2

PART I

ITEM 1. BUSINESS

The Lubrizol Corporation was organized under the laws of Ohio in 1928. The company began business as a compounder of special-purpose lubricants, and in the early 1930's was among the first to commence research in the field of lubricant additives. Today, the company is a global fluid technology company concentrating on high-performance chemicals, systems and services for industry and transportation. The company develops, produces and sells specialty additive packages and related equipment used in transportation and industrial finished lubricants. The company's products are created through the application of advanced chemical and mechanical technologies to enhance the performance, quality and value and reduce the environmental impact of the customer products in which they are used. The company groups its product lines into two operating segments: chemicals for transportation and chemicals for industry.

PRINCIPAL PRODUCTS. Chemicals for transportation is comprised of additives for lubricating engine oils, such as those used in gasoline, diesel, marine and stationary gas engines and additive components; additives for driveline oils, such as automatic transmission fluids, gear oils and tractor lubricants; and additives for fuel products and refinery and oil field chemicals. In addition, the company sells additive components and viscosity improvers within its lubricant and fuel additives product lines. Chemicals for industry includes industrial additives, such as additives for hydraulic fluids, metalworking fluids and compressor lubricants; performance chemicals, such as additives for coatings and inks and process chemicals; and performance systems, comprised principally of fluid metering devices and particulate emission trap devices.

Revenues within the chemicals for transportation segment comprised 82%, 83% and 84% of consolidated revenues in 2000, 1999 and 1998, respectively. Additives for lubricating engine oils comprised 53%, 53% and 52% of consolidated revenues in 2000, 1999 and 1998, respectively. Additives for driveline oils comprised 23%, 23% and 24% of consolidated revenues for these same respective periods. Further financial information for the company's operating segments is contained in Note 12 to the Financial Statements, which is included in the company's 2000 Annual Report to its shareholders and is

Edgar Filing: LUBRIZOL CORP - Form 10-K405

incorporated herein by reference.

Additives improve the lubricants and fuels used in cars, trucks, buses, off-highway equipment, marine engines and industrial applications. In lubricants, additives enable oil to withstand a broader range of temperatures, limit the buildup of sludge and varnish deposits, reduce wear, inhibit the formation of foam, rust and corrosion, and retard oxidation. In fuels, additives help maintain efficient operation of the fuel delivery system, help control deposits and corrosion, improve combustion and assist in preventing decomposition during storage.

Due to the variety of oil properties and applications, a number of different chemicals are used to formulate the company's products. Each additive combination is designed to fit the characteristics of the customer's base oil and the level of performance specified. Engine oils for passenger cars contain a combination of chemical additives which usually includes one or more detergents, dispersants, oxidation inhibitors and wear inhibitors, pour point depressants and viscosity improvers. Other chemical combinations are used in specialty additive systems for heavy duty engine oils used by trucks and off-highway equipment and in formulations for gear oils, automatic transmission fluids, industrial oils, metalworking fluids, and gasoline, diesel and residual fuels.

-2-

3

The company's performance systems products principally involve products used in emission controls, such as catalyst, exhaust and filter systems and precision metering devices used in blending and additive injection operations.

COMPETITION. The company's chemicals for transportation segment and chemicals for industry segment are highly competitive in terms of price, technology development, product performance and customer service. The company's principal competitors within its chemicals for transportation segment, both in the United States and overseas, are Infineum, a joint venture involving two major petroleum companies (Shell Oil Company and Exxon Mobil Corporation); Chevron Oronite Company, a subsidiary of Chevron Corporation, a major petroleum company; and one chemical company (Ethyl Corporation). The petroleum companies either directly or indirectly produce lubricant and fuel additives for their own use and also sell additives to others. These petroleum companies are also customers of the company and may also sell base oil to the company. The company believes, based on volume sold, that it is the largest supplier to the petroleum industry of performance additive packages for lubricants.

