NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

1. Basis of Consolidated Financial Statement Presentation

The accompanying unaudited consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission and in accordance with the instructions to Form 10-QSB and do not include all the information and footnote disclosures normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America. The information furnished in the interim financial statements includes normal recurring adjustments and reflects all adjustments, which, in the opinion of management, are necessary for a fair presentation of such financial statements. For further information refer to the consolidated financial statements and footnotes thereto included in the Company's most recent audited consolidated financial statements and notes thereto included in its September 30, 2005 annual report on Form 10-KSB. Operating results for the three months ended December 31, 2005 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2006.

2. Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Accounts Receivable

Accounts receivable consist of balances due from sales. The Company monitors accounts receivable and provides allowances when considered necessary. As of December 31, 2005 and September 30, 2005, the Company established an allowance of \$298,200 and \$144,194 respectively.

Investments

Certain investments that management has the intent and ability to hold to maturity are reported at cost, adjusted for amortization of premiums and accretion of discounts that are recognized in interest income using the interest method over the period to maturity.

Marketable and debt securities which management has classified as trading are carried at fair value with net unrealized gains and losses reported in operations. Realized gains and losses on marketable equity and debt securities are recognized upon sale using the specific identification method.

Inventories

Inventories, which consist of raw materials, work-in-process, and finished goods, are stated at the lower of cost or market value, cost being determined using the first in, first out method. Fixed and variable manufacturing costs and overhead are included in the carrying values of finished goods and work-in-process. The Company records reserves for inventory shrinkage and obsolescence, when considered necessary. For the three months ended December 31, 2005 inventory shrinkage and obsolescence reserves decreased \$2,774.

Table of Contents

Property, Plant, And Equipment

Property, plant and equipment are carried at cost. Depreciation is provided over the estimated useful lives of the assets using both the straight-line and accelerated methods. The estimated useful lives used to compute depreciation are as follows:

Buildings and improvements	10 to 30 years
Machinery and equipment	4 to 10 years

The cost of maintenance and repairs is charged to expense as incurred; renewals and betterments are capitalized. When properties are retired or otherwise disposed of, the cost of such properties and the related accumulated depreciation are removed from the accounts. Any profit or loss is credited, or charged to income.

Software Costs

The Company capitalizes certain costs associated with software development in accordance with SFAS No. 86 (FASB No. 86) Accounting for the costs of computer software to be sold, leased, or otherwise marketed. The Company amortizes costs over 10 years, the estimated useful life of the asset.

Customer List

Pursuant to the acquisition of Middleton Pest Control, Inc., the Company recorded Customer List as an intangible asset in the amount of \$10,500,000, which amount was determined pursuant to an independent third-party appraisal. The Company is amortizing the Customer List over its estimated economic life of eight years.

Pursuant to the acquisition of Four Seasons Lawn and Pest Control, Inc. by the Company's subsidiary (Middleton), the Company recorded Customer List as an intangible asset in the amount of \$204,000. The Company is amortizing Customer List over its estimated economic life of 8 years.

Pursuant to the acquisition of Spa Creek Services, LLC D/B/A Pest Environmental by the Company's subsidiary (Middleton), the Company recorded Customer List as an intangible asset in the amount of \$262,000. The Company is amortizing Customer List over its estimated economic life of 8 years.

Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed of

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future undiscounted cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the assets exceeds the fair value. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. There were no assets impaired during the first three months ended December 31, 2005.

Table of Contents

Income (Loss) Per Share

Basic earnings per share amounts are computed by dividing the net income by the weighted average number of common shares outstanding. Diluted earnings per share amounts are computed by dividing net income by the weighted average number of shares of common stock, common stock equivalents, and stock options outstanding during the period.

Revenue Recognition

In the High Frequency Radio and Telephone Communications segments, sales revenues are recorded when products are shipped and title has passed to unaffiliated customers. Installation revenues are considered earned at the time the project is completed. Maintenance contracts are recorded as unearned revenues at the time of collection and are recognized as income monthly over the term of the contract. In the Lawn and Pest Control Services segment, sales revenues are recorded when services are rendered. Interest and dividends earned on investments are recorded when earned.

