PART I

Item 1. DESCRIPTION OF BUSINESS

Overview

Brainworks Ventures, Inc., a Nevada corporation (the Company), provides funding and business consulting services to early-stage technology companies by developing, investing in, acquiring or acquiring interests in, and operating such companies. The Company also seeks to work with universities, corporations, research laboratories, government economic authorities and individual investors to foster the commercialization of new concepts and technologies. During the past year, the Company provided consulting services related to the development and commercialization of existing assets to four clients including two national research laboratories.

On February 14, 2001, the Company acquired all the outstanding capital stock of eBusinessLabs, Inc., a privately-held Georgia corporation now known as Brainworks Ventures Labs, Inc. (BVL), for approximately 800,000 shares of the Company's common stock. BVL seeks to develop university affiliated venture development labs designed to assist the launch of business ventures.

On May 8, 2001, the Company acquired all the outstanding capital stock of Executive Venture Partners, Ltd., a privately held Massachusetts company (EVP), for 500,000 shares of the Company's common stock. EVP provides consulting services to develop and implement corporate venturing strategies for Fortune 2,000 companies by offering advice and recommendations related to asset development and value maximization. EVP holds a non-exclusive license to use an asset commercialization methodology. This license may be revoked upon the happening of certain events specified in the Amended and Restated License Agreement between EVP and Robert H. Cawly dated March 6, 2001.

On March 31, 2002, the Company has three wholly-owned subsidiaries: Auric Minerals Corporation, a Nevada corporation (Auric Minerals), EVP and BVL.

History

The Company originally incorporated in 1969 under the laws of the state of Utah. In 1985, the Company became a Nevada corporation by merging with a Nevada corporation that was a wholly-owned subsidiary of the Company created solely for the purpose of changing the Company's state of domicile. Prior to May 2000, the Company was principally engaged in the acquisition, exploration and development of interests in various natural resource properties, primarily through participation with other parties in natural resource joint ventures or other arrangements. During the fiscal year ended March 31, 2001, the Company sold its ownership interests in all natural resource properties held by the Company as described below.

Disposition and Termination of Interest in Natural Resource Properties

Hillcrest Claims

In 1981, the Company leased forty-five (45) unpatented mining claims (the Hillcrest Claims) covering approximately 600 acres northwest of Elko, Nevada from Hillcrest Mining Company (Hillcrest) under a lease the initial term of which expired on August 31, 1984. The lease granted to the Company the option to extend the lease for twenty (20) additional one-year terms by making advance royalty payments of \$6,000 per year to Hillcrest. The lease further provided that the Company will pay to Hillcrest a royalty equal to fifty percent (50%) of the Company's earnings from the property, after deducting all direct costs incurred by the Company in the development of the property, exclusive of the Company's overhead. Pursuant to the terms of a modification to the lease which provided the Company and Hillcrest with equal interests under the lease, the Company and Hillcrest each became entitled to receive a one percent (1%) royalty interest for gold and a three percent (3%) royalty interest on other metals extracted from the Hillcrest Claims.

In 1981, the Company subleased its interest in the Hillcrest Claims to USX, formerly known as United States Steel Corporation, under a sublease the initial term of which expired on December 31, 1983. Pursuant to the sublease, USX had the right to renew the sublease for 20 additional one-year terms by paying an advance royalty of \$50,000 per year for the term of the lease or as long as there was production. USX paid the advance royalty for each year through the fiscal year ended March 31, 1998.

Table of Contents

In August 1997, the Company agreed to an assignment of the sublease to Great Basin Gold, Inc. and an amendment to said sublease (the Sublease Amendment). Under the terms of the Sublease Amendment, the Company and Hillcrest agreed to extend the sublease for up to four 20-year periods commencing on December 31, 1997, provided that the \$50,000 annual advance royalty payment is paid for each year for which there are no mining operations on the leased property. For each 20-year renewal period, the annual minimum advance royalty increases \$5,000 per year.

In October 2000, the Company sold its entire leasehold interest in the Hillcrest Claims to James Fouts, a former president of the Company, for \$22,000.

Disposition of Interest in Ivanho Property

The Company also held a leasehold interest in 85,000 acres of property located near Elko, Nevada (the Ivanho Property). In October 2000, the Company sold its entire leasehold interest in the Ivanho Property to Mr. Fouts for \$200,000.

