ITEM 1.01 ENTRY INTO A MATERIAL DEFINITIVE AGREEMENT

On May 1, 2006 Lindsay Manufacturing Co. (the "Company") and a new wholly owned subsidiary of the Company entered into an agreement and plan of merger (the "Merger Agreement") with Barrier Systems Inc. ("BSI"), which will result in the Company owning all of the outstanding capital stock of BSI at closing. BSI is a California corporation engaged in the manufacture of specialty roadway barriers and traffic flow products that are used to reduce traffic congestion and enhance safety. The new wholly owned subsidiary will be merged with and into BSI. Under the terms of the Merger Agreement, the Company agreed to pay \$35,000,000 in cash to acquire all of the outstanding stock of BSI, subject to a post-closing net asset adjustment. The merger consideration will be used to repay all funded debt of BSI and its transaction expenses, with the remainder being paid to shareholders and option holders of BSI. The Merger Agreement provides that \$3,500,000 of the consideration will be held in escrow to secure the indemnification obligations of the shareholders and option holders of BSI. The Company intends to fund the payment of the merger consideration using a mix of its own working capital and borrowed funds.

The terms of the Merger Agreement were determined on the basis of arm's-length negotiations. In the ordinary course of business, the Company has supplied components used by BSI in its manufacturing process. The Company does not consider this a material relationship and no other relationships exists between the Company and BSI or its shareholders.

The Merger Agreement provides for customary representations, warranties and covenants by the Company and BSI and is subject to customary closing conditions, including approval by the shareholders of BSI. The Company expects the transaction to close within the next 45 days.
