee retires, the trustee may elect to receive payments under the plan in a lump sum or in equal installments over a period of five years. If a participating trustee dies, any amount payable under the Plan will be paid to the trustee's beneficiaries. The Fund's obligation to make payments under the Plan is a general obligation of the Fund. There were no deferred compensation investments as of April 30, 2004.

NOTE 3 - INVESTMENTS

Purchases and sales of investments other than short-term obligations for the period ended April 30, 2004 were as follows:

Purchases \$2,161,346,301
Proceeds from sales --

The following information is presented on an income tax basis as of April 30, 2004. Differences between amounts for financial statements and Federal income tax purposes are primarily due to timing differences.

11

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

The cost basis of investments for Federal income tax purposes at April 30, 2004 was as follows:

	===	
Net unrealized appreciation (depreciation)	\$	(51,052,658)
Gross unrealized depreciation		(71,640,996)
Gross unrealized appreciation		20,588,338
Cost basis of investments	\$2,	,315,400,247

NOTE 4 - FORWARD FOREIGN CURRENCY CONTRACTS

The Fund may engage in portfolio hedging with respect to changes in currency exchange rates by entering into forward foreign currency contracts to purchase or sell currencies. A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. Risks associated with such contracts include movement in the value of the foreign currency relative to the U.S. dollar and the ability of the counterparty to perform. The net unrealized gain, if any, represents the credit risk to the Fund on a forward foreign currency contract. The contracts are valued daily at forward exchange rates, and an unrealized gain or loss is recorded. The Fund realizes a gain or loss upon settlement of the contracts. There were no open forward foreign currency contracts at April 30, 2004.

NOTE 5 - OPTIONS TRANSACTIONS

The Funds may engage in options transactions and in doing so achieve the similar objectives to what they would achieve through the sale or purchase of individual securities. For the period ended April 30, 2004 there were no net realized gains or losses on option transactions.

NOTE 6 - COMMON STOCK

There are unlimited common shares of beneficial interest authorized and 154,514,000 shares outstanding at April 30, 2004. CAM owned 14,000 of the outstanding shares. Transactions in common shares were as follows:

	PERIOD ENDED	
	APRIL 30, 2004*	
Beginning Shares		
Shares Sold	154,514,000	
Shares Issued Through Reinvestment of Distributions		

Ending Shares 154,514,000 ========

* The Fund commenced operations on March 26, 2004.

NOTE 7 - SUBSEQUENT EVENT

On May 6, 2004, the Fund offered 43,200 Preferred Shares. The Preferred Shares consisted of seven series, 7,040 shares of Series M, 7,040 shares of Series TU, 7,040 shares of Series W, 7,040 shares of Series F, 4,000 shares of Series A, and 4,000 shares of Series B. The Preferred Shares have a liquidation preference of \$25,000 per share, plus any accumulated, unpaid dividends and also have priority over the Fund's common shares as to distribution of assets. The Preferred Shares pay dividends based on a rate set at auction, usually held weekly in the case of Series M, TU, W, TH, and F and every 28 days in the case of Series A and B. Dividends on the Preferred Shares are cumulative. The Preferred Shares were offered with a rating of "Aaa" from Moody's and "AAA" from Fitch Ratings.

12

FINANCIAL HIGHLIGHTS

SELECTED DATA FOR A SHARE OUTSTANDING THROUGHOUT THE PERIOD WAS AS FOLLOWS:

	t April	26, 2004* hrough 30, 2004 audited)

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and Shareholders of CALAMOS Strategic Total Return Fund

We have reviewed the accompanying statement of assets and liabilities, including the schedule of investments, of CALAMOS Strategic Total Return Fund (the "Fund") as of April 30, 2004, and the related statements of operations and changes in net assets and the financial highlights for the period from March 26, 2004 (commencement of operations) through April 30, 2004. These interim financial statements and financial highlights are the responsibility of the Fund's management.

We conducted our review in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to such interim financial statements and financial highlights for them to be in conformity with accounting principles generally accepted in the United States of America.