Disposition of Investment in Dynamic Oil Limited

As of March 31, 2000, the Company held 129,600 shares of restricted common stock of Dynamic Oil Limited, an unaffiliated publicly-held British Columbia corporation (Dynamic) engaged in oil and gas exploration. In June 2000, the Company sold 79,600 shares of Dynamic for \$107,000. In August 2000, the Company sold the remaining 50,000 shares of Dynamic for \$56,000.

Disposition of Interest in Robbie Claims

In September 1995, the Company entered into a partnership agreement with Hi-Tech Exploration, Ltd. (Hi-Tech), Hillcrest, and Mr. Fouts, who then served as the Company's president, pursuant to which the Company, Hillcrest and Mr. Fouts each purchased from Hi-Tech a twenty-five percent (25%) interest in 107 unpatented lode mining claims (the Robbie Claims) for the sum of \$3,567. The Robbie Claims are located near Elko, Nevada, on land controlled by the Bureau of Land Management (BLM).

During the fiscal year ended March 31, 2000, the parties leased the Robbie Claims to Great Basin Gold, Inc., for the sum of \$4,000 per year, together with a royalty of two percent (2%) of net smelter returns and an obligation by the leaseholder to cover the annual fee payable to BLM of \$100 per claim, payable by September 1 of each year. Pursuant to such lease, the Company was entitled to receive one-fourth of the annual payment and one-fourth of the net smelter returns, if any. In July 2000, the Company sold its interest in these claims to Mr. Fouts for \$4,000.

Sale of Investment in La Fonda

In addition to the natural resource investments previously held by the Company, Auric Minerals owned a minority interest in the outstanding capital stock (the La Fonda Stock) of Corporacion de La Fonda, Inc., a closely-held corporation that owns and operates the La Fonda Hotel in Santa Fe, New Mexico (La Fonda).

During the fiscal year ended March 31, 2000, the Company sold to La Fonda a total of 800 shares of La Fonda Stock at a price of \$141.00 per share, resulting in a net pre-tax gain of \$103,000. In May 2000, the Company sold to La Fonda its remaining 9,200 shares of La Fonda Stock at a price of \$141.00 per share for a total of \$1,304,000 in cash. The Company realized a gain of approximately \$1,188,000 from the sales of the La Fonda Stock.

Employees

The Company currently has seven full time and two part-time employees. None of the employees are represented by a labor union.

Table of Contents**Item 2. DESCRIPTION OF PROPERTY**

Since February 2001, the Company maintains its principal office at 101 Marietta Street, Suite 3450, Atlanta, Georgia at which location BVL leases 7,600 square feet of office space at a current annual rent of approximately \$180,000 under a lease which expires December 31, 2005. In the opinion of the Company's management, the leased property discussed above is adequately insured, is adequate and suitable for the Company's immediate needs and additional or substitute space is available to accommodate growth and expansion.

As discussed in Item 1 Description of Business above, the Company no longer holds interests in any natural resource properties.

Item 3. LEGAL PROCEEDINGS

The Company is not a party to any pending legal proceedings.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

The Company did not submit any matters to a vote of security holders during the quarter ended March 31, 2002.

PART II

Item 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

The Company's common stock is quoted on the Over-the-Counter Bulletin Board (OTC-BB) under the symbol BRAV. There is currently a very limited trading market for the Company's common stock. The following sets forth, for the respective periods indicated, the high and low sales prices of the Company's common stock in the over-the-counter market, as reported and summarized by the OTC-BB. Such prices are based on inter-dealer bid and asked prices, without markup, markdown, commissions or adjustments, and may not represent actual transactions.

On June 26, 2002, the high and low bid prices quoted by broker-dealer firms effecting transactions in the Company's common stock were \$0.55 and \$0.55, respectively.

The Company has never declared or paid cash dividends on its common stock and currently intends to retain any future earnings for the operation and expansion of its business. Any determination to pay cash dividends on the Company's common stock will be at the discretion of the Board of Directors of the Company (the Board) and will be dependent on the Company's financial condition, results of operations, contractual restrictions, capital requirements, business prospects and such other factors as the Board deems relevant.

Table of Contents

At June 26, 2002, there were approximately 770 holders of record of the Company's common stock.

The following table sets forth information regarding compensation plans under which the Company's common stock is authorized for issuance as of March 31, 2002. The Company's stockholders approved the Brainworks Ventures Inc. Stock Option Plan (the "Plan") at the Company's 2000 annual meeting of stockholders. The Plan is the Company's only equity compensation plan approved by the Company's stockholders.

