DATATRAK INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003
(Unaudited)

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of DATATRAK International, Inc. and subsidiaries (DATATRAK or the Company) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine month periods ended September 30, 2003 are not necessarily indicative of the results that may be expected for the year ending December 31, 2003. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Form 10-K for the year ended December 31, 2002 (File No. 000-20699).

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that might affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. Net Loss per Share

The following table sets forth the computation of basic and diluted loss per share.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2003	2002	2003	2002

\$(743,221)	\$(5,291,864)	

4. Shareholders Equity

Effective April 21, 2003, the Company entered into an agreement for consulting services related to its investor relations program. As compensation for these services, the Company issued 30,000 restricted common shares to an outside consultant. During the nine months ended September 30, 2003, a non-cash charge of \$42,000 was recorded as compensation expense for these common shares.

In addition, the same investor relations consultant was granted an option to purchase 25,000 common shares on May 27, 2003. The exercise price of the options is \$2.64 per share, the market price of the common shares on the date of grant. DATATRAK has recorded \$7,250 of compensation expense related to these options during the nine months ended September 30, 2003. The option will become exercisable in equal amounts over a three-year period and expires on the tenth anniversary of the date of grant. The option was granted under the Company's Amended and Restated 1996 Key Employees and Consultants Stock Option Plan.

In conjunction with its January 2002 private placement, DATATRAK issued 192,252 warrants to purchase common shares at a price of \$2.25 per share. The warrants, which contained a provision for a cashless exercise, were fully vested as of the grant date. During June 2003, the holders exercised these warrants and converted them into 59,154 common shares in a non-cash transaction.

On August 8, 2003, the Company completed a private placement of its common shares with certain outside investors. The Company sold 602,500 of its common shares at a price of \$4.00 per share. Net of expenses, the Company raised approximately \$2,239,000 in cash. In conjunction with this private placement, DATATRAK issued 25,125 warrants to purchase common shares at a price of \$4.80 per share. The warrants, which were valued at \$135,424, are fully vested as of the grant date and will expire five years from the date of grant.

5. Restricted Cash

Edgar Filing: DATATRAK INTERNATIONAL INC - Form 10-Q

The Company is party to an agreement with an unaffiliated third party to lease certain computer equipment. The lease has been recorded as a capital lease. Terms of the lease agreement require the Company to maintain a restricted cash balance equal to the outstanding balance payable on the lease. The restricted cash balance was \$59,451 at September 30, 2003.

Table of Contents

DATATRAK INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003
(Unaudited)

In addition, the company's wholly-owned subsidiary, DATATRAK GmbH, is required to provide a bank guarantee to the lessor of its office space equal to three months rent. The terms of the bank guarantee require DATATRAK GmbH to maintain a restricted cash balance of 59,082 Euros with the bank. The U.S. dollar equivalent of this amount was \$68,517 at September 30, 2003.

DATATRAK's total restricted cash balance was \$127,968 at September 30, 2003.

6. Stock Based Compensation

The Company has elected to follow Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees (APB No. 25) and related interpretations in accounting for its employee and director stock options. Under APB No. 25 compensation expense has been recognized for all options granted at less than the fair market value of the common shares on the date of grant. The alternative fair value accounting provided for under Financial Accounting Standards Board (FASB) Statement No. 123, Accounting for Stock-Based Compensation (Statement No. 123), requires use of option valuation models that were not developed for use in valuing employee stock options. FASB Statement No. 148, Accounting for Stock-Based Compensation Transition and Disclosure (Statement No. 148) requires disclosure of compensation expense under both APB No. 25 and Statement No. 123.

The following table sets forth stock based compensation for each period presented.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2003	2002	2003	2002
Actual stock compensation expense recognized under APB No. 25	\$9,132	\$3,693	\$60,331	\$11,079
Stock compensation expense that would have been recognized under Statement No. 123	\$365,481	\$92,756	\$532,872	\$307,920

Pro forma information regarding net income and earnings per share is required by Statement No. 123, which also requires that the information be determined as if the Company has accounted for its stock options granted subsequent to December 31, 1994 under the fair value method of that Statement.