Advertising Costs

The Company expenses advertising costs as incurred.

Research and Development

Expenditures for research and development are charged to operations as incurred.

Foreign Currency Translation

Telecom's functional currency is the British Pound Sterling, its local currency. Accordingly, balance sheet accounts are translated at exchange rates in effect at the end of the year and income statement accounts are translated at average exchange rates for the year. Translation gains and losses are included as a separate component of stockholders' equity as cumulative translation adjustments. Foreign currency transaction gains and losses are included in other income and expenses.

Comprehensive Income

Comprehensive income is comprised of net income and other comprehensive income. Other comprehensive income includes certain changes in equity that are excluded from net income. At December 31, 2005 and September 30, 2005, accumulated other comprehensive income was comprised of cumulative foreign currency translation adjustments.

5. Earnings Per Common Share

Basic earnings per share amounts are computed by dividing the net income by the weighted average number of common shares outstanding. Diluted earnings per share amounts are computed by dividing net income by the weighted average number of shares of common stock, common stock equivalents, and stock options outstanding during the period.

6. Preferred Stock

At December 31, 2005, the Company had 8,000,000 authorized shares of preferred stock, no par value, that may be issued at such terms and provisions as determined by the board of directors. None are outstanding.

7. Stock Options

During the fiscal year ended September 30, 2005, the shareholders approved the cancellation of the Stock Option Plan, previously adopted by the shareholders at the January 24, 2004 shareholders meeting, and in its place, approved the 2004 Stock Incentive Plan with an aggregate of 800,000 shares of the Company's unissued common stock to be reserved for issuance to employees and non-employee directors. The option price, numbers of shares and grant date are determined at the discretion of the Company's board of directors.

During the quarter ended December 31, 2005, 105,000 stock options were granted at a price of \$5.60 per share.

On January 27, 2006, the Company completed the sale of its securities to investors in a private placement pursuant to purchase agreements, dated December 15, 2005, by and among the Company and the investors of our common stock named therein (the "Purchase Agreements"). Pursuant to the Purchase Agreements, the Company agreed to sell up to an aggregate of 2,857,146 shares of its common stock at a price per share of \$5.25 and warrants to purchase 1,000,000 shares of its common stock (the "Private Placement") at an exercise price of \$6.30 (subject to adjustment). The sale and issuance of the securities closed in two tranches. The first closing was completed on December 16, 2005, pursuant to which the Company issued and sold an aggregate of 2,000,003 shares of its common stock and warrants to purchase 700,000 shares of its common stock. The second closing was completed on January 27, 2006, pursuant to which the Company sold an additional 857,143 shares of its common stock and warrants to purchase 300,000 shares of its common stock.

9. Recent Accounting Pronouncements

In January 2003, the FASB issued Financial Interpretations (FIN) No. 46, Consolidation of Variable Interest Entities , which requires the consolidation of, and disclosures about, variable interest entities (VIEs). VIEs are entities for which control is achieved through means other than voting rights. In December 2003, the FASB revised FIN No 46 to incorporate all decisions, including those in previously issued FASB Staff Positions (FSP), into one Interpretation. The revised Interpretation superseded the original Interpretation. The Company does not have any variable interest entities as defined by FIN No. 46 and therefore the interpretation did not affect the Company s financial position, results of operations or cash flows.

In April 2003, the FASB issued SFAS No. 149, Amendment of Statement No. 133 on Derivative Instruments and Hedging Activities , which is effective for all derivative and hedging activities initiated after June 30, 2003. The Company has no derivative or hedging activities. Therefore, the adoption of Statement No. 149 is not expected to materially affect the Company s financial statements.

In May 2003, the FASB issued SAFS No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity , which is effective for all financial instruments after June 15, 2003. Since the Company has no such financial instruments, the adoption of Statement No. 150 is not expected to materially affect the Company s financial statements.