Item 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Certain statements contained in this Annual Report on Form 10-KSB are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, and are thus prospective in nature. The words believe, expect, anticipate, predict, potential, seek, continue, will, may, could, intend, plan, estimate, and the negative thereof and other similar expressions are intended to identify forward-looking statements. Such forward-looking statements reflect management's beliefs and assumptions and are based on information currently available to management. The forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of the Company to differ materially from those expressed or implied in such statements. There can be no assurance that such factors or other factors will not affect the accuracy of such forward-looking statements. The Company does not assume any duty to publicly update these forward-looking statements. The Company strongly recommends that the discussion and analysis set forth below be read in conjunction with the Company's consolidated financial statements and notes thereto contained elsewhere herein.

Overview

The Company provides funding and business consulting services to early stage development companies by developing, investing in, acquiring or acquiring interest in and operating such companies. The Company has made equity investments in three start up companies. The Company also provides consulting services to commercialize new concepts and intellectual property developed by universities, research laboratories and other large commercial companies.

During the past two years, the Company has incurred significant losses from operations and such losses are expected to continue. Most of the expenses to date have been for general and administrative expenses, including non-cash charges related to amortization of options and warrants granted for consulting services totaling \$1,159,000 and \$2,007,000 for the years ended March 31, 2002 and 2001, respectively. In addition, in March 2002, the Company recorded an impairment charge of \$1,630,000 on its long-lived intangible assets and also wrote down the carrying value of investments by \$238,000.

Table of Contents

Revenues

The Company's revenues consist primarily of consulting fees generated through the provision of consulting services. Revenue from consulting fees is recognized when the Company performs services. Other income includes dividend and interest income.

Operating Expenses

Selling, general and administrative expenses consist primarily of consulting expenses, administrative and management personnel and related expenses, and depreciation and amortization expense.

Results of Operations

In the year ended March 31, 2002, the Company had revenues of \$610,000, operating expenses of \$3,190,000, an asset impairment charge of \$1,868,000 related to the write down of unamortized intangible assets related to acquisitions of BVL and EVP and a write down of investments to their estimated net realizable values, resulting in a net loss of \$4,979,000, and a net loss per common share of \$2.01. In the fiscal year ended March 31, 2001, the Company had revenues of \$1,000, realized a net gain of \$1,320,000 from the sales of La Fonda Stock and the sale of mineral lease properties, \$63,000 of interest and dividend income and operating expenses of \$3,347,000, resulting in net loss of \$1,963,000 or a loss per common share of \$1.84.

Management does not believe that the Company's operations have been impacted by inflation.

Liquidity and Capital Resources

In the year ended March 31, 2002, net cash used in operating activities was \$801,000. Net cash used in operating activities includes the net loss for the year ended March 31, 2002 of \$4,979,000 offset by non-cash charges related to depreciation and amortization of \$1,224,000, amortization of deferred compensation for warrants and options issued to advisors and consultants of \$1,159,000 and asset impairment charges of \$1,868,000. Net cash used in investing activities resulted primarily from transaction costs related to the acquisition of EVP. The Company raised net proceeds of \$425,000 in a private placement issuance of its common stock and warrants to purchase its common stock.

As of March 31, 2002, the Company had working capital of \$284,000.

Going concern

The Company has incurred significant losses from operations for the year ended March 31, 2002, and such losses are expected to continue. In addition, working capital has decreased by \$369,000 from the year ended March 31, 2001. The foregoing raises substantial doubt about the Company's ability to continue as a going concern. Management's plans include seeking additional capital and/or debt financing or the possible sale of the Company. There is no guarantee that additional capital and/or debt financing will be available when and to the extent required, or that if available, it will be on terms acceptable to the Company. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Company has received an opinion from its independent auditors containing an explanatory paragraph that describes such auditors uncertainty as to the Company's ability to continue as a going concern due to the Company's negative cash flow. As of the date the independent auditors rendered this opinion, the Company did not have access to sufficient committed capital to meet the Company's projected operating needs for at least the next twelve months. If the Company does not achieve positive operating results within the next few months, then it will require additional financing. If positive operating results are not achieved in the short term, then the Company intends to take measures to reduce expenditures so as to minimize its requirements for additional financing, which financing may not be available on terms acceptable to the Company, if at all. Such measures may include reduction of the Company's cost of operations and restructuring employee compensation packages. There can be no assurance that the Company will be able to generate internally or raise sufficient funds to continue the Company's operations, or that the Company's independent auditors will not issue another opinion with a going concern qualification. The Company's consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result from the Company's possible inability to continue its operations.

