**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Plan Administrator of  
AutoNation 401(k) Plan  
Fort Lauderdale, Florida

We have audited the accompanying statements of net assets available for benefits of AutoNation 401(k) Plan ( the Plan ) as of December 31, 2006 and 2005, and the related statement of changes in net assets available for benefits for the year ended December 31, 2006. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2006 and 2005, and the changes in net assets available for benefits for the year ended December 31, 2006 in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year), is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic 2006 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic 2006 financial statements taken as a whole.

AUTONATION  
401(k) PLAN  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2006 and 2005

**NOTE 1 DESCRIPTION OF PLAN**

**General:** The following description of the AutoNation 401(k) Plan, as amended through December 31, 2006 ( the Plan ), is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan.

The Plan was established effective January 1, 1994 to provide benefits to all eligible employees of AutoNation, Inc. ( the Company , formerly Republic Industries, Inc.) The Plan is a defined contribution plan with a cash or deferred arrangement under Section 401(k) of the Internal Revenue Code of 1986, as amended ( IRC ). The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended ( ERISA ). The Employee Benefits Committee, which consists of members of the Company s senior management, is designated as the Plan Administrator.

Although it has expressed no intention to do so, the Company retains the right, if necessary, to terminate the Plan. In the event of the Plan s termination, all amounts credited to participants accounts become fully vested subject to the requirements of ERISA. The Company also retains the right to amend the Plan.

**Eligibility:** Under the terms of the Plan, most employees who are at least 18 years of age are eligible to participate in the Plan immediately upon the date of hire with the Company. However, effective October 1, 2001, any employees employed by the Company after that date due to a business acquisition will not be eligible to participate in the Plan until the first day of the month coincident with or next following three months of service.

The Plan also includes a provision to allow employees of certain subsidiaries of the Company to be eligible for participation in the Plan under these requirements.

**Participant Accounts:** Individual accounts are maintained for each of the Plan s participants to reflect the participant s contributions and related employer matching contributions, as well as the income attributable to the participant s account.

**Contributions and Funding Policy:** Under the provisions of the Plan, participants may direct the Company to defer a portion of their compensation to the Plan, subject to a minimum of 1% and effective January 1, 2006 a maximum of 25% of eligible compensation, as defined by the Plan. Prior to January 1, 2006, participants were allowed to defer a maximum of 15%. In 2006, the Plan allowed a participant to direct up to 10% of their contribution to be invested in shares of the Company s common stock. Amounts contributed by participants are fully vested when made. In 2006 and 2005, each eligible participant could contribute up to \$15,000 and \$14,000, respectively, subject to other applicable IRC limitations. The Plan also allowed participants that had attained age 50 to make additional contributions to the Plan of up to \$5,000 and \$4,000 for the years ended December 31, 2006 and 2005, respectively. Effective January 1, 2006, the 401(k)

contributions of Highly Compensated Employees are limited to 4% of eligible compensation. The Plan allows for rollovers of vested contributions from previous employers' qualified plans.

The Company makes an employer matching contribution of \$.50 for each \$1 of employee contributions up to 2% of the employee's eligible compensation, except for those employees eligible for a matching contribution under a non-qualified deferred compensation plan. This contribution is made for each payroll period by the Company to all participants who are credited with at least one year of service. A participant becomes fully vested in the employer match immediately upon contribution. The employer match is invested in shares of the Company's common stock. Participants are not able to re-direct these contributions until they have completed three years of service with the Company and, as such, these investments are non-participant directed. The employer matching contribution for 2006 was \$5,207,003.

The Company may also make a discretionary contribution to the Plan. The Company did not make a discretionary contribution to the Plan for the 2006 Plan year.

In no event will an attained vesting percentage be curtailed due to any subsequent amendments to vesting provisions.

**Loan to Participants:** The Plan does not permit participant loans. However, the Plan accepts and services loans transferred from the plans of acquired companies.

**Investments:** The Company entered into an agreement whereby Merrill Lynch Trust Company (the Trustee) has been appointed the trustee of the Plan's assets. Under the terms of the agreement, the Trustee holds and invests the funds of the Plan subject to the direction of the Employee Benefits Committee.

The Plan provided the following investment alternatives for participants in 2006.

401(k) PLAN  
NOTES TO FINANCIAL STATEMENTS  
December 31, 2006 and 2005

**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**Investment Valuation and Income Recognition:** The Plan's investments are stated at fair value. The fair value of the Plan's interests in the common collective trust fund is based upon the net asset values of such funds reflecting all investments at fair value, including indirect interests in fully benefit-responsive contracts, as reported by the Plan trustee. The fair values of the investment contracts have been estimated with a discounted cash flows methodology, utilizing current rates of return available for similar contracts, with comparable credit risks, as of the respective financial statement dates. Quoted market prices are used to value mutual fund and common stock investments. Participant loans are stated at cost, which approximates fair value. Purchases and sales of investments are recorded on a trade-date basis. The Plan records dividends on the ex-dividend date.

**Risks and Uncertainties:** The Plan provides for various investment options. The underlying investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risk in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits. At December 31, 2006 and 2005, approximately 16% and 19% of the Plan's assets were invested in AutoNation, Inc. common stock, respectively.

**Adoption of New Accounting Standard:** The Plan retroactively adopted Financial Accounting Standards Board (FASB) Staff Position AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by the Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP) in 2006. Pursuant to the adoption of the FSP, fully benefit-responsive investment contracts included in the underlying investments of a common collective trust fund in which the Plan holds an interest are to be presented at fair value. In addition, any material difference between the fair value of these investments and their contract value is to be presented as a separate adjustment line in the statement of net assets available for benefits. Management has determined that the estimated fair value of the Plan's indirect investments in fully benefit-responsive contracts as of December 31, 2006 and 2005 approximates contract value, and any difference between fair value and contract value is immaterial. As a result, the adoption of the FSP would have no material impact on the statement of net assets available for benefits as of December 31, 2006 and 2005. Accordingly, management determined that no adjustment will be made as a result of adoption of the FSP.