CUSTOMERS. In the United States, the company markets its chemicals for transportation and chemicals for industry products through its own sales organization. The company's additive customers consist primarily of oil refiners and independent oil blenders and are located in more than 100 countries. In 2000, approximately 43% of the company's consolidated sales were made to customers in North America, 30% to customers in Europe and the Middle East and 27% to customers in Asia-Pacific and Latin America. The company's ten largest customers, most of which are international oil companies and a number of which are groups of affiliated entities, accounted for approximately 48% of consolidated sales in 2000. The loss of one or more of these customers could have a material adverse effect on the company's business. Exxon Mobil

Edgar Filing: LUBRIZOL CORP - Form 10-K405

Corporation, together with its affiliates, has been the company's largest customer within its chemicals for transportation segment during the past two years, comprising 11% of consolidated sales in 2000 and 12% in 1999. Mobil Corporation and Exxon Corporation completed a merger during the latter part of 1999, and the 1999 percentage includes sales to Mobil, Exxon and their affiliates prior to the merger as well as sales to the combined entity, Exxon Mobil Corporation, following the consummation of the merger. Sales to Mobil Corporation comprised 9% of consolidated sales in 1998. The company's chemicals for industry segment is not materially dependent on a single customer or on a few customers.

RAW MATERIALS. The company utilizes a broad variety of chemical raw materials in the manufacture of its additives and uses oil in processing and blending additives. These materials are obtainable from several sources, and for the most part are derived from petroleum. Political and economic conditions in the Middle East have, in the past, caused and may continue to cause the cost of raw materials to fluctuate significantly; however, the availability of raw materials to the company has not been significantly affected when these conditions occurred. The company expects raw materials to be available in adequate quantities during 2001.

RESEARCH, TESTING AND DEVELOPMENT. The company has historically emphasized research and has developed a large percentage of the additives it manufactures and sells. Technological developments in the design of engines and other automotive equipment, combined with rising demands for environmental protection and fuel economy, require increasingly sophisticated chemical additives to meet industry performance standards. The frequency of changes in industry performance affects the company's technical spending patterns.

-3-

4

Consolidated research and development expenditures were \$86.4 million in 2000 and \$78.3 million in 1999 and 1998. These amounts were equivalent to 4.9%, 4.4% and 4.7% of the respective revenues for such years. These amounts include expenditures for the performance evaluation of additive developments in engines and other types of mechanical equipment as well as expenditures for the development of specialty chemicals for industrial applications. In addition, \$64.4 million, \$67.7 million and \$72.7 million was spent in 2000, 1999 and 1998, respectively, for technical service (testing) activities, principally for evaluation in mechanical equipment of specific lubricant formulations designed for the needs of petroleum industry customers throughout the world.

Research, testing and development expenditures by operating segment were as follows (in thousands of dollars):

	2000 -----	1999 -----
Research and development expenditures:		
Chemicals for transportation	\$71,884	\$66,268

Edgar Filing: LUBRIZOL CORP - Form 10-K405

Chemicals for industry	14,511	11,984
	-----	-----
Total	\$86,395	\$78,252
	=====	=====
Testing expenditures:		
Chemicals for transportation	\$55,998	\$58,978
Chemicals for industry	8,412	8,697
	-----	-----
Total	\$64,410	\$67,675
	=====	=====

The company has two research facilities at Wickliffe, Ohio, one of which is principally for lubricant additive research and the other for research in the field of other specialty chemicals. The company also maintains a mechanical testing laboratory at Wickliffe, equipped with a variety of gasoline and diesel engines and other mechanical equipment to evaluate the performance of additives for lubricants and fuels. The company has similar mechanical testing laboratories in England and Japan and, in addition, makes extensive use of independent contract research firms. Extensive field testing is also conducted through various arrangements with fleet operators and others.

Liaison offices in Detroit, Michigan; Hazelwood, England; Hamburg, Germany; Tokyo, Japan; and Paris, France, maintain close contact with the principal automotive and equipment manufacturers of the world and keep the company abreast of the performance requirements for its products in the face of changing technologies. These liaison activities also serve as contacts for cooperative development and evaluation of products for future applications. Contacts with the automotive and equipment industry are important so that the company may have the necessary direction and lead time to develop products for use in engines, transmissions, gear sets, and other areas of equipment that require lubricants of advanced design.

PATENTS. The company owns a variety of United States and foreign patents relating to lubricant and fuel additives, lubricants, chemical compositions and processes, and protective coating materials and processes. While such domestic and foreign patents expire from time to time, the company continues to apply for and obtain patent protection on an ongoing basis. Although the company believes that, in the aggregate, its patents constitute an important asset, it does not regard its business as being materially dependent upon any single patent or any group of related patents.