Table of Contents

The Company believes its survival is contingent upon increasing its BVL and EVP customer base and investing in further development of its services. This will require significant expenditures for sales, marketing, personal and professional fees and, to a lesser extent, support infrastructure. The Company, therefore, expects to continue to incur substantial operating losses for the foreseeable future.

Recent Accounting Pronouncements

In July 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations and No. 142, Accounting for Goodwill and Other Intangibles (SFAS 141 and SFAS 142 , respectively). Under these new standards, all acquisitions subsequent to June 30, 2001, must be accounted for under the purchase method of accounting and goodwill is no longer amortized but is reviewed annually (or more frequently if impairment indicators arise) for impairment. Separable intangible assets acquired in a business combination that are not deemed to have an indefinite life will continue to be amortized over their useful lives. With respect to goodwill and intangible assets acquired prior to July 1, 2001, companies are required to adopt SFAS 142 in their fiscal year beginning after December 15, 2001.

In August 2001, FASB issued SFAS No. 143, Accounting for Asset Retirement Obligations (SFAS 143). SFAS 143 establishes accounting standards for recognition and measurement of a liability for the costs of asset retirement obligations. Under SFAS 143, the costs of retiring an asset will be recorded as a liability when the retirement obligation arises, and will be amortized to expense over the life of the asset.

In October 2001, FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144). SFAS 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets and discontinued operations.

The Company is currently evaluating the impact of these pronouncements to determine the effect, if any, they may have on the consolidated financial position and results of operations. The Company is required to adopt each of these standards in the first quarter of fiscal year 2003.

Item 7. FINANCIAL STATEMENTS

The Company's consolidated financial statements (see Index to Financial Statements attached hereto) for the years ended March 31, 2002 and 2001, together with the notes thereto, have been audited by the independent accounting firm of Eisner LLP, whose opinion thereto is included herein, are included in this Report beginning at page F-1 hereof.

Item 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

During the fiscal year ended March 31, 2002, there has been no disagreement with the Company's accountants on any matter of accounting principles or practices or financial statement disclosure required to be disclosed pursuant to Item 304 of Regulation S-B.

INDEPENDENT AUDITORS REPORT

To the Board of Directors and Stockholders of
Brainworks Ventures, Inc.

We have audited the accompanying consolidated balance sheet of Brainworks Ventures, Inc. and subsidiaries as of March 31, 2002, and the related consolidated statements of operations, comprehensive loss, changes in stockholders' equity, and cash flows for the years ended March 31, 2002 and 2001. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements enumerated above present fairly, in all material respects, the consolidated financial position of Brainworks Ventures, Inc. and subsidiaries as of March 31, 2002, and the consolidated results of their operations and their consolidated cash flows for the years ended March 31, 2002 and 2001, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note A to the financial statements, the Company has incurred a significant net loss from operations and has generated net cash outflows from operations for the years ended March 31, 2002 and 2001, and such losses are expected to continue. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to this matter are also described in Note A. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

BRAINWORKS VENTURES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2002

NOTE A THE COMPANY, BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

THE COMPANY

Brainworks Ventures, Inc. (Brainworks), together with its subsidiaries, referred to as the Company, is a Nevada corporation which provides funding and business consulting services to early stage technology companies by developing, investing in and acquiring interests in, and operating such companies. The Company also seeks to work with universities, large corporations, research laboratories, government economic authorities and individual investors to foster the commercialization of new concepts and technologies.

On February 14, 2001, Brainworks acquired Brainworks Ventures Labs, Inc., formerly known as eBusinessLabs, Inc. (BVL), which is a venture development company that provides business-consulting services to early stage technology companies.

On May 8, 2001, the Company acquired Executive Venture Partners, Ltd. (EVP), which provides consulting services to develop and implement corporate venturing strategies to corporations and research laboratories.

The acquisitions were accounted for under the purchase method of accounting.

The consolidated financial statements include the accounts of its wholly-owned subsidiaries, BVL, EVP (from May 8, 2001) and Auric Minerals Corporation (which is currently inactive). All intercompany balances and transactions have been eliminated.