For purposes of pro forma disclosures, the estimated value of the options is amortized to expense over the options' vesting period. The pro forma results are not necessarily indicative of what would have occurred had the Company adopted Statement No. 123. The Company's pro forma information follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2003	2002	2003	2002
Pro forma net loss	\$(424,354)	\$(1,874,091)	\$(1,223,872)	\$(5,588,795)
Pro forma basic and diluted loss per share	\$(0.08)	\$(0.38)	\$(0.23)	\$(1.13)

7. Reclassification

Certain prior year amounts have been reclassified to conform to the current year presentation.

Table of Contents

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition

The information set forth and discussed below for the three and nine month periods ended September 30, 2003 is derived from, and should be read in conjunction with, the condensed consolidated financial statements included elsewhere herein. The financial information set forth and discussed below is unaudited, but in the opinion of management, reflects all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of such information. The Company's results of operations for a particular quarter may not be indicative of results expected during the other quarters or for the entire year.

General

DATATRAK is a provider of software and other related services, commonly referred to as an application service provider, or ASP. DATATRAK's customers use the software known as DATATRAK EDC® to collect and transmit clinical trial data, commonly referred to as electronic data capture, or EDC. The Company's services assist companies in the clinical pharmaceutical, biotechnology, contract research organization (CRO) and medical device research industries, in accelerating the completion of clinical trials. Approximately 67% of the Company's assets, or approximately \$4,541,000, are held in cash, cash equivalents and short-term investments. Since commencing EDC operations in 1997, the Company has experienced growth in revenue, but continues to record net operating losses. The Company is continuing to enhance and commercialize the DATATRAK EDC® software and anticipates that its operating results will fluctuate significantly from period to period. There can be no assurance of the Company's long-term future prospects.

The Company's contracts provide a fixed price for each component or service to be delivered, and revenue is recognized as these components or services are delivered. Services provided by DATATRAK that are in addition to those provided for in its contracts are billed on a fee for service basis as completed. Generally, these contracts range in duration from one to three years. The ultimate contract value is dependent upon the length of the customer's use of DATATRAK EDC® and the services provided by DATATRAK. As services are performed over the life of the contract, revenue is recognized per the specific terms of each contract. Costs associated with contract revenues are recognized as incurred. These contracts can be terminated by the customer with or without cause. DATATRAK is entitled to payment for all work performed through the date of notice of termination and for recovery of some or all costs incurred to terminate a contract. The termination of a contract will not result in a material adjustment to revenue or costs previously recognized.

Since its purchase of the DATATRAK EDC® software in January 1998, DATATRAK has recorded revenue related to approximately seventy contracts from many customers. At September 30, 2003, DATATRAK's backlog was \$13.1 million. Backlog reflects the removal of three contracts from one customer totaling \$1.7 million. These contracts were canceled for reasons unrelated to the use of EDC. Due to DATATRAK's early stage of development, there can be no assurance as to its future levels of revenue.

Critical Accounting Policies

In response to the SEC's Release No. 33-8040, Cautionary Advice Regarding Disclosure About Critical Accounting Policies, the Company has identified the most critical accounting principles upon which its financial status depends. Critical principles were determined by considering accounting policies that involve the most complex or subjective decisions or assessments. The most critical accounting policies were identified to be those related to revenue recognition, software development costs and stock based compensation.

A summary of these critical accounting policies can be found in the Company's Annual Report on Form 10-K, filed on March 27, 2003, under the heading "Critical Accounting Policies" in Management's Discussion and Analysis of Financial Condition and Results of Operations.

Table of Contents

Results of Operations

Three months ended September 30, 2003 compared with three months ended September 30, 2002

Revenue for the three months ended September 30, 2003 increased 25.9% to \$1,895,000, as compared to \$1,505,000 for the three months ended September 30, 2002. The increase was largely due to greater acceptance of the DATATRAK EDC® software by clinical trial sponsors, resulting in an increase in the number of clinical trials using the DATATRAK EDC® software.

Direct costs of revenue, mainly personnel costs, were \$411,000 and \$470,000 during the three months ended September 30, 2003 and 2002, respectively. Staff reductions and other payroll cost savings caused direct personnel costs to decrease by \$75,000 during the three months ended September 30, 2003. Other direct costs, including travel and other costs billed directly to DATATRAK's customers, increased by \$16,000 during the three months ended September 30, 2003. This reduction in direct costs combined with the Company's increased revenue, resulted in a gross margin of 78.3% for the three months ended September 30, 2003, compared to 68.8% in the second quarter of 2003. Based on its anticipated levels of revenue and current cost structure, DATATRAK anticipates that its gross margin in 2003 will be approximately 75.0% throughout the remainder of 2003.