The company previously filed claims against Exxon Corporation and its affiliates ("Exxon") relating to various commercial matters, including alleged infringements by Exxon of certain of the company's patents. On October 12, 2000, the company reached a settlement of all pending patent litigation with Imperial Oil Limited, a Canadian affiliate of Exxon Mobil Corporation. Further information regarding litigation with Exxon is contained in Note 16 to the Financial Statements, which is included in the company's 2000 Annual Report to its shareholders, and is incorporated herein by reference.

ENVIRONMENTAL MATTERS. The company is subject to federal, state and local laws and regulations designed to protect the environment and limit manufacturing wastes and emissions. The company believes that as a general matter its policies, practices and procedures are properly designed to prevent

Edgar Filing: LUBRIZOL CORP - Form 10-K405

unreasonable risk of environmental damage and the consequent financial liability to the company. Compliance with the environmental laws and regulations requires continuing management effort and expenditures by the company. Capital expenditures for environmental projects were \$2.6 million in 2000, which represented 3.0% of 2000 capital expenditures. The company believes that the cost of complying with environmental laws and regulations will not have a material affect on the earnings, liquidity or competitive position of the company.

The company is engaged in the handling, manufacture, use, transportation and disposal of substances that are classified as hazardous or toxic by one or more regulatory agencies. The company believes that its handling, manufacture, use, transportation and disposal of such substances generally have been in accord with environmental laws and regulations.

Among other environmental laws, the company is subject to the federal "Superfund" law, under which the company has been designated as a "potentially responsible party" that may be liable for cleanup costs associated with various waste sites, some of which are on the U.S. Environmental Protection Agency Superfund priority list. The company's experience, consistent with what it believes to be the experience of others in similar cases, is that Superfund site liability tends to be apportioned among parties based upon contribution of materials to the Superfund site. Accordingly, the company measures its liability and carries out its financial reporting responsibilities with respect to Superfund sites based upon this standard, even though Superfund site liability is technically joint and several in nature. The company views the expense of such remedial cleanups as a part of its product cost, and accrues for estimated environmental liabilities with charges to cost of sales. The company considers its environmental accrual to be adequate to provide for its portion of costs for all such known environmental liabilities. Based upon consideration of currently available information, the company believes liabilities for environmental matters will not have a material adverse affect on the company's financial position, operating results or liquidity.

EMPLOYEES. At December 31, 2000, the company and its subsidiaries had 4,390 employees of which approximately 54% were in the U.S.

INTERNATIONAL OPERATIONS. Financial information with respect to domestic and foreign operations is contained in Note 12 to the Financial Statements which is included in the company's 2000 Annual Report to its shareholders, and is incorporated herein by reference.

The company supplies its additive customers abroad through export from the United States and from overseas manufacturing plants. Sales and technical service offices are maintained in more than 30 countries outside the United States. As a result, the company is subject to business risks inherent in non-U.S. activities, including political and economic uncertainty, import and export limitations and market risk related to changes in interest rates and foreign currency exchange rates. The company believes the political and economic risks related to its foreign operations are mitigated due to the stability of the countries in which its largest foreign operations are located.

While changes in the U.S. dollar value of foreign currencies will affect earnings from time to time, the longer-term economic effect of these changes should not be significant given the company's net asset exposure, currency mix and use of U.S. dollar-based pricing in certain countries. The company's consolidated net income will generally benefit as foreign currencies increase in value compared to the U.S. dollar and will generally decline as foreign currencies decrease in value.