BASIS OF PRESENTATION

The Company has sustained significant operating losses in each of the years ended March 31, 2002 and 2001, and such losses are expected to continue. Further, the Company's operations have generated net cash outflows. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plans include raising additional capital and/or debt financing or the sale of the Company. There is no assurance of a purchaser being identified or capital and/or debt financing will be available on terms acceptable to the Company, if at all. The consolidated financial statements do not include any adjustments that might result from the outcome of these uncertainties.

SIGNIFICANT ACCOUNTING POLICIES

[1] INVESTMENTS:

Investments consist of equity securities classified as available for sale. Marketable equity securities, which are publicly traded, are carried at fair market value based on quoted market prices, with unrealized gains and losses reported as a separate component of stockholders' equity. Declines in fair value that are determined to be other than temporary are charged to earnings. Realized gains and losses on sales of investments are included in earnings and are determined on the specific identification method.

Investments in non-marketable securities are carried at cost as adjusted for declines in value which are other than temporary in accordance with Statement of Financial Accounting Standards (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities.

Table of Contents

BRAINWORKS VENTURES, INC. AND SUBSIDIARIES
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 MARCH 31, 2002

[2] FIXED ASSETS:

Fixed assets, consisting of office equipment, furniture and fixtures and leasehold improvements, are stated at cost. Depreciation is provided using the straight-line method over the estimated useful lives of the assets. Leasehold improvements are amortized over the shorter of the term of the lease or useful life of the improvements.

[3] INTANGIBLE ASSETS:

Intangible assets acquired consist of business systems, methodologies and know how for use in the Company's consulting services and are amortized on a straight-line basis over their estimated useful life of 3 years.

[4] LONG-LIVED ASSETS:

In accordance with SFAS No.121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of, the Company reviews long-lived assets for impairment whenever changes in business circumstances indicate that the carrying amount of the assets may not be fully recoverable. The Company performs undiscounted cash flows analysis to determine if an impairment exists. If an impairment is determined to exist, then any related impairment loss is calculated based on the present value of the expected future cash flows. In March 2002, the Company recognized an impairment loss of \$1,630,000 related to intangible assets.

[5] REVENUE RECOGNITION:

Revenue is generated from consulting fees and is recognized when services are performed by the Company.

[6] INCOME TAXES:

The Company accounts for income taxes in accordance with SFAS No. 109, Accounting for Income Taxes, which requires recognition of deferred tax liabilities and assets for expected future tax consequences attributable to differences between the financial statement carrying amounts of the existing assets and liabilities and their respective tax basis. Deferred tax liabilities and assets are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amounts expected to be realized.

[7] STOCK-BASED COMPENSATION:

The Company has adopted SFAS No. 123, Accounting for Stock-Based Compensation (SFAS 123). The provisions of SFAS 123 allow companies to either expense the estimated fair value of employee stock options or to continue to follow the intrinsic value method set forth in Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25), but disclose the pro forma effects on net income had the fair value of the options been expensed. The Company has elected to apply APB No. 25 in accounting for its employee stock option grants.

[8] NET LOSS PER SHARE:

Basic and diluted loss per common share is computed using the weighted average number of common shares outstanding during the period. Stock options and warrants have not been included in the diluted loss per share calculation as their inclusion would have been antidilutive. Potential common shares not included in the calculation of net loss per share for the year ended March 31, 2002, are as follows:

Warrants	535,000
Stock options	1,452,000
	<hr/>
	1,987,000

[9] FINANCIAL INSTRUMENTS:

The carrying amounts of cash, accounts receivable, amounts due from employees, investments in non-marketable equity securities, and accounts payable and accrued expenses approximate their fair value based on the nature of those items.

Estimated fair values of financial instruments are determined using available market information. In evaluating the fair value information, considerable judgment is required to interpret the market data used to develop the estimates. The use of different market assumptions and/or different valuation techniques may have a material effect on the estimated fair value amounts. Accordingly, the estimates of fair value presented herein may not be indicative of the amounts that could be realized in a current market exchange.

[10] USE OF ESTIMATES:

The preparation of financial statements in conformity with accounting principles generally accepted in United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

[11] RECENT ACCOUNTING PRONOUNCEMENTS:

In July 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations and No. 142, Accounting for Goodwill and Other Intangibles (SFAS 141 and SFAS 142 , respectively). Under these new standards, all acquisitions subsequent to June 30, 2001, must be accounted for under the purchase method of accounting and good will is no longer amortized but is reviewed annually (or more frequently if impairment indicators arise) for impairment. Separable intangible assets acquired in a business combination that are not deemed to have an indefinite life will continue to be amortized over their useful lives. With respect to goodwill and intangible assets acquired prior to July 1, 2001, companies are required to adopt SFAS 142 in their fiscal year beginning after December 15, 2001.