In December 2004, the FASB issued SFAS No 123 (revised 2004), Share-Based Payment. SFAS No. 123 (R) will require the Company to recognize compensation expense for all stock-based compensation in its consolidated statements of earnings. Pro forma disclosure will no longer be an alternative. SFAS No. 123 (R) will also require the benefits of tax deductions in excess of recognized compensation cost to be reported as a financing cash flow, rather than as an operating cash flow, as required under current guidance. The new requirement will reduce net operating cash flows and increase net financing cash flows in periods after adoption. This statement is effective beginning with the first quarterly or annual reporting period of the fiscal year beginning on or after December 15, 2005.

In November 2004 the FASB issued SFAS No. 151, Inventory Costs. SFAS No. 151 amends the guidance in Accounting Research Bulletin 43, Inventory Pricing, to clarify the accounting for abnormal amounts of idle facility expenses, freight, handling costs and wasted material (spoilage) cost. SFAS No. 151 requires those items to be excluded from the cost of inventory and expensed when incurred. It also requires that the allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. SFAS No. 151 is effective for fiscal years beginning after June 15, 2005. The Company is still evaluating the impact of adopting SFAS No 151, but it does not expect it to have a material impact on its consolidated results of operations or financial position.

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections , a replacement of APB Opinion No. 20 and FASB Statement No. 3. This Statement provides guidance on accounting for reporting of accounting changes and error corrections. This statement is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The Company does not expect the statement to have a material effect on its financial statements.

General:

Sunair Services Corporation (Sunair, the Company, us, we or our) is a Florida corporation organized in 1956. We changed our corporate name from Sunair Electronics, Inc. to Sunair Services Corporation in November, 2005. We operate through three business segments: Lawn and Pest Control Services; High Frequency Radio and Telephone Communications.

Our Lawn and Pest Control Services segment provides lawn care and pest control services to both residential and commercial customers.

Our High Frequency Radio segment designs, manufactures and sells high frequency single sideband communications equipment and develops software and performs the design, integration testing and documentation of Communications, Command, Control, Computers, Intelligence, Surveillance and Reconnaissance, or C⁴ISR, systems utilized for long range voice and data communications in fixed station, mobile and marine for military and governmental applications.

Our Telephone Communications segment installs and maintains telephony and fixed wireless systems.

The Lawn and Pest Control Services Segment

On February 8, 2005, we closed a transaction with Coconut Palm Capital Investors II, Ltd. (Coconut Palm), which we entered into on November 17, 2004. Coconut Palm purchased from us 5,000,000 Units for an aggregate purchase price of \$25 million. Each Unit consisted of (i) one share of our common stock, (ii) one warrant to purchase one share of our common stock at an exercise price of \$6.00 per share with a term of three years and (iii) one warrant to purchase one share of our common stock at an exercise price of \$7.00 per share with a term of five years. In connection with the investment by Coconut Palm, we formed a new Lawn and Pest Control Services segment for future acquisitions.

The Lawn and Pest Control Services segment acquired its first company on June 7, 2005, through the acquisition by our subsidiary, Sunair Southeast Pest Holdings, Inc., of all of the outstanding capital stock of Middleton Pest Control, Inc. (Middleton). The aggregate purchase price for the outstanding capital stock of Middleton was \$50 million, which was comprised of: (i) \$35.0 million in cash; (ii) \$5.0 million in the form of a subordinated promissory note; and (iii) 1,028,807 shares of our common stock. On July 29, 2005, Middleton acquired substantially all of the assets of Four Season Lawn and Pest Control, Inc. for approximately \$1.4 million in cash. In addition, on December 20,

2005, Middleton acquired Spa Creek Services, LLC D/B/A Pest Environmental (Spa Creek), a pest control and termite services company located in Central Florida for a purchase price of approximately \$5.5 million in cash.

On January 27, 2006, we completed the sale of our securities to investors in a private placement pursuant to purchase agreements, dated December 15, 2005, by and among us and the investors of our common stock named therein (the Purchase Agreements). Pursuant to the Purchase Agreements, we agreed to sell up to an aggregate of 2,857,146 shares of our common stock at a price per share of \$5.25 and warrants to purchase 1,000,000 shares of our common stock (the Private Placement) at an exercise price of \$6.30 (subject to adjustment) with total gross proceeds (before fees and expenses) to us of approximately \$15 million and net proceeds to us of approximately \$13.8 million.