ITEM 2. PROPERTIES

The general offices of the company are located in Wickliffe, Ohio. The company has various leases for general office space primarily located in Anaheim, California; Houston, Texas; Naperville, Illinois; Wilmington, Delaware; Southfield, Michigan; and London, England. The company leases office and laboratory space in Spartanburg, South Carolina. The company owns three additive manufacturing plants in the United States; one located in the Cleveland, Ohio area, at Painesville, and two near Houston, Texas, at Deer Park and Bayport. Outside the United States, the company owns additive manufacturing/blending plants in Australia, Brazil, Canada, England, France (three locations), Japan, South Africa and Singapore. All of these plants, other than Singapore, are owned in fee. In Singapore, the company owns the plant but leases the land on which the plant is located. The company owns in fee research, development and testing facilities in Wickliffe, Ohio; Hazelwood, England; and Atsugi, Japan. The company also owns in fee a facility in Midland, Michigan, at which air and refrigeration compressor lubricants are developed and marketed; manufacturing plants in Countryside, Illinois; Mountaintop, Pennsylvania; and Germany that manufacture performance specialty chemical additives for the coatings and specialty metalworking fluid and industrial lubricant markets; a manufacturing plant in Atlanta, Georgia, that manufactures fluid metering devices; manufacturing plants in Newmarket and London, Ontario, Canada, and Reno, Nevada, that manufacture particulate emission control devices; a manufacturing plant in Fareham, Hampshire, England, that manufactures additive injection equipment; and a manufacturing plant in Fountain Inn, South Carolina, that manufactures antifoam and defoaming agents to the coatings, inks, textile, food and metalworking industries. The company leases space in Countryside, Illinois, at which specialty chemical additives for the coatings and specialty metalworking fluid and industrial lubricant markets are manufactured.

Additive manufacturing/blending plants in India, Saudi Arabia, and China are owned and operated by joint venture companies licensed by Lubrizol. Lubrizol's ownership of each of these companies ranges from 49% to 50.05%.

The company has entered into long-term contracts for its exclusive use of major marine terminal facilities at the Port of Houston, Texas. In addition, Lubrizol has leases for storage facilities in Australia, Chile, Denmark, Ecuador, England, Finland, France, Holland, Singapore, Spain, South Africa, Sweden and Turkey; Los Angeles, California; St. Paul, Minnesota; Bayonne, New Jersey; and Tacoma, Washington. In some cases, the ownership or leasing of such facilities is through certain of its subsidiaries or affiliates.

The company maintains a capital expenditure program to support its operations and believes its facilities are adequate for its present operations and for the foreseeable future.

ITEM 3. LEGAL PROCEEDINGS

The company and its subsidiaries are not defendants in any material pending legal proceeding other than ordinary routine litigation incidental to the business.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to the vote of the security holders during the three months ended December 31, 2000.

EXECUTIVE OFFICERS OF THE REGISTRANT

The following sets forth the name, age, recent business experience and certain other information relative to each person who is an executive officer of the company as of March 1, 2001.

Name -----	Business Experience -----
W. G. Bares	Mr. Bares, age 59, became Chairman of the Board on April 22, 1996, and Chief Executive Officer on January 1, 1996. He has been President since 1982.
J. R. Ahern	Mr. Ahern, age 54, has been Controller - Accounting and Financial Reporting and Principal Accounting Officer since April 26, 1999. From 1993 to April 1999 he was Controller - Operations.
J. W. Bauer	Mr. Bauer, age 47, has been Vice President and General Counsel since April 1992.
D. W. Bogus	Mr. Bogus, age 53, joined the company and became Vice President in May, 2000. Prior to joining the company, he was with PPG Industries, Inc., where he was Vice President of Governmental Affairs from May 1999 to February 2000, Vice President-Packaging Coatings from October 1998 to May 1999, Vice President-Industrial Coatings from September 1996 to October 1998, and Vice President of Specialty Coatings from January 1991 to September 1996.
C. P. Cooley	Mr. Cooley, age 45, joined the company and became Vice President, Treasurer and Chief Financial Officer in April 1998. In June 1998 he also became responsible for Corporate Strategic Planning. Prior to joining the company, he was Assistant Treasurer - Corporate Finance at Atlantic Richfield Company.
S. A. Di Biase	Dr. Di Biase, age 48, has been Vice President since September 1993. He is responsible for Research and Development.
J. L. Hambrick	Mr. Hambrick, age 46, was elected Vice President responsible for managing corporate

Edgar Filing: LUBRIZOL CORP - Form 10-K405

strategies in the Asia Pacific region in May, 2000. From October 1998 to April 2000 he was global business manager - engine oils. From January 1994 to September 1998 he was FSU and China business development manager.

G. R. Hill

Dr. Hill, age 59, has been Senior Vice President since 1988. He has been responsible for Business Development since October 1993. From 1996 to June 1998 he was also responsible for Corporate Strategic Planning.

J. E. Hodge

Mr. Hodge, age 58, has been Vice President since September 1993. He is responsible for Operations.

