Item 5. Other Events and Regulation FD Disclosure

On April 12, 2004, Pacific Gas and Electric Company's (Utility) plan of reorganization (Plan) under Chapter 11 of the U.S. Bankruptcy Code became effective. Although the Utility's operations will no longer be subject to the oversight of the U.S. Bankruptcy Court for the Northern District of California (Bankruptcy Court) where its Chapter 11 case was pending, the Bankruptcy Court will retain jurisdiction to hear and determine disputes arising in connection with the interpretation, implementation or enforcement of (i) the nine-year settlement agreement between the Utility, PG&E Corporation and the California Public Utilities Commission, (ii) the Plan, or (iii) the Bankruptcy Court's confirmation order.

Upon the effectiveness of the Plan, the Utility paid approximately \$8.4 billion in cash to holders of allowed claims under the Plan and deposited approximately \$1.8 billion into escrow accounts for the payment of disputed claims. Funds for these payments came from the proceeds of the Utility's public offering of approximately \$6.7 billion of first mortgage bonds, \$0.3 billion under an accounts receivable financing facility, \$0.8 billion funded by term loans, and \$2.4 billion from cash on hand.

In addition approximately \$814 million in debt consisting of pollution control bonds that were previously issued for the benefit of the Utility was reinstated and the Utility paid approximately \$93 million in preferred stock dividends and sinking fund payments that were in arrears. The Utility's various series of preferred stock remain outstanding. The preferred stock has an aggregate par value of \$421 million, excluding the par value of preferred stock that will be redeemed on April 12, 2004.