In August 2001, FASB issued SFAS No. 143, Accounting for Asset Retirement Obligations (SFAS 143). SFAS 143 establishes accounting standards for recognition and measurement of a liability for the costs of asset retirement obligations. Under SFAS 143, the costs of retiring an asset will be recorded as a liability when the retirement obligation arises, and will be amortized to expense over the life of the asset.

In October 2001, FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144). SFAS 144 addresses financial accounting and reporting for the impairment or disposal of long-lived assets and discontinued operations.

The Company is currently evaluating the impact of these pronouncements to determine the effect, if any, they may have on the consolidated financial position and results of operations. The Company is required to adopt each of these standards in the first quarter of fiscal year 2003.

[12] SIGNIFICANT CUSTOMERS:

In the year ended March 31, 2002, revenue from two customers was 62% and 20% of total revenue.

NOTE B ACQUISITIONS

On February 14, 2001 and May 8, 2001, Brainworks consummated its acquisitions of BVL and EVP, respectively. The transactions were accounted for under the purchase method of accounting. BVL was acquired for 800,000 shares of Brainworks common stock with a fair value of \$2,800,000. EVP was acquired for 500,000 shares of Brainworks common stock with a fair value of \$554,000.

The fair values were based on independent appraisals and the purchase prices were substantially attributed to intangible assets. The stock issued in the acquisitions is entitled to piggy-back registration rights. Certain shareholders of BVL and EVP were also shareholders or directors of Brainworks prior to the acquisitions and such shareholders or directors received 175,000 and 390,000 shares of the total shares exchanged in the acquisitions of BVL and EVP, respectively.

The assets acquired, liabilities assumed and the cost of the acquisitions were as follows:

	<u>BVL</u>	<u>EVP</u>
Assets acquired:		
Cash	\$ 61,000	
Other current assets	208,000	\$ 51,000
Fixed assets	246,000	6,000
Intangible assets	2,580,000	575,000
	<u>\$ 3,095,000</u>	<u>\$ 632,000</u>

Transaction costs	32,000	78,000
	<u>\$ 3,095,000</u>	<u>\$ 632,000</u>

The following unaudited pro forma condensed consolidated operating information assume the BVL and EVP acquisitions occurred on April 1, 2000. In the opinion of management, all adjustments necessary to present fairly such unaudited pro forma information have been made.

	<u>2002</u>	<u>2001</u>
Revenue	\$ 693,000	\$ 146,000
Net loss	\$(4,930,000)	\$(3,785,000)

NOTE C RELATED PARTY TRANSACTIONS

In May 2000, the Company sold certain non-marketable equity securities and a partnership interest in a mining claim to its former President for \$26,000, which was the Company's carrying cost. In addition, in October 2000, the Company also sold to its former President mineral lease interest in property located in Nevada for \$200,000. Its carrying value had been written down to \$0 in earlier years.

Edgar Filing: BRAINWORKS VENTURES INC - Form 10KSB

The Company owned a minority interest in Corporacion de La Fonda, Inc. (La Fonda), a closely held corporation which owns and operates the La Fonda Hotel in Santa Fe, New Mexico. The Company's former President has an equity interest and is a director of La Fonda. In May 2000, the Company sold its minority interest back to La Fonda for \$1,304,000 and realized a net gain of \$1,188,000.

Brainworks' former President agreed to perform certain administrative services by a specified date or return 50,000 shares of Brainworks common stock held by him. These services were not provided and the 50,000 shares were returned and cancelled during the year ended March 31, 2001.

NOTE D FIXED ASSETS

Fixed assets at March 31, 2002, are as follows:

		<u>Estimated Useful Life-Years</u>
Computer equipment	\$ 97,000	3
Furniture and fixtures	81,000	7
Leasehold improvements	215,000	5
	<u>393,000</u>	
Less accumulated depreciation and amortization	(99,000)	
	<u>\$ 294,000</u>	

Depreciation and amortization expense on fixed assets for the years ended March 31, 2002 and 2001 was \$87,000 and \$12,000, respectively.