K. H. Hopping

Mr. Hopping, age 54, has been Vice President and Secretary of the Corporation since April 1991.

-7-

8
Name

Business Experience

S. F. Kirk

Mr. Kirk, age 51, has been Vice President since September 1993. On January 1, 1999, he became responsible for Sales and Marketing. From April 1996 to January 1, 1999, he was responsible for Sales. From 1993 to April 1996, he was responsible for Segment Management.

Y. Le Couedic

Mr. Le Couedic, age 53, has been Vice President since September 1993. He is responsible for Management Information Systems.

G. P. Lieb

Mr. Lieb, age 48, has been Controller - Commercial Analysis and Support since April 26, 1999. From 1993 to April 1999 he was Controller - Accounting and Financial Reporting. From 1994 to April 1999 he was also Principal Accounting Officer.

M. W. Meister

Mr. Meister, age 46, has been Vice President since April 1993, and was named Chief Ethics Officer in April 1998. He is responsible for Human Resources.

L. M. Reynolds

Ms. Reynolds, age 40, was named Assistant Secretary in April 1995, and has been Counsel since February 1991.

R. D. Robins

Dr. Robins, age 58, became Vice President in April 1996. Since January 1, 1999, he has

Edgar Filing: LUBRIZOL CORP - Form 10-K405

been responsible for Performance Systems functions. From April 1996 to January 1999, he was responsible for Segment Management. From October 1993 to April 1996 he was Passenger Car Segment Manager.

All executive officers serve at the pleasure of the Board.

-8-

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS.

The common shares of the company are listed on the New York Stock Exchange under the symbol LZ. The number of shareholders of record of common shares was 4,628 as of March 2, 2001.

Information relating to the recent price and dividend history of the company's common shares follows:

	Common Share Price History				Divide ----- Per Common -----
	2000 ----		1999 ----		
	High ----	Low ---	High ----	Low ---	2000 -----
1st quarter	\$33 1/2	\$23 3/4	\$26 7/8	\$18	\$.26
2nd quarter	28 1/16	21	30 3/4	21 3/8	.26
3rd quarter	24 1/8	18 9/16	29 11/16	24 3/8	.26
4th quarter	26	19 1/16	31 3/8	23	.26

					\$1.04
					=====

ITEM 6. SELECTED FINANCIAL DATA.

The summary of selected financial data for each of the last five years included in the Historical Summary contained on pages 42 and 43 of the company's 2000 Annual Report to its shareholders is incorporated herein by reference. Other income for 2000 includes a litigation settlement gain of \$19.4 million and credits of \$4.5 million for adjustments to the second program of the company's cost reduction initiative. Other income (charges) for 1999 includes litigation settlement gains of \$17.6 million and special charges of \$19.6 million for the second program of the company's cost reduction initiative and

Edgar Filing: LUBRIZOL CORP - Form 10-K405

adjustments to the first program of the company's cost reduction initiative. Other income (charges) for 1998 includes litigation settlement gain of \$16.2 million and special charges of \$23.3 million for the first program of the company's cost reduction initiative and of \$13.6 million for the write-off of purchased technology under development resulting from the acquisition of Adibis. Other income (charges) for 1996 includes \$53.3 million for gain on sale of investments.

Total debt reported in the Historical Summary includes the following amounts classified as long-term at December 31: \$378.8 in 2000, \$365.4 in 1999, \$390.4 million in 1998, \$182.2 million in 1997 and \$157.6 million in 1996.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The Management's Discussion and Analysis of Financial Condition and Results of Operations, including the company's cautionary statement for "safe harbor" purposes under the Private Securities Litigation Reform Act of 1995, contained on pages 14 through 23, inclusive, of the company's 2000 Annual Report to its shareholders is incorporated herein by reference.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

The information appearing under the caption "Quantitative and Qualitative Disclosures about Market Risk" contained on page 23 of the

-9-

10
company's 2000 Annual Report to its shareholders is incorporated herein by reference.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

The consolidated financial statements of the company and its subsidiaries, together with the independent auditors' report relating thereto, contained on pages 24 through 41, inclusive, of the company's 2000 Annual Report to its shareholders, and the Quarterly Financial Data (Unaudited) contained on page 41 of such 2000 Annual Report, are incorporated herein by reference.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

Not applicable.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT.

