Report of Independent Registered Public Accounting Firm

To the Retirement Committee
Sparton Corporation 401(k) Plan
Jackson, Michigan

We have audited the accompanying statements of net assets available for benefits of the Sparton Corporation 401(k) Plan (the Plan) as of June 30, 2008 and 2007, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 8, the Astro Instrumentation , Inc. 401(k) Plan was transferred into the Plan in July 2007. In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of June 30, 2008 and 2007, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of Assets (Held at End of Year) as of June 30, 2008, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

1. Plan Description

The following description of Sparton Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan s provisions.

General

The Plan includes all eligible employees of Sparton Corporation and its wholly owned subsidiaries, Sparton Electronics Florida, Inc., Sparton Technology Inc., Spartronics, Inc., and Sparton Medical Systems, Inc. (referred to as the Company). It is a defined contribution plan covering employees of the Company who have attained the age of 20 and have completed at least six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Eligible employees automatically defer 2% of their compensation, unless they elect a contrary salary reduction or not to participate. Participants may contribute up to 100% of their compensation, subject to certain limitations. The Company provides matching cash contributions of 50% of the amounts contributed by each participant up to 6% of their compensation. The Company may contribute to the Plan discretionary contributions in the form of matching contributions, profit sharing contributions or qualified nonelective contributions(QNECs).

Participant Accounts

Each participant account is credited with the participant s and the Company s contributions, as well as an allocation of Plan earnings or losses. Investment earnings and losses are credited to each participant s account on a daily basis based upon the performance of the funds in that participant s account. Participants direct the investment of their contributions into various investment funds offered by the Plan. The Plan currently offers various mutual funds, a common/collective trust, and common stock as investment options for participants. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant s account.

Participant Loans

Participants may borrow up to the lesser of \$50,000 or 50% of their vested account balance, excluding Company stock. The loans are secured by the balance in the participant s account and bear interest rates that range from 5.00% to 9.25%, which were commensurate with local prevailing rates at the time that they were originated. Loans must be repaid within five years with the exception of loans for a primary residence, which must be repaid within 15 years. Principal and interest are paid ratably through regular payroll deductions.

*Sparton Corporation 401(k) Plan
Financial Statements and Supplemental Schedule
Fiscal Years Ended June 30, 2008 and 2007*

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their account is based upon years of credited service, becoming 100% vested after five years of credited service.

Payment of Benefits

In the event of normal, early, or disability retirement of a participant, termination of employment or in the event of death, the participant or beneficiary can elect to receive a lump sum payment equal to their vested account balance or maintain their account in the Plan on a tax deferred basis, if the vested account balance exceeds \$5,000, until the participant reaches age 70 1/2.

If a participant elects to receive a distribution of their vested account balance upon termination of employment for any reason other than retirement, death or termination of the Plan, the participant will receive a lump sum payment. Under certain hardship conditions, a participant may be allowed to withdraw all or a portion of their contributions.

Forfeitures

Forfeitures consist of the nonvested portions of terminated participants accounts. If a participant was subsequently rehired prior to five one-year consecutive breaks in service, forfeitures may be reinstated to the participant's account. Forfeitures are held by the Plan and become available immediately to pay administrative fees related to the Plan. Forfeitures used to pay Plan expenses were \$21,937 and \$18,034 for the plan years ended June 30, 2008 and 2007, respectively. The unused forfeiture balance amounted to \$4,794 and \$10,133 at June 30, 2008 and 2007, respectively.

Administrative Fees

The Company pays certain administrative costs of the Plan, that are not covered by forfeitures, associated with any professional services provided to the Plan, and the cost of communications to the participants. Administrative expenses recorded in the Plan represent trustee fees and record keeping fees paid directly from the Plan to the Plan's trustee. Loan fees are deducted directly from the participants' accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Table of Contents

*Sparton Corporation 401(k) Plan
Financial Statements and Supplemental Schedule
Fiscal Years Ended June 30, 2008 and 2007*

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of changes in net assets available for benefits.

Concentration of Investments

Included in investments at June 30, 2008 and 2007, are shares of the Company's common stock amounting to \$1,363,171 and \$2,841,550, respectively. This investment represents 7% and 15% of total investments at June 30, 2008 and 2007, respectively. A participant's total investment in Sparton common stock is subject to a 20% limitation of the total value of the participant's account. A significant decline in the market value of the Company's stock would significantly affect the net assets available for benefits.