The sale and issuance of our securities closed in two tranches. The first closing was completed on December 16, 2005, pursuant to which we issued and sold an aggregate of 2,000,003 shares of our common stock and warrants to purchase 700,000 shares of our common stock. The second closing was completed on January 27, 2006, pursuant to which we sold an additional 857,143 shares of our common stock and warrants to purchase 300,000 shares of our common stock.

We plan to use the proceeds from the sale of our common stock in the Private Placement to fund acquisitions that have operations in the lawn and pest control services sector. We plan initially to focus on acquisitions in the southeastern United States including Alabama, Georgia, Louisiana, Mississippi and Florida, but will consider additional super regional acquisitions in other geographic areas. Ultimately, we anticipate that with the formation of our new Lawn and Pest Control Services segment, we no longer will operate solely through our traditional High Frequency Radio segment. Furthermore, as we are able to grow our Lawn and Pest Control Services segment through acquisitions and, eventually through internal organic growth, we contemplate that this new division will become our dominant operation. Accordingly, if we are successful in implementing this strategy, it will represent a fundamental shift in the nature of our business.

Liquidity:

For the quarter ended December 31, 2005, we had positive cash flow from operations of \$321,848 due to increases in depreciation and amortization and decreases due to deferred taxes, accounts payable and accrued expenses. The primary reason for these increases was due to the acquisitions made in the Lawn and Pest Control Services segment. Cash flow from operations was negatively impacted by our net loss of \$(364,543).

Cash flows used by investing activities for the quarter ended December 31 2005 were \$5,986,024 which consisted primarily of costs incurred in the acquisition of Spa Creek. Costs were also incurred in the purchase of property, plant and equipment as well as software development costs.

Cash flows provided by financing activities for the quarter ended December 31, 2005 were \$5,921,960 provided by proceeds from the sale of common stock, less the repayment of a portion of the line of credit and costs associated with the sale of common stock.

During the quarter ended December 31, 2005, we had short term investments and cash or cash equivalents more than adequate to cover known requirements, unforeseen events or uncertainties that might occur. Our known requirements consist of normal operating expenses. During this three month period, cash and cash equivalents had an average balance of \$3,350,000 as opposed to an average balance of \$4,162,000 for the three months ending December 31, 2004. Cash equivalents are money market funds that are readily available for immediate use should the occasion arise. It is anticipated that we will remain as liquid during fiscal 2006. Our current ratio as of December 31, 2005 was 2.0 compared to 2.0 as of September 30, 2005.

We record reserves for inventory shrinkage and obsolescence, when considered necessary. For the quarter just ended inventory shrinkage and obsolescence reserves decreased \$2,774 as compared to an increase of \$25,493 for the same period one year ago due to a decrease in the write down of obsolete and discontinued products. Accounts receivable consist of balances due from sales. We monitor accounts receivable and provide allowances when considered necessary. As of December 31, 2005, we established an allowance of \$298,200. As of December 31, 2004 we established an allowance of \$48,485.

Non-cash interim reserves are maintained to cover items such as warranty repairs in process and other charges that may be in dispute. No letters of credit involve foreign exchange.

Capital Resources:

During the first quarter of fiscal 2006, \$161,289 was spent for Capital Assets. These funds were primarily used for leasehold improvements and equipment. No expenditures are contemplated for extensive maintenance in fiscal 2006. Liabilities consist of current accounts payable, accrued expenses related to the current accounting period, customer deposits, and the current and long-term portion of notes payable.

We have a revolving line of credit with a financial institution. The maximum credit limit is \$20,000,000. Interest is compounded daily based upon the London Interbank Offering Rate (LIBOR) plus a variable percentage based on the leverage ratio. The interest rate at December 31, 2005 was approximately 7.25%. The revolving line of credit has a commitment fee in the amount of .375% per annum on the average daily unused amount of the aggregate revolving committed amount. The revolving line of credit requires us to maintain specified financial ratios regarding leverage, interest coverage and EBITDA. The revolving line of credit also places certain restrictions on, among other things, our ability to create or incur indebtedness, pay or make dividends or other distributions, create or permit certain liens, enter into transactions with affiliates and merge or consolidate with other entities. The revolver line expires on June 7, 2007. The balance due on the line was \$8,500,000 at December 30, 2005.