The information contained under the heading "Election of Directors" on pages 3 to 7, inclusive, of the company's Proxy Statement dated March 14, 2001, is incorporated herein by reference. Information relative to executive officers of the company is contained under "Executive Officers of the Registrant" in Part I of this Annual Report on Form 10-K.

ITEM 11. EXECUTIVE COMPENSATION.

Edgar Filing: LUBRIZOL CORP - Form 10-K405

The information relating to executive compensation contained under the headings "Director Compensation" on page 9, "Executive Compensation Summary Compensation Table" and "- Stock Incentive Plans" on pages 12 through 14, inclusive, and under "Employee and Executive Officer Benefit Plans - Pension Plans" and "- Executive Agreements" on pages 17 through 20, inclusive, of the company's Proxy Statement dated March 14, 2001, is incorporated herein by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT.

The information relating to security ownership set forth under the heading "Share Ownership of Directors, Executive Officers and Large Beneficial Owners" on pages 10 and 11 of the company's Proxy Statement dated March 14, 2001, is incorporated herein by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

The information contained in footnote (1) under the heading "Share Ownership of Directors, Executive Officers and Large Beneficial Owners - Five Percent Beneficial Owners" on page 11 of the company's Proxy Statement dated March 14, 2001, is incorporated herein by reference.

-10-

11

PART IV

ITEM 14. EXHIBITS, FINANCIAL STATEMENT SCHEDULES,
AND REPORTS ON FORM 8-K.

(a) Documents filed as part of this Annual Report:

1. The following consolidated financial statements of The Lubrizol Corporation and its subsidiaries, together with the independent auditors' report relating thereto, contained on pages 24 through 41, inclusive, of Lubrizol's 2000 Annual Report to its shareholders, and incorporated herein by reference:

Independent Auditors' Report

Consolidated Statements of Income for the years ended December 31, 2000, 1999 and 1998

Consolidated Balance Sheets at December 31, 2000 and 1999

Consolidated Statements of Cash Flows for the years ended December 31, 2000, 1999 and 1998

Consolidated Statements of Shareholders' Equity

Edgar Filing: LUBRIZOL CORP - Form 10-K405

for the years ended December 31, 2000, 1999 and 1998

Notes to Financial Statements

Quarterly Financial Data (Unaudited)

2. Schedules

No financial statement schedules are required to be filed as part of this Annual Report.

3. Exhibits

- (3) (a) Amended Articles of Incorporation of The Lubrizol Corporation, as adopted September 23, 1991. (Reference is made to Exhibit (3) (a) to The Lubrizol Corporation's Annual Report on Form 10-K for the year ended December 31, 1999, which Exhibit is incorporated herein by reference.)
- (3) (b) Regulations of The Lubrizol Corporation, as amended effective April 27, 1992. (Reference is made to Exhibit (3) (b) to The Lubrizol Corporation's Annual Report on Form 10-K for the year ended December 31, 1999, which Exhibit is incorporated herein by reference.)
- (4) (a) Amendment to Article Fourth of Amended Articles of Incorporation. (Reference is made to Exhibit (4) (a) to The Lubrizol Corporation's Annual Report on Form 10-K for the year ended December 31, 1999, which Exhibit is incorporated herein by reference.)
- (4) (b) Indenture dated as of November 25, 1998, between The Lubrizol Corporation and The First National Bank of Chicago as Trustee. (Reference is made to Exhibit (4) (b) to The Lubrizol Corporation's Annual Report on Form 10-K for the year ended December 31, 1998,

-11-

12

which Exhibit is incorporated herein by reference.)

The company agrees, upon request, to furnish to the Securities and Exchange Commission a copy of any instrument authorizing long-term debt that does not authorize debt in excess of 10% of

Edgar Filing: LUBRIZOL CORP - Form 10-K405

the total assets of the company and its subsidiaries on a consolidated basis.

- (4) (c) Amended and Restated Rights Agreement between The Lubrizol Corporation and American Stock Transfer & Trust Company dated as of July 26, 1999. (Reference is made to Exhibit 4.1 to The Lubrizol Corporation's Registration Statement on Form 8-A/A dated August 17, 1999, which Exhibit is incorporated herein by reference.)
- (10) (a) * The Lubrizol Corporation 1985 Employee Stock Option Plan, as amended.