Selling general and administrative (SG&A) expenses include all administrative personnel costs, business and software development costs, and all other expenses not directly chargeable to a specific contract. SG&A expenses decreased by 38.6% to \$1,336,000 from \$2,177,000 for the three months ended September 30, 2003 and 2002, respectively. Staff reductions and other payroll cost savings caused personnel costs to decrease by \$535,000 during the three months ended September 30, 2003. Cost reductions in other areas resulted in additional savings of \$306,000 during the three months ended September 30, 2003. The decrease in SG&A expenses is consistent with what the Company anticipated when staff reductions and other cost-cutting measures were implemented at the end of 2002.

During the three months ended September 30, 2002, DATATRAK recorded special charges of \$364,000. Included in special items was \$126,000 of expenses associated with the termination of a potential acquisition. Also, during the three months ended September 30, 2002, \$238,000 of expenses related to the reduction of 20 employees were recorded.

Depreciation and amortization expense decreased to \$221,000 during the three months ended September 30, 2003 from \$294,000 during the three months ended September 30, 2002. The decrease was the result of aging assets not being replaced as indicated by the low level of capital expenditures during 2003.

Other income decreased to \$5,000 during the three months ended September 30, 2003 from \$15,000 during the three months ended September 30, 2002. Other income includes interest income which decreased \$12,000 for the three months ended September 30, 2003, compared to September 30, 2002.

Nine months ended September 30, 2003 compared with nine months ended September 30, 2002

Revenue for the nine months ended September 30, 2003 increased 46.8% to \$5,087,000, as compared to \$3,466,000 for the nine months ended September 30, 2002. Included in revenue for the nine months ended September 30, 2003, is a one-time fee of \$150,000. The \$150,000 fee relates to consulting work performed for a current customer that was outside of a traditional EDC contract. The remainder of the increase was largely due to greater acceptance of the DATATRAK EDC® software by clinical trial sponsors, resulting in an increase in the number of clinical trials using the DATATRAK EDC® software.

Direct costs of revenue, mainly personnel costs, were \$1,111,000 and \$1,410,000 during the nine months ended September 30, 2003 and 2002, respectively. Staff reductions and other payroll cost savings caused direct personnel costs to decrease by \$248,000 during the nine months ended September 30, 2003.

Table of Contents

Other direct costs, including travel and other costs billed directly to DATATRAK's customers, decreased by \$51,000 during the nine months ended September 30, 2003. This reduction in direct costs combined with the Company's increased revenue, resulted in a gross margin of 78.2% for the nine months ended September 30, 2003, compared to 59.3% during the first nine months of 2003. The \$150,000 one-time revenue item caused a 0.7% increase in gross margin during the first nine months of 2003.

SG&A expenses decreased by 35.1% to \$4,024,000 from \$6,204,000 for the nine months ended September 30, 2003 and 2002, respectively. Staff reductions and other payroll cost savings caused personnel costs to decrease by \$1,392,000 during the nine months ended September 30, 2003. Cost reductions in other areas resulted in additional savings of \$788,000 during the nine months ended September 30, 2003. The decrease in SG&A expenses is consistent with what the Company anticipated when staff reductions and other cost-cutting measures were implemented at the end of 2002.

Depreciation and amortization expense decreased to \$714,000 during the nine months ended September 30, 2003 from \$846,000 during the nine months ended September 30, 2002. The decrease was the result of aging assets not being replaced as indicated by the low level of capital expenditures during 2003.

Other income decreased to \$11,000 during the nine months ended September 30, 2003 from \$66,000 during the nine months ended September 30, 2002. Interest income decreased \$64,000 for the nine months ended September 30, 2003 compared to September 30, 2002, primarily due to the Company's use of cash to fund its operating losses and other working capital needs.