Investment Valuation and Income Recognition

Plan assets invested in mutual funds and Company common stock are stated at aggregate fair value based upon quoted market prices. Participant loans are stated at their outstanding balances, which approximates their fair value. The Plan holds shares of a common/collective trust (CCT) that has investments in fully benefit-responsive investment contracts. CCTs with underlying investment contracts held by a defined contribution plan are required to be reported at fair value. The Plan's investment in the Sun Trust Stable Asset Fund is stated at contract value, which represents net contributions plus interest at the contract rate and approximates fair value. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

New Accounting Pronouncement

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, *Fair Value Measurements*. SFAS No. 157 establishes a single authoritative definition of fair value, sets a framework for measuring fair value and requires additional disclosures about fair value measurement. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007. Plan management has not completed the process of evaluating the impact that will result from adopting SFAS No. 157. Plan management is therefore unable to disclose the impact that adopting SFAS No. 157 will have on its net assets available for benefits and changes in net assets available for benefits when such statement is adopted.

Payment of Benefits

Benefits are recorded when paid.

* *Below 5% of net
assets available
for benefits.*

The Plan's investments (including investments purchased, sold and held during year) appreciated (depreciated) in fair value as determined by quoted market prices as follows:

Year ended June 30:	2008	2007
Common/collective trust	\$ 255,970	\$ 326,168
Mutual funds	(2,167,812)	862,252
Company common stock	(1,105,378)	(340,678)
	\$ (3,017,220)	\$ 847,742

4. Non-participant Directed Investment

Prior to July 1, 2007, employer contributions were directed to the investment of Company common stock, which investment could not be redirected. No employee contributions could be invested in such shares. Effective July 1, 2007, with respect to employer matching contributions the Company allowed employer stock diversification of up to 33% in 2007, up to 66% in 2008, and 100% diversification in 2009. Participants who are age 55 or older with three years of credited service may diversify up to 100% of their matching contributions. At the election of the participant, both employee and employer contributions may be invested in any of the available investment options under the Plan, which election options now include the Company's common stock. However, an employee's total investment in Common stock is subject to a 20% limitation of the total value of the employee's fund balance.

Information about the net assets and the significant components of changes in net assets related to the non-participant directed investments for fiscal 2007 is as follows:

June 30:	2007
Company common stock	\$2,841,550
Year ended June 30:	2007
Company contributions	\$ 703,286
Net appreciation (depreciation) in fair value of Company common stock	(340,678)
Redemptions	(334,000)
Net Change In Non-Participant Directed Investment	\$ 28,608

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate or partially terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their Company contribution account.

6. Income Tax Status

The Internal Revenue Service has determined in a letter dated December 4, 2003 that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter, including amendments made to comply with recent law changes. However, the Plan Administrator and trustee believe that the Plan is designed, and is currently being operated, in compliance with the applicable provisions of the IRC.

7. Related Party Transactions

The Plan invests in certain investments managed by SunTrust Bank, the trustee, and as such, these investments are considered party-in-interest transactions. Fees paid to SunTrust totaled \$44,704 and \$39,636 for the years ended June 30, 2008 and 2007, respectively.

8. Plan Transfer

During the year ended June 30, 2007, employees of Sparton Medical Systems, Inc. (formerly Astro Instrumentation, Inc.), the Company's wholly owned subsidiary acquired in May 2006, were not eligible to participate in the Plan. However, as of July 1, 2007, the Plan was amended so that employees of Sparton Medical Systems, Inc. became eligible to participate in the Plan. As a result, total assets of \$1,274,269 from the Astro Instrumentation, Inc. 401(k) Plan were transferred into the Plan in July 2007.

9. Subsequent Event

Subsequent to year-end, the credit and liquidity crisis in the United States and throughout the global financial system triggered significant events and substantial volatility in world financial markets and the banking system that have had a significant negative impact on foreign and domestic financial markets. As a result, the Plan's investment

portfolio has incurred a significant decline in fair value since June 30, 2008. However, because the values of the Plan's individual investments have and will fluctuate in response to changing market conditions, the amount of losses that will be recognized in subsequent periods, if any, cannot be determined.