NOTE E INVESTMENTS

The investments consist of non-marketable equity securities and are carried at cost as adjusted for declines in value which are other than temporary. The Company determined the decline in the fair value of the non-marketable securities to be other than temporary and recorded a realized loss of \$238,000.

NOTE F INTANGIBLE ASSETS

Intangible assets acquired in the acquisitions of BVL and EVP consist primarily of business tools, methodologies and know how which were recorded at the fair value at the date of acquisitions of approximately \$2,580,000 and \$575,000, respectively. The intangible assets are being amortized over their estimated useful life of three years. Amortization expense related to the intangible assets was \$1,137,000 and \$120,000 for the years ended March 31, 2002 and 2001, respectively.

In March 2002, the Company recognized an impairment loss of \$1,630,000 related to these assets.

NOTE G STOCK OPTIONS AND WARRANTS

STOCK OPTIONS PLAN

Options to purchase common stock under the Company's 2000 Stock Option Plan (the "Plan") can be granted to employees and directors. Under the Plan, up to 5,000,000 shares may be granted. The Plan is administered by the Board of Directors, which determines the terms of the options granted, including the exercise price, the number of shares subject to option, and the option vesting period. The exercise price of all options granted under the plan must be at least 100% of the fair market value on the date of grant. Options generally have a maximum term of five to six years and vest over two years.

VALUE OF OPTIONS GRANTED TO EMPLOYEES

For disclosure purposes, the fair value of all stock options granted is estimated using the Black-Scholes option-pricing model. The following weighted average assumptions were used for stock options granted by the Company during the years ended March 31, 2002 and 2001 as follows:

	<u>2002</u>	<u>2001</u>
Annual dividends	0%	0%
Expected Volatility	186%	182%
Risk-free interest rate	4.59%	5.24%
Expected life (in years)	5.37	5

If compensation cost had been determined on the basis of fair value pursuant to SFAS 123, then net loss attributable to common stockholders and net loss per share attributable to common stockholders would have increased for the years ended March 31, 2002 and 2001 as follows:

	(In thousands, except per share data)	
	<u>2002</u>	<u>2001</u>
Net loss:		
As reported	\$(4,979)	\$(1,963)
Pro forma	\$(6,874)	\$(3,081)
Basic and diluted net loss per share:		
As reported	\$ (2.01)	\$ (1.84)
Pro forma	\$ (2.78)	\$ (2.89)

WARRANTS

In April 2000, the Company issued to an individual warrants to purchase 300,000 shares of Brainworks common stock at \$1.125 per share for consulting services. In May 2000, this individual became an officer of the Company. Warrants to purchase 100,000 shares of the Brainworks common stock vested at the grant date and the remaining warrants vested when the Company's stock price reached specified prices for specified periods of time during the year ended March 31, 2001.

The warrants were valued at an aggregate of \$1,234,000, on the dates each tranche vested, using the Black-Scholes option-pricing model and were charged to operations.

Following is a summary of stock option and warrant activity during each of the years ended March 31:

NOTE H INCOME TAXES

The following table summarizes the significant differences between the U.S. Federal statutory tax rate and the Company's effective tax rate:

	Year Ended March 31,	
	2002	2001
Federal statutory rate	(34)%	(34)%
State statutory rate	(4)	(4)
Permanent differences	19	6
Net change to valuation allowance	19	32
Effective tax rate	0%	0%

Deferred tax assets and liabilities are determined based on the difference between the financial accounting and tax bases of assets and liabilities. Significant components of the Company's deferred tax assets as of March 31, 2002 are as follows:

Deferred tax assets:	
Net operating loss and research and experimentation credit carry forwards	\$ 870,000
Non qualified stock options and warrants granted	940,000
Loss recorded on investments	90,000
Depreciation	11,000
	<u>1,911,000</u>
Valuation allowance for deferred tax assets	(1,911,000)
Net deferred tax assets	<u>\$ 0</u>

The net increase in the valuation allowance for deferred tax assets in 2002 was \$943,000. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those

differences become deductible. Management considers the scheduled reversal of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment.

At March 31, 2002, the Company has net operating loss carry forwards for U.S. federal and state income tax purposes of approximately \$2,274,000 which expire in varying amounts beginning in the year 2020. Utilization of the net operating losses carried forward will be limited under Section 382 of the Internal Revenue Code as the Company experienced an ownership change greater than 50%. Accordingly, certain net operating losses may not be realizable in future years due to this limitation.