Liquidity and Capital Resources

Since its inception, the Company's principal sources of cash have been cash flow from operations and proceeds from the sale of equity securities. The Company's investing activities primarily reflect capital expenditures and net purchases of short-term investments. In January 2002, the Company raised, net of expenses, approximately \$3,831,000 in cash through the completion of a private placement of its common shares. The Company completed a second private placement of its common shares in August 2003 in which it raised, net of expenses, approximately \$2,239,000 in cash.

The Company's contracts usually require a portion of the contract amount to be paid at the time the contract is initiated. Additional payments are generally received upon completion of negotiated performance milestones throughout the life of the contract. All amounts received are recorded as a liability (deferred revenue) until work has been completed and revenue is recognized. Cash receipts do not necessarily correspond to costs incurred or revenue recognized. The Company typically receives a low volume of large-dollar receipts. Accounts receivable will fluctuate due to the timing and size of cash receipts. Accounts receivable (net of allowance for doubtful accounts) was \$787,000 at September 30, 2003 and \$884,000 at December 31, 2002. Deferred revenue was \$1,107,000 at September 30, 2003 and \$902,000 at December 31, 2002.

Cash and cash equivalents increased \$234,000 during the nine months ended September 30, 2003. This was the result of \$21,000 used in operating activities, \$1,875,000 used in investing activities and \$2,130,000 provided by financing activities. Cash used for operating activities resulted primarily from the Company's net loss exclusive of depreciation expense. Investing activities included net purchases of short-term investments of \$1,831,000 and \$44,000 used to purchase property and equipment. Financing activities include \$2,239,000 received from the Company's private placement of common shares, which was partially offset by capital lease payments of \$103,000.

At September 30, 2003, the Company had working capital of \$3,658,000, and its cash, cash equivalents and short-term investments totaled \$4,541,000. The Company's working capital increased by \$2,192,000 since December 31, 2002. Cash, cash equivalents and short-term investments increased by \$2,073,000, primarily as a result of the private placement of common shares in August 2003, and current liabilities decreased by \$94,000.

Table of Contents

The Company is responsible for funding the future enhancement and testing of the DATATRAK EDC® software. The Company will continue to invest in the development of the DATATRAK® process. The Company's operations and the EDC market are still in a developmental stage. Although DATATRAK has experienced growth in revenue and has demonstrated improvement in its financial results, the possibility still exists that the Company will have negative cash flow from operations for the year ended December 31, 2003 as it continues to build its customer base, increase its backlog and convert existing backlog into revenue. The Company anticipates capital and related expenditures of approximately \$150,000 through the end of the current year for continued commercialization and product development of DATATRAK EDC®, which the Company expects to fund from existing cash and cash equivalents, maturities of short-term investments and cash flow from operations. With the completion of its August 2003 private placement, the Company believes that its cash and cash equivalents, maturities of short-term investments and cash flow from operations, together with its existing sources of equity, will be sufficient to meet its working capital and capital expenditure requirements for the foreseeable future.

Inflation

To date, the Company believes the effects of inflation have not had a material adverse effect on its results of operations or financial condition.

Information About Forward-Looking Statements

Certain statements made in this Form 10-Q, other SEC filings or written materials or orally by the Company or its representatives may constitute forward-looking statements that are based on management's current beliefs, estimates and assumptions concerning the operations, future results and prospects of the Company and the clinical pharmaceutical research industry in general. All statements that address operating performance, events or developments that management anticipates will occur in the future, including statements related to future revenue, profits, expenses, income and earnings per share or statements expressing general optimism about future results, are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act). In addition, words such as expects, anticipates, intends, plans, believes, estimates, variations of such words, and similar expressions are intended to identify forward-looking statements. Forward-looking statements are subject to the safe harbors created in the Exchange Act. Factors that may cause actual results to differ materially from those in the forward-looking statements include the ability of the Company to absorb corporate overhead and other fixed costs in order to successfully market the DATATRAK EDC® software; the development of and fluctuations in the market for electronic data capture technology; the degree of the Company's success in obtaining new contracts and completing existing contracts; the timing of payments from customers and the timing of clinical trial sponsor decisions to conduct new clinical trials or cancel or delay ongoing trials; governmental regulation; the early stage of the Company's ASP operations; and general economic conditions such as the rate of employment, inflation, interest rates and the condition of capital markets. This list of factors is not all inclusive. In addition, the Company's success depends on the outcome of various strategic initiatives it has undertaken, all of which are based on assumptions made by the Company concerning trends in the clinical research market and the health care industry. The Company undertakes no obligation to update these forward-looking statements or other information contained herein.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is exposed to market risk from changes in interest rates and foreign currency exchange rates since it funds its operations through short-term investments and has business transactions in Euros. A summary of the Company's market risk exposures is presented below.