Results of Operations:

First Quarter of Fiscal 2006 Compared to First Quarter of Fiscal 2005

During the first quarter ended December 31, 2005, sales of \$12,965,990 were up 154.5% or \$7,872,002 from the same quarter one year ago. Of those, sales of \$9,456,794 or 72.9% was attributed to the new Lawn and Pest Control Services segment. \$1,740,404 or 13.4% was attributed to the High Frequency Radio segment, and \$1,768,792 or 13.6% was attributed to the wholly owned subsidiaries of Percipia and Telecom, in the Telephone Communications segment.

Sales in the High Frequency Radio segment are non-recurring, and because we completed fewer contracts in the first quarter of fiscal 2006 than in the first quarter of fiscal 2005, sales in this segment decreased to \$1,740,404 in the first quarter of fiscal 2006 from \$2,534,507 in the first quarter of fiscal 2005.

Sales in the Telephone Communications segment decreased to \$1,768,792 in the first quarter of fiscal 2006 from \$2,559,481 in the first quarter of fiscal 2005 due to customer returns to Telecom of defective equipment. Telecom returned the defective equipment to the manufacturer for replacement. The defect has been corrected and normal shipments by Telecom are expected to commence at the beginning of the third quarter of fiscal 2006.

Backlog for the High Frequency Radio and Telephone Communications segments of \$3,222,000 was lower at December 31, 2005 compared to \$6,537,000 at December 31, 2004, due in part to the decrease in sales in the High Frequency Radio segment, which temporarily depleted backlog, offset by increases in backlog at Percipia.

Cost of sales was lower at 40.7% of sales in the first quarter of fiscal 2006 as compared to 55.0% of sales in the first quarter of fiscal 2005. This decrease is primarily due to the addition of the Lawn and Pest Control Services segment which has lower costs than the High Frequency Radio and Telephone Communications segments. Cost of sales for the Lawn and Pest Control Services segment was \$3,091,756 or 32.7%. Cost of sales for the High Frequency Radio segment was \$1,072,069 or 61.6% and cost of sales for the Telephone Communications segment was \$1,108,470 or 62.7%. Inventories increased 9.9% or \$683,887 from the same period one year ago primarily due to increases in inventories received from the acquisitions in the Lawn and Pest Control Services segment which were greater than the reductions realized by the other segments. We continue our efforts to reduce inventories to lower levels.

Selling, general and administrative expenses increased 345.6% or \$6,188,650 due to the expenses incurred by the newly created home office and overhead associated with increased legal expenses, the acquisition of Middleton and Four Seasons Lawn and Pest Control, Inc. in June and July of fiscal 2005 and Spa Creek in the first quarter of fiscal 2006, and the amortization of customer lists associated with our acquisition of Middleton, Four Seasons Lawn and Pest Control, Inc. and Spa Creek. Expenses continue to be incurred for expanded market exposure and increased product applications.

Interest income decreased \$19,108 due to funds used for investments in the Lawn and Pest Control Services segment. Interest expense was incurred on obligations incurred on the purchase of Middleton and for the establishment and use

of the line of credit. Other income decreased slightly as there was reduced activity in this area for fiscal 2006. For the first quarter of fiscal 2006, we incurred net loss of \$(364,543) as compared to net income of \$372,405 for the first quarter of fiscal 2005 for the reasons described above.

Item 3. Controls and Procedures

(a) Evaluation of disclosure controls and procedures. The term disclosure controls and procedures is defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, or the Exchange Act. This term refers to the controls and procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files under the Exchange Act is recorded, processed, summarized and reported within required time periods. Our Chief Executive Officer and our Chief Financial Officer have concluded, based on their evaluation as of December 31, 2005, that our disclosure controls and procedures are effective.

(b) Changes in internal control over financial reporting. There have been no changes in our internal control over financial reporting during the quarter ended December 31, 2005 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