Interest Rate Risk

Table of Contents

DATATRAK has fixed income investments consisting of cash equivalents and short-term investments, which may be affected by changes in market interest rates. The Company does not use derivative financial instruments in its investment portfolio. The Company places its cash equivalents and short-term investments with high-quality financial institutions, limits the amount of credit exposure to any one institution and has established investment guidelines relative to diversification and maturities designed to maintain safety and liquidity. Investments are reported at amortized cost, which approximates fair value. A 1.0% change in interest rates during the nine months ended September 30, 2003, would have resulted in a \$26,000 change in DATATRAK's interest income during the nine month period.

Foreign Currency Risk

DATATRAK's foreign results of operations are subject to the impact of foreign currency fluctuations. The Company manages its risk to foreign currency exchange rates by maintaining foreign currency bank accounts in currencies in which it regularly transacts business. DATATRAK does not currently hedge against the risk of exchange rate fluctuations. A 1.0% fluctuation in the exchange rate between United States dollars and the Euro at September 30, 2003, would have resulted in a \$68,000 change in the foreign currency translation amount recorded on the Company's balance sheet, and \$73,000 change in the Company's net loss for the nine months ended September 30, 2003 due to foreign currency transactions.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of September 30, 2003 an evaluation was performed, under the supervision and with the participation of the Company's management including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(e). Based upon that evaluation such officers concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms.

Changes in Internal Controls

There were no changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

None.
Item 2.
Changes
in
Securities
and Use
of
Proceeds

Effective August 6, 2003, the Company's Sixth Amended and Restated Articles of Incorporation (the Restated Articles) became effective. The Restated Articles increase the number of authorized Common Shares from 15,000,000 to 25,000,000, and reduces the number of authorized Preferred Shares from 3,860,000 to 1,000,000.

On August 8, 2003, the Company issued 602,500 common shares in connection with the consummation of a private placement to a total of thirteen purchasers at a purchase price of \$4.00 per common share. The terms of the private placement included the issuance of five-year warrants to purchase

Table of Contents

a total of 25,125 common shares at \$4.80 per common share to Robert R. Blakely, Scott R. Griffith and Jesse B. Shelmire (all who are principals of Stonegate Securities, Inc), Mark Jazwin and Jan Koontz (both who are agents of Scottsdale Capital Advisors), Scottsdale Capital Advisors, and Cardinal Securities, LLC the Company's placement agents for the private placement. The aggregate offering price of the 602,500 common shares was \$2,410,000, and Stonegate Securities, Inc., Scottsdale Capital Advisors, and Cardinal Securities, LLC received commissions totaling of \$100,500 (or 5% of the aggregate offering price attributable to the placement agents), plus the warrants disclosed above, in connection with the private placement. The Company expects to use the proceeds of the private placement to expand its worldwide marketing and sales efforts, continue investing in software development and for other general working capital purposes.

The sale of the common shares and the issuance of warrants in connection with the private placement was deemed to be exempt from registration under the Securities Act of 1933, as amended (the Securities Act), in reliance on Section 4(2) of the Securities Act or Regulation D promulgated thereunder. The Company had reason to believe that each purchaser was familiar with or had access to information concerning its operations and financial condition, and each purchaser represented that they were an accredited investor as defined in the Securities Act. At the time of the issuance, the common shares and the warrants were deemed to be restricted securities for purposes of the Securities Act and the instruments representing such securities included legends to that effect.

Subsequently, on September 2, 2003 and in accordance with the terms and conditions of that certain Share Purchase Agreement entered into by and between the above purchasers and the Company, the Company filed a Form S-3 Registration Statement with the Securities and Exchange Commission (the Commission), to register the common shares and the common shares underlying the warrants. The Commission on September 18, 2003 declared effective the registration statement on Form S-3 (File No. 333-108439).

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders
None.

Item 5. Other Information
